The multiplicity of the self and the inaccessibility of truth are commonplaces of contemporary thought. But in *Seeing Things Hidden* they become key features of a philosophy of history that reunites emancipatory political theory with the apocalyptic tradition. Apocalyptic is the revelation of things hidden. But what does it mean to be hidden? And why are things hidden in the first place? By gently teasing out the meanings of hiddenness, this book develops a new theory of apocalyptic and explores its relation to the writings of Kant, Hegel, Benjamin and Derrida. Exploiting affinities between the work of Lukács and recent American philosophers like Rorty and Cavell, Bull argues that the central dynamic of late modernity is the coming into hiding of the contradictory identities generated through political and social emancipation. Drawing on analytic and Continental philosophy he articulates the most ambitious philosophy of history since Francis Fukuyama's *The End of History*, presenting fresh interpretations of such icons of modernity as Hegel's master-slave dialectic, Benjamin's angel of history, Du Bois's concept of double consciousness, and Rawls's veil of ignorance.

Not illustrated. 1773 edition. Excerpt: ...must not this noble emulation be wholly extinct in the heart of your Persians, among whom employments and honours are only derived from the caprice of the sovereign? Reputation and virtue are there only considered as imaginary, if not accompanied by the favour of the prince, with which alone they spring up, and die. A man who enjoys the public esteem, is never sure that he shall not be dishonoured the next day. You see him today the general of an army; it may be the next the prince makes him his cook, .. and leaves him no other praise to hope for, but' that of having made a good ragout. LETTER XC. Usbaek to the Same, at Smyrna. From this general passion which the French nation have for glory, there is sprung up in the minds of the people, a certain--I know not what, which they call a point of honour: this is properly the character of every profession, but more remarkable in the men of the sword; and among them it is the point of honour by way of excellence. It will be very difficult to me to make thee understand what this is, because we have not a right idea of it. The French, formerly, especially the nobility, followed scarcely any other laws than those of this point of honour: they regulated the whole conduct of their lives; and they were so strict, that they could not, without suffering what was worse than death, I I do not say infringe, but not even elude, the least punctilio of them. When they had occasion to settle any difference, they seldom prescribed more than one method to decide it, that was by duel, which cut off all difficulties. But what was the worst part of it, was, that frequently the trial was made between other parties besides those who were interested in the affair. How little soever a

What does it mean to be Italian? Is it pausing to enjoy an aperitivo or gelato? A passeggiata down a laneway steeped in history? An August spent tanning at the beach? This book is a celebration of the Italian lifestyle - an education in drinking to savour the moment, travelling indulgently, and cherishing food and culture. A lesson in the dolce far niente: the sweetness of doing nothing. We may not all live in the bel paese, but anyone can learn from the rich tapestry of life on the boot. From the innovation of Italian fashion and design, the Golden Age of its cinema to the Roman Empire's cultural echoes (and some very good espresso), take a dip into the Italian psyche and learn to eat, love, dress, think, and have fun as only the Italians can.

For the past thirty-five years Michael Mewshaw has covered pro tennis with a novelist's sense of style, a travel writer's feeling for place and an investigative reporter's commitment to unearthing the truth. Like *Short Circuit*, his description of life on the men's tour - the *New York Times* hailed it as "one of the best books ever written about tennis, and the most timely" - and *Ladies of the Court*, his account of the women's circuit, Mewshaw's articles offer original and often shocking insights into a sport that all too often receives superficial coverage. *AD IN AD OUT* ranges over four decades, providing vivid profiles of Bjorn Borg, Gabriella Sabatini, Monica Seles, Ivan Lendl, Andrea Jaeger, Andre Agassi, Rafa Nadal and Serena Williams. It depicts the sport's beauty, its captivating geometry, and its exhilarating mano a mano competition. Whether analyzing a Grand Slam final or self-deprecatingly admitting his own comic attempts to master the game, Mewshaw conveys his knowledge of tennis history, along with his passion for the sport and the men and women who excel at it. His evocation of high stakes tournaments in Italy, France and England

is more than equaled by his accounts of matches on garage rooftops, on private and public London courts, and beside a Spanish swimming pool where his opponent wears espadrilles and a bikini. But AD IN AD OUT also discusses subjects that rarely get reported. Betting and match-fixing, performance enhancing drugs, tanking and sexual abuse all come in for factual examination. And so does the increasing frequency with which tournaments are played in sunny places for shady people, i.e. in tax havens, repressive states eager to improve their images, and lawless regions where organized crime has discovered tennis as an excellent way to launder money. After AD IN AD OUT no reader will ever watch tennis without realizing how much more there is to the game.

<http://dx.doi.org/10.12946/gplh6><http://www.epubli.de/shop/buch/53894>"The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations,

but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component. This analytical approach makes a contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline."

Mount Allegro is an extraordinary memoir, a celebration of Sicilian life, an engaging sociological portrait, a moving reminiscence of a fledgling writer's escape from the restrictive culture in which he grew up. Jerre Mangione's autobiographical chronicle of his youth in a Sicilian community in Rochester is one of the truly enduring books about the immigrant experience in this country. Family squabbles, soul-nourishing food, and the casting of evil eyes are only some of the ingredients of this richly textured book, although they must all take second

place to its unforgettable characters. As Eugene Paul Nassar writes in the book's Foreword, "Mount Allegro . . . gave a literary visibility and identity, amiable and appealing, to a poorly understood ethnic group in America, and did so at a very high level of artistry."

This pioneering book offers the first account of the work of the photographers, both official and freelance, who contributed to the forging of Mussolini's image. It departs from the practice of using photographs purely for illustration and places them instead at the centre of the analysis. Throughout the 1930s photographs of the Italian dictator Benito Mussolini were chosen with much care by the regime. They were deployed to highlight those physical traits - the piercing eyes, protruding jaw, shaved head - that were meant to evoke the Duce's strength, determination and innate sense of leadership in the mind of his contemporaries. The chapters in this volume explore the photographic image in the socio-political context of the time and shows how it was a significant contributor to the development of Italian mass culture between the two world wars.

 This masterly study has a grand sweep. It ranges over centuries, with a long look backward over several millennia. Yet the history it unfolds is primarily the story of individuals: thinkers and dreamers who envisaged an ideal social order and described it persuasively, leaving a mark on their own and later times. The roster of utopians includes men of all stripes in different countries and eras—figures as disparate as More and Fourier, the Marquis de Sade and Edward Bellamy, Rousseau and Marx. Fascinating character studies of the major figures are among the delights

of the book. Utopian writings run the gamut from fictional narratives to theoretical treatises, from political manifestos to constitutions for a new society. The Manuels have structured five centuries of utopian invention by identifying successive constellations, groups of thinkers joined by common social and moral concerns. Within this framework they analyze individual writings, in the context of the author's life and of the socio-economic, religious, and political exigencies of his time. Concentrating on innovative works, they highlight disjunctures as well as continuities in utopian thought from the Renaissance through the twentieth century. Witty and erudite, challenging in its interpretations and provocative in the questions it poses, the Manuels' anatomy of utopia is an adventure in ideas.

 “In the nineteenth century a new type of mystic emerged in Catholic Europe. While cases of stigmatisation had been reported since the thirteenth century, this era witnessed the development of the 'stigmatic': young women who attracted widespread interest thanks to the appearance of physical stigmata. To understand the popularity of these stigmatics we need to regard them as the 'saints' and religious 'celebrities' of their time. With their 'miraculous' bodies, they fit contemporary popular ideas (if not necessarily those of the Church) of what sanctity was. As knowledge about them spread via modern media and their fame became marketable, they developed into religious 'celebrities'”--
