Superintendent Macdonald, C.I.D., studied his fellow-passengers on the Vienna plane simply because he couldn't help it, because he hadn't conditioned himself to being on holiday. The distinguished industrialist he recognised: the stout man he put down (quite mistakenly) as a traveller in whisky. The fair girl was going to a job (he was right there) and the aggressive young man in the camel coat might be something bookish. Macdonald turned away from his fellow-passengers deliberately; they weren't his business, he was on holiday - or so he thought. Against the background of beautiful Vienna, with its enchanting palaces and gardens, its disenchanting back-streets and derelicts of war, E. C. R. Lorac constructs another great detective story with all its complexities, an exciting and puzzling crime story.

DK Eyewitness Travel Guide: Vienna Urban Explorer

A Pulitzer Prize Winner and landmark book from one of the truly original scholars of our time: a magnificent revelation of turn-of-the-century Vienna where out of a crisis of political and social disintegration so much of modern art and thought was born. "Not only is it a splendid exploration of several aspects of early modernism in their political context; it is an indicator of how the discipline of intellectual history is currently practiced by its most able and ambitious craftsmen. It is also a moving vindication of historical study itself, in the face of modernism's defiant suggestion that history is obsolete." -- David A. Hollinger, History Book Club Review "Each of [the seven separate studies] can be read separately....Yet they are so artfully designed and integrated that one who reads them in order is impressed by the book's wholeness and the momentum of its argument." -- Gordon A. Craig, The New Republic "A profound work...on one of the most important chapters of modern intellectual history" -- H.R. Trevor-Roper, front page, The New York Times Book Review "Invaluable to the social and political historian...as well as to those more concerned with the arts" -- John Willett, The New York Review of Books "A work of original synthesis and scholarship. Engrossing." -- Newsweek

A complicated clock, an elephant in the woods, the emperors paddle steamer, and the first Dark Restaurant. There is obviously more to Zurich than banking, clean streets, and punctuality. This guide shows a very different side to Switzerland's largest city. Published by The Urban Explorer these city tales from new and unusual perspectives provide independent travelers with unforgettable memories. Ideal for those who want to escape the crowds and get beyond the well-known paths, as well as for those inhabitants who perhaps thought they already knew their city. Eccentric museums, secret gardens, iconic structures, idiosyncratic shops, colorful characters and unusual places of worship.

Easy to open and to carry (only one fold), large scale, easy to read, all in full color. In the city guides: street maps cover every street in the most popular neighborhoods. They are up-to-date and will be kept updated. It looks like a city MapGuide but covers an entire region. Instead of street maps, it provides detailed road maps -- each accompanied by information on the area's sights, museums, architecture, nature, hotels, restaurants, shops.

Passport's Illustrated Travel Guide to Vienna Independently Published

Vienna in the Age of Uncertainty traces the vital and varied roles of science through the story of three generations of the eminent Exner family, whose members included Nobel Prize-winning biologist Karl Frisch, the teachers of Freud and of physicist Erwin Schrödinger, artists of the Vienna Secession, and a leader of Vienna's women's movement. Training her critical eye on the Exners through the rise and fall of Austrian liberalism and into the rise of the Third Reich, Deborah R. Coen demonstrates the interdependence of the family's scientific and domestic lives, exploring the ways in which public notions of rationality, objectivity, and autonomy were formed in the private sphere. Vienna in the Age of Uncertainty presents the story of the Exners as a microcosm of the larger achievements and tragedies of Austrian political and scientific life in the late nineteenth and early twentieth centuries.

Vienna is the capital of the Republic of Austria and by far its most populous city, with an urban population of 1.7 million and a metropolitan population of 2.4 million. It is by far the largest city in Austria and the country's artistic, cultural, economic and political centre. It is known for its high living standards, relaxed yet elegant lifestyle and rich musical life. The thing about Vienna is that it not only is a large city, but that it has always been - as the former home of the Habsburg court and its various empires, it has always housed a large population and enjoyed a privileged position, being home to many artists, especially composers including Beethoven, Haydn, Liszt, Mozart and Schubert. It was long the largest German-speaking city in the world before being surpassed by Berlin. The large historic city centre of Vienna filled with monuments to its imperial past is inscribed on the UNESCO World Heritage List. Vienna was the host city for the Eurovision Song Contest, Europe's largest live televised event, in May 2015. Vienna is famous for its coffee culture. "Let's have a coffee" is a very commonly heard phrase, because despite incursions by Starbucks and Italian-style espresso bars, the Kaffeehauskultur is still the traditional way to drink a cup of coffee, read the newspaper, meet friends, or fall in love. Spring starts sometime in late March, normally it is very brief and summer-like weather sets in before the trees have had time to grow back their leaves. Summer in Vienna is usually warm. Weather in June is moderate and sunny with a light summer windy breeze. In July and August, there are some hot and humid days where it reaches 35 C (95 F), but overall, summer in Vienna is pleasant. Autumn starts around September, although an "Indian Summer" with warm and sunny days often occurs that month and it gets colder as it approaches November. A main disadvantage of the Viennese climate is that it is rather windy and usually overcast during these months. Winter in Vienna can be just above 0 C (32 F) and drizzling for days on end, or just below with dustings of snow that manage to melt again quickly. There is the occasional cold-snap where it will stay below freezing for a week or two at a time. Due to Vienna's relative easterly position in the Central European Time Zone its daylight hours (if it's not too gray outside entirely) are relatively early during the winter. Vienna has a good public transportation system, which includes rail, commuter rail, underground, trams (trolleys), and buses. The underground is very efficient and will take you to within a few minutes walk of anywhere you are likely to want to visit. The subway alone has the second highest per-capita ridership in the world, and that is not accounting for the 27 tram lines, dozens of train lines or numerous buses. The best rail (heavy rail and underground) transport map is displayed at all OBB stations. There are so many lines that maps are normally very simplified, and there are no maps of the tram network. It can pay to ask or check the best connection ahead of time. Major stations are well signed and connections are scheduled to match-up if service isn't frequent. Avoid driving a car within the central ring if possible. While cars are allowed on many of the streets there, the streets are narrow and mostly one-way. They can be confusing for a visitor and parking is extremely limited (and restricted during the day). Due to the comprehensiveness of the transit system, you most likely will not need a car

within Vienna, except for excursions elsewhere. Furthermore, it might be a good idea to leave your car at home during rush hours. Vienna's streets can become a little clogged in the mornings and early evenings and the drivers are not really known for being especially polite and friendly.
