My Antonia Simon and Schuster

A rare, searing portrayal of the future of climate change in South Asia. A streetrat turned revolutionary and the disillusioned hacker son of a politician try to take down a ruthlessly technocratic government that sacrifices its poorest citizens to build its utopia. The South Asian Province is split in two. Uplanders lead luxurious lives inside a climate-controlled biodome, dependent on technology and gene therapy to keep them healthy and youthful forever. Outside, the poor and forgotten scrape by with discarded black-market robotics, a society of poverty-stricken cyborgs struggling to survive in slums threatened by rising sea levels, unbreathable air, and deadly superbugs. Ashiva works for the Red Hand, an underground network of revolutionaries fighting the government, which is run by a merciless computer algorithm that dictates every citizen's fate. She's a smuggler with the best robotic arm and cybernetic enhancements the slums can offer, and her cargo includes the most vulnerable of the city's abandoned children. When Ashiva crosses paths with the brilliant hacker Riz-Ali, a privileged Uplander who finds himself embroiled in the Red Hand's dangerous activities, they uncover a horrifying conspiracy that the government will do anything to bury. From armed guardians kidnapping children to massive robots flattening the slums, to a pandemic that threatens to sweep through the city like wildfire, Ashiva and Riz-Ali will have to put aside their differences in order to fight the system and save the communities they love from destruction.

Toothiana, Queen of the Tooth Fairy Armies HarperCollins #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious

world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother’s unconventional, unconditional love.

A designer’s deep dive into seven science fiction films, filled with “gloriously esoteric nerdery [and] observations as witty as they are keen” (Wired). In *Typeset in the Future*, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001: A Space Odyssey, Star Trek: The Motion Picture, Alien, Blade Runner, Total Recall, WALL-E, and Moon, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (Star Trek), Paul Verhoeven (Total Recall), and Ralph Eggleston and Craig Foster (Pixar). *Typeset in the Future* is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

The field of Johannine Christology has been well covered, but Mr. Sidebottom has found new things to say and new material to put before the reader. His method is to analyze the language used about our Lord by the writer of the Fourth Gospel and to interpret it in the light of contemporary first-century thought and phraseology. Those who are already familiar with the Hermetic and similar literature will find new insights here; while for those who have not yet become acquainted with it, Mr. Sidebottom is a learned and stimulating guide. The student will be particularly grateful for the way in which he gathers into a convenient compass much of importance that has hitherto been difficult to access, and for his dealing less in generalizations than in direct quotations from which the reader is encouraged to draw his own conclusions.

The Guardians’ powers are put to the ultimate test in their final battle in this thrilling conclusion to the epic chapter book series from William Joyce. When we last saw the Guardians, they were celebrating their victory during Bright Night, the final great Battle of the Moon, where they defeated Pitch once and for all. Or so they thought. Now, many years later, the Guardians have settled into their final selves, embracing their public images and the Earth Holidays. But the world has not been without evil since Pitch’s imprisonment. All the Guardians feel the weight of lurking menace, but Jack Frost—now half human, half of his former self

Nightlight—feels it the most. Jack’s transition from Nightlight to Guardian was not an easy one. Always inclined to keep to himself, Jack has become especially isolated from the other Guardians since his transformation. Yet it is Jack who Ombric Shalazar (once a great wizard, now known as Father Time) trusts with a tremendous secret. But for Jack to fully understand this secret, he must revisit his past—and finally tell his story. Jack’s story, however, isn’t the only one to be reopened; an old enemy whose chapter we thought closed will reappear and with him bring a darkness and destruction that will test the Guardians like never before. It’s a battle of superlatives—the worse fighting the greatest, but where, oh where, is Jack?
