hold a key

position in the current discussion on modern human emergence within Europe and the fate of the Neanderthals. Although undoubtedly early modern humans - recently radio carbon dated to 31.000 years BP - their morphological variability and the presence of archaic features are indicative to some degree of regional Neanderthal ancestry. The beautifully illustrated monograph

addresses - for the first time - the complete assemblage of the finds, including the human cranial, post cranial, teeth and jaw fragments of several individuals (most of them stored at the Natural History Museum Vienna) as well as the faunal remains and the archaeological objects. Leading scientists present their results, obtained with innovative

techniques such as DNA analysis, 3D-morphometry and isotope analysis, which are of great importance for further discussions on both human evolution and archaeological issues.

successful, and securely married. But one night, after an argument with her husband, their car crashes on a wet road, and everything is lost. When she wakes in the hospital, she is a widow with a ruined face and no way back to the person she thought she was. It is only when she begins to piece together the painful shards of her present existence and revisit a relationship from her past that she is

able to glimpse the freedom that might come with her loss. From the master of unadorned storytelling, *All Days Are Night* is a quietly disquieting exploration of identity, inside and out. *Pumpkin Jack* Franklin Classics

Playdays and Runaways

_____ _ The outstanding sequel to critically acclaimed bestseller *Witch Child* As *Witch Child* ends so *Sorceress* begins. Alison Ellman is still searching for information about Mary Newbury; she has a diary and some scattered information about other people in Mary's life, but Mary has disappeared into the forests and Alison has no way of

following her. But when she meets Agnes Herne, Alison encounters the person who is going to tell her all about Mary's life after she leaves Beulah. Agnes is a descendant of Mary's and has a special skill which allows her to be in touch with Mary in the spirit world. And Mary has a story to tell. A story of love and friendship, sadness and loss. A story that takes her across the New World in an epic search

for a home. We fell under the spell of Mary in Witch Child and now at last we find out what happened to her after her ill-fated time in Beulah. Just as Mary's story has to be told to Agnes, it has to be read by us for it is passionate, compelling and utterly wonderful.

Objective First Certificate Self-study Student's Book North Light Books
 This popular First Certificate course has been updated to prepare students for the new examination syllabus introduced from December 2008. A clear organisation and fresh approach have already made it a popular route

to success at FCE in many countries: thirty short units provide thorough training in exam skills, solid language development, and lively class discussion. The course is written by experienced authors who have an in-depth knowledge of the FCE exam, and understand the needs of both students and teachers alike. The Self-study Student's Book contains a self-study section with

answers and advice to students studying independently .

On May 3,	1945, the Royal Air Force attacked a fleet of ships carrying more than seven thousand survivors of the Neuengamme concentration camp. The war was nearly over, and the survivors had endured one of history's most hellish ordeals, only to die at the hands of their allies. The bodies, in the striped white- and-black uniforms of camp prisoners, were soon washing ashore on the
--	---	--

beach by the town of Timmendorf, near the Baltic port of Neustadt. Benjamin Jacobs, then twenty-five, survived by escaping the hold and clinging to wreckage. He was one of only 350 survivors, and one of the last of those. Days before, Jacobs had boarded the Cap Arcona, along with thousands of other prisoners. A commandeered luxury liner, the Cap Arcona was a dilapidated

wreck. Nearby, the freighter Thielbek, in similar condition, was also attacked. There is reason to believe the Germans were intending to sink the Cap Arcona themselves. Though they claimed the prisoners were headed to Sweden, the ships may have been nonfunctional. The Royal Air Force believed the ships contained escaping SS officers. Tragically, British intelligence

may have known who was on the ships, which may explain why the RAF has sealed the records until 2045. In *The 100-Year Secret* Benjamin Jacobs collaborates with writer Eugene Pool to describe his miraculous escape from a burning transport ship that was once one of the most glamorous ocean liners of the early twentieth century, and investigates why the incident,

which will have its 60th anniversary in May, 2005, appears in no history books. The governments of Germany and Great Britain continue to refuse either to discuss it or to release pertinent records, The 100-Year Secret is the first complete account in English of this horrific and suppressed tragedy. It is also the first book-length description by an actual survivor. Furthermore, it contains

new information about the incident, its participants, and its perpetrators not found in previous accounts. It is both the riveting personal story of a man who refused to give up, no matter what the circumstances, and an important revision of both Jewish and world history. **Diy ABC** Cambridge University Press A comprehensive and richly

illustrated survey of batik, a glorious textile art and popular Indonesian cloth. What Led to the Discovery of the Source of the Nile Search Press Classics Provides the answer to where all those socks go. All Days Are Night Tuttle Publishing A gorgeous and inspirational book, showing how to create pictures with thread. Increasing numbers of textile artists

and designers now use thread to draw with, on a wide range of mixed-media - including paper, flat fabric, manipulated fabric, various resistant materials including ceramics - experimenting with stencils and stitching, combining stitch with monoprinting, using both hand and machine stitch, and using everyday materials such as baking paper and newspaper to create one-off

pieces. Packed with wonderful examples of work by contemporary makers, this book shows how to design and develop your own work using needlework, paper, print, sketching, and stitching.

Mair Dumont DE

Available in English for the first time, Encouragement Makes Good Things Happen is a translation of the bestselling German book Mut Tut Gut. It describes a courageous and encouraging style of living

and focuses on the belief that human encouragement is the most important natural ingredient for the healthy development of human beings. Written in an engaging and conversational tone, the book first explores the negative consequences of discouragement on the individual and on society as a whole. It then discusses what encouragement is, why it is important in people's lives, and how a

person can encourage both himself and others. Several exercises are also included to help guide readers in the encouragement of others. Mental health practitioners of all disciplines and in any setting will find that both they and their clients will benefit from the insights garnered and tested by the author of this engaging and compelling book.
