New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty." —Los Angeles Times Book Review The Poisonwood Bible, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleana Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal responsibility.

In an era when the dominant ideology divided the world into separate public and private spheres and relegated women to the private, Anna J. Hardwicke Pennybacker ardently promoted progressive causes including public education, women's suffrage, social reform, and the League of Nations. A Texas educator, clubwoman, writer, lecturer, and social and political activist whose influence in the early twentieth century extended nationwide, Pennybacker wrote "A New History of Texas," which was the state-adopted textbook for Texas history from 1898-1913 and remained in classroom use until the 1940s. She was also active in the burgeoning women's club movement and served as president of both the Texas Federation of Women's Clubs and the General Federation of Women's Clubs (1912-14). The latter position was considered by some to be the most powerful position for a woman in America at that time. Kelley King has mined the fifty-two linear feet of Pennybacker archives at the University of Texas Center for American History to reconstruct the "hidden history" of a feminist's life and work. There, she uncovered an impressive record of advocacy, interlaced with a moderate style and some old-fashioned biases. King's work offers insight into the personal and

political choices Pennybacker made and the effects these choices had in her life and on the American culture at large.

Experiencing Architecture, second edition Corwin Press

Restaging the Past is the first edited collection devoted to the study of historical pageants in Britain, ranging from their Edwardian origins to the present day. Across Britain in the twentieth century, people succumbed to 'pageant fever'. Thousands dressed up in historical costumes and performed scenes from the history of the places where they lived, and hundreds of thousands more watched them. These pageants were one of the most significant aspects of popular engagement with the past between the 1900s and the 1970s: they took place in large cities, small towns and tiny villages, and engaged a whole range of different organised groups, including Women's Institutes, political parties, schools, churches and youth organisations. Pageants were community events, bringing large numbers of people together in a shared celebration and performance of the past; they also involved many prominent novelists, professional historians and other writers, as well as featuring repeatedly in popular and highbrow literature. Although the pageant tradition has largely died out, it deserves to be acknowledged as a key aspect of community history during a period of great social and political change. Indeed, as this book shows, some traces of 'pageant fever' remain in evidence today.

An illustrated proposal, manual & field notes for activation & complication. Cardboard sculpting how-to, karaoke songbook, naturedrag theorization, 450-million-year-long love letter to horseshoe crabs, field guide to a different future--BLOODTIDE proposes exactly what we need in a form we never imagined: a new kind of holiday in homage to the ancient Horseshoe Crab. BLOODTIDE is drawn from the author's own need for new cultural practices and extended as an offering for anybody to use with hopes of contributing to collective liberation. It attempts queer futurity, without mythologies of settler innocence and with sustained recognition that time extends through our ancestors: recent ones and ancient. BLOODTIDE promotes horizontalist structure-building practices through pageantry, crabaoko, cardboard sculpting, feasting and other hands-on, locally oriented, commemorative & survivalist practices. BLOODTIDE posits that homage and attention to horseshoe crabs might further all repair efforts and other insufficient necessities for our collective and individual healing/transformation. "It is radical, it is wise, it is alive."--Agnes Borinsky "BLOODTIDE gifts us a river to wander down where we can drift away from the bullshit through the fugitivity of fun, fellowship and inter/trans species abolition."--brontë velez "Brimming with irreverence, delight and full-throated urgency on every page...there has never been a more compelling case to radically re-imagine our relationships to more-than-human animals and our environment. My family and I are plotting our BLOODTIDE activations already!"--Sarah Benson Literary Nonfiction. LGBTQIA Studies. Art.

Governance is a word that is increasingly heard and read in modern times, be it corporate governance, global governance, or investment governance. Investment governance, the central concern of this modest volume, refers to the effective employment of resources—people, policies, processes, and systems—by an individual or governing body (the fiduciary or agent) seeking to fulfil their fiduciary duty to a principal (or beneficiary) in addressing an underlying investment challenge. Effective investment governance is an enabler of good stewardship, and for this reason it should, in our view, be of interest to all fiduciaries, no matter the size of the pool of assets or the nature of the beneficiaries. To emphasize the importance of effective investment governance and to demonstrate its flexibility across organization type, we consider our investment governance process within three contexts: defined contribution (DC) plans, defined benefit (DB) plans, and endowments and foundations (E&Fs). Since the financial crisis of 2007–2008, the financial sector’s place in the economy and its methods and ethics have (rightly, in many cases) been under scrutiny. Coupled with this theme, the task of investment governance is of increasing importance due to the sheer weight of money, the retirement savings gap, demographic trends, regulation and activism, and rising standards of behavior based on higher expectations from those fiduciaries serve. These trends are at the same time related and self-reinforcing. Having explored the why of investment governance, we dedicate the remainder of the book to the question of how to bring it to bear as an essential component of good fiduciary practice. At this point, the reader might expect investment professionals to launch into a discussion about an investment process focused on the best way to capture returns. We resist this temptation. Instead, we contend that achieving outcomes on behalf

of beneficiaries is as much about managing risks as it is about capturing returns—and we mean “risks” broadly construed, not just fluctuations in asset values.
