Indexes the world's zoological and animal science literature, covering all research from biochemistry to veterinary medicine. The database provides a collection of references from over 4,500 international serial publications, plus books, meetings, reviews and other non-serial literature from over 100 countries. It is the oldest continuing database of animal biology, indexing literature published from 1864 to the present. Zoological Record has long been recognized as the "unofficial register" for taxonomy and systematics, but other topics in animal biology are also

covered.

XXIVth International Congress of Pure and Applied Chemistry, Volume 7 contains lectures presented at the XXIVth International Congress of Pure and Applied Chemistry held at Hamburg, Federal Republic of Germany in September 1973. The book consists of papers discussing a wide range of subjects on pure and applied chemistry. The compendium has papers that deal with primary information channel for chemistry, the interlinking of primary publications and secondary information services, and set-up of a report writing course in a research laboratory. The text also presents papers covering topics on the changing role of the information scientist in a research department, information science and the special needs of chemical documentation, and computer-based SDI services in chemistry. The book will be invaluable to chemists.

KWIC Index of Rock Mechanics Literature, Part 2: 1969-1976 is an index of subjects in rock mechanics. The KWIC (keyword-in-context) index is produced by cyclic permutation of significant words in the title of the publication. The text covers materials in rock mechanics and geomechanics published around the 70s. The book will be of great use to students, researchers, and practitioners of geological sciences.

*Small-Format Aerial Photography and UAS Imagery* International Thomson Publishing Services

Small Format Aerial Photography and UAS Imagery: Principles, Techniques and Geoscience Applications, Second Edition, provides basic and advanced principles and techniques for Small Format Aerial Photography (SFAP), focusing on manned and unmanned aerial systems, including drones, kites, blimps, powered paragliders, and fixed wing and copter SFAP. The authors focus on everything from digital image processing and interpretation of data, to travel and setup for the best result, making this a comprehensive guide for any user. Nine case studies in a variety of environments, including gullies, high altitudes, wetlands and recreational architecture are included to enhance learning. This new edition includes small unmanned aerial systems (UAS) and discusses changes in legal practices across the globe. In addition, the book presents the history of SFAP, providing background and context for new developments. Provides background and context for new developments in SFAP Covers the legal implications for small format aerial systems in different countries Discusses unmanned aerial systems (drones) and their applications Features new case studies for different applications, including vineyard

La obra tiene como base el inventario prolijo de cuantas evidencias sobre el mundo funerario se han encontrado en el País Valenciano. La objetividad de las diferentes noticias no es fruto de la simple confrontación de una documentación dispar, en ocasiones antigua, otras más reciente, realizada con informes de excavaciones, con objetos conservados en los museos o conocidos solamente por publicaciones; sino que estas unidades heterogéneas son cuidadosamente reexaminadas a la luz de una reflexión personal, sin perjuicio, cuando ello es posible, de investigaciones complementarias que acaban conformando mucho más que un simple catálogo. A partir del análisis cronológico y tipológico el autor extrae una serie de conclusiones que pone en relación con cuanto sabemos sobre estas prácticas en otras zonas del Imperio romano. Como fundamento teórico del estudio, el autor presenta una exhaustiva discusión de las principales tesis defendidas desde la antropología, la historia y la filosofía, sobre la actitud ante la muerte y ante los ritos funerarios. En este apartado incluye, al mismo tiempo, el análisis de las fuentes literarias antiguas sobre el particular, poniéndolo en relación con la evidencia arqueológica que presenta. Elaborando un marco teórica de aproximación a la arqueología funeraria romana para extraer conclusiones sobre la sociedad que generó los restos arqueológicos.
