The 6th Battalion, the Cheshire Regiment, was a prewar Territorial battalion that recruited in the North Cheshire towns of Stockport, Hyde and Stalybridge, together with the Derbyshire town of Glossop. The majority of its part-time soldiers worked in the areas cotton mills and hat making factories. One of the first Territorial battalions to see action in the Great War, it went overseas in November 1914, taking part in the famous Christmas truce a few weeks later. In 1916, it saw major action during the Battle of the Somme. The following year, it suffered heavy casualties during the action around the Belgian town of Ypres, which is often known as the Battle of Passchendaele. In 1918 the Battalion fought to hold off German advances in the spring but, along with the rest of the BEF, was forced to retreat many miles. By the summer of that year the tide had turned and the Cheshire's took part in the final advances that ended the war in November. The story is told from the Battalions formation in 1908 to its disbandment in the 1920s and beyond with details of the Old Comrades Association. Official accounts are supplemented by the mens own words, taken from diaries, letters and newspaper reports.

"This short history has been compiled mainly from the War Diaries. My reason for undertaking the task is that there was no one else to do it, the units composing the Division being scattered far and wide, and there being no Divisional habitat with local historians as in the case of Territorial and New Army Divisions. My object is that all who served with the Division for any period between 1914-1919 may have a record to show that they belonged to a Division which played no inconspicuous part in the Great War." This book is part of the World War One Centenary series; creating, collating and reprinting new and old works of poetry, fiction, autobiography and analysis. The series forms a commemorative tribute to mark the passing of one of the world's bloodiest wars, offering new perspectives on this tragic yet fascinating period of human history. Each publication also includes brand new introductory essays and a timeline to help the reader place the work in its historical context.

Strategic Management for Hospitality and Tourism is a vital text for all those studying cutting edge theories and views on strategic management. Unlike others textbooks in this area, it goes further than merely contextualizing strategic management for hospitality and tourism, and avoids using a prescriptive, or descriptive approach. It looks instead, at the latest in strategic thinking and theories, and provides critical and analytical discussion as to how and if these models and theories can be applied to the industry, within specific contexts such as culture, profit and non-profit organizations. This title also provides online support material for tutors and students, in the form of guidelines for instructors on how to use the textbook, PowerPoint presentations and case studies plus additional exercises and web links for students.
