Spiral Draw Springer Nature

Just start with a scribble! Start with a Scribble will banish your inner critic and kick-start your inner genius, as you learn to draw with a little how-to and a lot of just-do. An artist-quality pen and watercolor pencils (red and black) are included. Inside, you'll find: Prompts to inspire you (e.g., "emotional rabbits") Doodles to finish ("Mrs. Thudkins takes her floppaterasis for a walk") Techniques to try (only when the mood strikes you), from shading to perspective And plenty of wide-open space to play around in. We're much less interested in the appearance of something than in the something itself. So, when you've settled on your subject (a monster? a cockatoo?), first figure out what its essence should be (ferocious? bashful?) . . . and then, just toss that ball up (artistically speaking) and give it a good swat across the net. Voilà! You're an artist. Throughout, beloved illustrator Sir Quentin Blake shares sage advice, from "it's best to name your animal after you draw it" to "don't worry too much yet about ankles." The most important lesson? Let go and give in to your own creative spirit! Publisher's note: Start with a Scribble is an updated North American edition of *Drawing for the Artistically Undiscovered* (Klutz, 1999). *My Super Sweet Scented Sketchbook*

One Zentangle A Day is a beautiful interactive book teaching the principles of Zentangles as well as offering fun, related drawing exercises. Zentangles are a new trend in the drawing and paper arts world. The concept was started by Rick Roberts and Maria Thomas as a way to practice focus and meditation through drawing, by using repetitive lines, marks, circles, and shapes. Each mark is called a "tangle," and you combine various tangles into patterns to create "tiles" or small square drawings. This step-by-step book is divided into 6 chapters, each with 7 daily exercises. Each exercise includes new tangles to draw in sketchbooks, teaches daily tile design, and offers tips on related art principles, and contains an inspirational "ZIA" (Zentangle Inspired Art) project on a tile that incorporates patterns, art principals, and new techniques.

Insider Intervention Research Dog Man SPIRAL DRAW lets you create one zillion dizzying designs. The book includes cool translucent "drawing wheels" that make it easy to create loads of spiral designs right on the pages of the book. Packed with tons of drawing ideas, plus inspired instructions for swirly projects like spiral scratch art, spiral stationery, spiral soak art and more.

You've created a STEAM program in your library, but how do you work literacy into the curriculum? With this collection of resource recommendations, direction for program development, and activities, you'll have students reading proficiently in no time. Many schools and libraries are implementing STEAM programs in the school library makerspace to promote problem solving by allowing students to create their own solutions to a problem through trial and error. In order to enhance literacy development in the STEAM program, however, they need resources for integrating literature into the curriculum. In this collection of resources for doing just that, veteran education professionals and practiced coauthors Liz Knowles and Martha Smith bring readers over eight hundred recommended and annotated books and web resources, selected based on research on successfully integrating STEAM and literacy programs and organized by the five STEAM areas. Titles are complemented by discussion questions and problem-solving activities that will aid educators in both adding and using the best literature to their STEAM programs for encouraging learning. In addition to promoting literacy, these resources will help to develop creativity, lateral thinking skills, and confidence in students.
