Leases & Rental Agreements NOLO Vehicle leasing is one of the most cost-effective ways of solving transportation needs in Canada. Still, it doesn't mean everybody does it right. It took more than 15 years to gather all the information provided in this book. It is a guide that will help anyone to confidently sign and satisfy his/her transportation needs with a lease contract. You will learn to easily understand the numbers. How to sign a contract that gives you peace of mind. How to transfer your lease without affecting your credit. You will learn the

right way of leasing a car you can afford without hurting your finances. And many more other tips for your insurance, warranty, saving money and time. This book is divided into three main parts: Vehicle Leasing Basics, Lease Transfer & Takeover, and Car Leasing Statistics in Canada. If you are new to car leasing (or financing) or just want to get rid of all those doubts you may have regarding a vehicle purchase, Part One: Vehicle Leasing Basics, is a must-read. You will learn to understand all the way down from pricing, kilometers (km), term, agreement and all other factors that define a lease contract. You will come to understand these all in a way that won't make getting your next car a big deal. Simply put, leasing a vehicle will seem like the regular transaction it was always

supposed to be. Additionally, you will learn about the coverage products that come along with your car. Those designed to cover the “unexpected” and give you peace of mind. Scratches, dents, and damage will always happen because your vehicle (and others) are on the go. It was designed and expected to receive damage, wear, and depreciation. You just need to be prepared for it! Next, in Part Two: Lease Transfer & Takeover, you will learn the perks of one of the most important components of a lease contract: the opportunity to terminate your contract by giving it away to someone else. You will learn about the process, the benefits, and the costs of doing this. Although we can all estimate how long we might need a car, life will always throw surprises at us and our

loved ones: a newborn, a new work vehicle, new routes to a new office, downsizing, or any other major life change. After operating the LeaseCosts™ Lease Takeover Marketplace for years, I've learned so many things that would love to share with you here, from both the buyer and the seller perspective. And Part Three: Car Leasing Statistics in Canada, will give you a lot of new insights on how we Canadians consume our vehicles. You will also get a look into a deep 15-year study that involves over 23,000 vehicle leasing contracts cross-country that will help you understand things like: - How much Canadians pay per month on average on a car lease. - The average for each specific car make. - The most popular leasing terms by manufacturer. -

The average down payment for Volkswagen, Audi, KIA, etc. and how many people make a down payment. - How many people actually take the Wear & Tear coverage [LA1] [JD2] and how it can impact on future unexpected events. - The kind of average payment you should expect for high-end vehicles compared to mass-market ones. - How much you should offer as an incentive if you need to transfer your lease. After finishing all three parts, you will walk away with a solid understanding of how car leasing works in Canada - and I guarantee that you will feel prepared and confident when considering and signing your new car lease.

Look Before You Lease

Let's talk about the money, most truck drivers can expect to earn \$30,000-\$40,000 in their 1st year. I know some drivers who work as Solo drivers and decide to give up their apartments so they can stay in the truck all year long and save money. They still take days off from time to time, and stay with friends, family or rent a hotel for a few days so they can take a break. Once you have 6 months experience you may be able to find a job that pays more money. I've seen motivated drivers earning in the \$60,000 range in their 1st year. The money is there to earn if you look for it. Too many drivers get complacent and

they stay with the same company in the same position making low wages for years and years. Sometimes all you need to do to increase your income is switch positions within the company. If the company you work for doesn't offer anything that will take you to the next level then find another company that will. I know a Walmart driver who earns \$100,000 year and he's home every night and weekend. Companies pay you in cents per mile (CPM) so the more mileage you drive the more you earn. The bottom line is company drivers can make anywhere from \$30,000 to around \$100,000 per year. Stay away from company lease options, 99% of the time only the company does well with this type of position. They will make their lease program sound perfect, touting

how you will be your own boss and make lots of money. Drivers often find themselves making just enough to cover the WEEKLY truck lease payment. If you want to truly be your own boss as a owner operator of your own truck then save up the money to buy a used truck cash or you may be able to find a 3rd party (not company sponsored) lease program. I have seen a couple of decent 3rd party lease programs, these will allow you to contract with any company you want. So if you're not making enough money with one company then you can easily switch to another. Owner operators can make anywhere from \$50,000 - \$250,000 per year. About the Expert I have been driving a truck full time for over 4 years at the time of this publishing. I have been a company

driver for 3 of those years and an owner/operator for a bit over one. In the 4+ years that I've been driving I have spent one year driving most of the lower 48 states. I haven't made it up to North Carolina, and a few other states in the northeast but all of the others I have. For the last two years I have been truck driving with my team from Los Angeles to the Kansas City area and back. We did that twice a week. After doing that for about a year I was able to get a driving position working nights and being home every day. I did that for almost year. I left there because the company did a pathetic job of maintaining their equipment. I was afraid of getting stopped by law enforcement. So I left them and got my own truck to take care of. Now I am contracted with a carrier to

move their freight and it works out a lot better. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.
