The History of French

Revolution in three

volumes is a historical

work by French

historian Hippolyte

Taine. This period of

far-reaching social and

political upheaval in

France began in 1789

with the fall of the

Bastille and held the

country in turbulence

for the next decade.

The Revolution

overthrew the

monarchy, established

a republic, catalyzed

violent periods of

political turmoil, and

finally culminated in a dictatorship under Napoleon. Conceived by Taine with the aim of understanding the France of his day, his work achieved originality in its use of a long perspective to analyze the causes of the French Revolution. In particular, Taine denounced the artificiality of the revolution's political constructions (the excessively abstract and rational spirit of Robespierre, for example), which, in his mind, violently contradicted the natural and slow growth of the institutions of a State. For him, the force of history is such that it is illusory to want to change a society. Thus, following the defeat of Sedan and the Commune, Taine

accuses the French Revolution of being the matrix of all evils which brought France into a cycle of decadence. It is in particular the abstraction of the philosophy of the Enlightenment which is rejected.
