With over 70,000 copies of the first edition in print, this radical treatise on public education has been a New Society Publishers’ bestseller for 10 years! Thirty years in New York City’s public schools led John Gatto to the sad conclusion that compulsory schooling does little but teach young people to follow orders like cogs in an industrial machine. This second edition describes the wide-spread impact of the book and Gatto’s “guerrilla teaching.” John Gatto has been a teacher for 30 years and is a recipient of the New York State Teacher of the Year award. His other titles include A Different Kind of Teacher (Berkeley Hills Books, 2001) and The Underground History of American Education (Oxford Village Press, 2000).

NEW YORK TIMES BESTSELLER • An essential volume for generations of writers young and old. The twenty-fifth anniversary edition of this modern classic will continue to spark creative minds for years to come. Anne Lamott is "a warm, generous, and hilarious guide through the writer’s world and its treacherous swamps" (Los Angeles Times). “Superb writing advice.... Hilarious, helpful, and provocative.” —The New York Times Book Review For a quarter century, more than a million readers—scribes and scribblers of all ages and abilities—have been inspired by Anne Lamott’s hilarious, big-hearted, homespun advice. Advice that begins with the simple words of wisdom passed down from Anne’s father—also a writer—in the iconic passage that gives the book its title: “Thirty years ago my older brother, who was ten years old at the time, was trying to get a report on birds written that he’d had three months to write. It was due the next day. We were out at our family cabin in Bolinas, and he was at the kitchen table close to tears, surrounded by binder paper and pencils and unopened books on birds, immobilized by the hugeness of the task ahead. Then my father sat down beside him, put his arm around my brother’s shoulder, and said, ‘Bird by bird, buddy. Just take it bird by bird.’”

'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the Daodejing or Classic of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

The #1 New York Times bestseller. Over 10 million copies sold! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems. Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

Why do some people age in failing health and sadness, while others grow old with vitality and joy? In this revolutionary book, bestselling author John Robbins presents us with a bold new paradigm of aging, showing us how we can increase not only our lifespan but also our health span. Through the example of four very different cultures that have the distinction of producing some of the world’s healthiest, oldest people, Robbins reveals the secrets for living an extended and fulfilling life in which our later years become a period of wisdom, vitality, and happiness. From Abkhasia in the Caucasus south of Russia, where age is beauty, and Vilcabamba in the Andes of South America, where laughter is the greatest medicine, to Hunza in Central Asia, where dance is ageless, and finally the southern Japanese islands of Okinawa, the modern Shangri-la, where people regularly live beyond a century, Robbins examines how the unique lifestyles of these peoples can influence and improve our own. Bringing the traditions of these ancient and vibrantly healthy cultures together with the latest breakthroughs in medical science, Robbins reveals that, remarkably, they both point in the same direction. The result is an inspirational synthesis of years of research into healthy aging in which Robbins has isolated the characteristics that will enable us to live long and-most important-joyous lives. With an emphasis on simple, wholesome, but satisfying fare, and the addition of a manageable daily exercise routine, many people can experience great improvement in the quality of their lives now and for many years to come. But perhaps more surprising is Robbins’ discovery that it is not diet and exercise alone that helps people to live well past one hundred. The quality of personal relationships is enormously important. With startling medical evidence about the effects of our interactions with others, Robbins asserts that loneliness has more impact on lifespan than such known vices as smoking. There is clearly a strong beneficial power to love and connection.

From Michael Ondaatje: an electrifying new novel, by turns thrilling and deeply moving -- one of his most vividly rendered and compelling works of fiction to date. In the early 1950s, an eleven-year-old boy boards a huge liner bound for England. At mealtimes, he is placed at the lowly "Cat's Table" with an eccentric and unforgettable group of grownups and two other boys. As the ship makes its way across the Indian Ocean, through the Suez Canal, into the Mediterranean, the boys find themselves immersed in the worlds and stories of the adults around them. At night they spy on a shackled prisoner -- his crime and fate a galvanizing mystery that will haunt them forever. Looking back from deep within adulthood, and gradually moving back and forth from the decks and holds of the ship to the years that follow the narrator unfolds a spellbinding and layered tale about the magical, often forbidden discoveries of childhood and the burdens of earned understanding, about a life-long journey that began unexpectedly with a sea voyage.

The brain resists dramatic behavioral shifts. Recognizing this and developing a strategy around it made the original Mini Habits the #1 selling self-help book in a number of countries. In Mini Habits for Weight Loss, you'll discover that we also biologically resist such changes, which explains why most dieters and smoothie-cleanse aficionados lose weight in the short term, only to gain it all back (and more). Mini Habits for Weight Loss will show you how to make dietary changes in a sustainable, permanent way that doesn't trigger biological or neurological resistance. It's an advanced version of the method that made the original book a hit in 14 languages. The mini habits remain easy to implement, but the reasoning and supporting strategies are more sophisticated. This is by necessity, as weight loss factors are many and varied. All the suggestions in the book are rooted in extensive biological and neuroscience research.

The National Book Award-winning novel—and contemporary classic—that launched the brilliant career of Gloria Naylor, now with a foreword by Tayari Jones “[A] shrewd and lyrical portrayal of many of the realities of black life . . . Naylor bravely risks sentimentality and melodrama to write her compassion and outrage large, and she pulls it off triumphantly.” —The New York Times Book Review “Brims with inventiveness—and relevance.” —NPR's Fresh Air In her heralded first novel, Gloria Naylor weaves together the stories of seven women living in Brewster Place, a bleak-inner city sanctuary, creating a powerful, moving portrait of the strengths, struggles, and hopes of black women in America. Vulnerable and resilient, openhanded and openhearted, these women forge their lives in a place that in turn threatens and protects—a common prison and a shared home. Naylor renders both loving and painful human experiences with simple eloquence and uncommon intuition in this touching and unforgettable read.

This is a collection of short stories in Intermediate English for EFL and other English learning contexts. Each story is accompanied by a vocabulary guide, a student worksheet and notes for teachers. Though specially written with language learners in mind, and aimed at teenage readers, these short stories use perfectly normal English, and avoid any kind of artificial simplified language. For this reason, they may also be appreciated by native English readers in years or grades 8 to 10. The stories in this book are graded by difficulty, varying from CEFR Level B1 (threshold) to CEFR level C1 (proficiency). Each story, or in the case of two-part stories, each part of a story, is accompanied by a worksheet and by teaching notes with suggestions for getting the most out of each story in class or for home assignments. The stories are full of everyday expressions, idioms, and daily vocabulary, and most of them include plenty of dialogue. Where "difficult" vocabulary is needed or used, it is used as required, and the words and expressions are explained in the short accompanying vocabulary guides, or else developed in the worksheet or teaching ideas sections.

“Like the best of the Bard himself, Long Story Short combines dazzling repartee with iconic, nuanced characters and the kind of charged, perfectly paced romance fit for the world stage...a sparkling Shakespearean homage and a wonderful debut.” —Emily Wibberley and Austin Siegemund-Broka, authors of *Always Never Yours* In Serena Kaylor's sparkling debut, a homeschooled math genius finds herself out of her element at a theater summer camp and learns that life—and love—can't be lived by the (text)book. Growing up homeschooled in Berkeley, California, Beatrice Quinn has always dreamed of discovering new mathematical challenges at Oxford University. She always thought the hardest part would be getting in, not convincing her parents to let her go. But while math has always made sense to Beatrice, making friends is a problem she hasn't been able to solve. Before her parents will send her halfway across the world, she has to prove she won't spend the next four years hiding in the library. The compromise: the Connecticut Shakespearean Summer Academy and a detailed list of teenage milestones to check off. If Beatrice wants to live out her Oxford dream, she has to survive six weeks in the role of “normal teenager” first. Unfortunately, hearts and hormones don't follow any equations. When she's adopted by a group of eclectic theater kids, and immediately makes an enemy of the popular—and annoyingly gorgeous—British son of the camp's founders, Beatrice quickly learns that relationships are trickier than calculus. With her future on the line, this girl genius stumbles through illicit parties, double dog dares, and more than her fair share of Shakespeare. But before the final curtain falls, will Beatrice realize there's more to life than what she can find in the pages of a book?

From award-winning author Elissa Brent Weissman comes a collection of quirky, smart, and vulnerable childhood works by some of today's foremost children's authors and illustrators—revealing young talent, the storytellers they would one day become, and the creativity they inspire today. Everyone's story begins somewhere... For Linda Sue Park, it was a trip to the ocean, a brand-new typewriter, and a little creative license. For Jarrett J. Krosoczka, it was a third grade writing assignment that ignited a creative fire in a kid who liked to draw. For Kwame Alexander, it was a loving poem composed for Mother's Day—and perfected through draft after discarded draft. For others, it was a teacher, a parent, a beloved book, a word of encouragement. It was trying, and failing, and trying again. It was a love of words, and pictures, and stories. Your story is beginning, too. Where will it go?

Bird by Bird Alfred Music

It's 1969 and the entire nation is waiting for the United States to win the space race and put the first man on the moon. Meanwhile, fourteen-year-old Jack Fisher—malnourished and battered, abandoned by his father, neglected by his mother, manipulated by his older sister, harangued by his boss, and shortchanged by customers—is delivering newspapers in downtown Pawtucket and trying to keep his family from self-destructing completely. As the whole world holds its breath to see what will become of the Apollo 11 astronauts, Jack clings to his daily mantra, “Things will get better.” But in this poignant novel by award-winning short story writer Bob Thurber, things do not get better; they get drastically worse, at space-age speed.
