Pack Rule #1: Never reveal to a human. I broke that rule the day I met the beautiful doctor. I might be a rodeo champ, but one look at her, and I lost my concentration. The bull tossed and gored me, and now the sweet female is on to me. When I healed within hours, she knew something wasn't right. My alpha told me to watch her. Not a problem. I'll watch her all right. Real close. I'll stick to her like superglue. And those human men who want to date her? They'd better step back. Because the doctor is all mine. Whether she knows it yet or not. Is It Rough? Is It Smooth? Is It Shiny? What's the Matter

A Barkeep and a Bumblebee... A stranger steps in to rescue Dottie from both. Before she even knows who he is, however, she's already called him Lucifer, and threatened to have him tarred, feathered and run out of town by the new minister upon his arrival. Not only that. She's balled up her fist and punched him straight in the eye. "You, sir, are no gentleman," she quips, marching away. Hoping she'll never have to see him again isn't TOO much to ask... Or is it?

'2021's most important book about sex.' Stylist 'You need to read this.' Mashable A bad sexual experience. A grey area. Not rape but... A violation - these are the terms we use to describe the experiences we don't have words for. The way we talk about topics such as sex, consent, assault aren't fit for purpose. Rough is a revolutionary non-fiction work exploring the narratives of sexual violence that we don't talk about. Through powerful testimony from 50 women and non-binary people, this book shines a light on the sexual violence that takes place in our bedrooms and beyond, sometimes at the hands of people we know, trust, or even love. Rough investigates violations such as 'stealthling,' non-consensual choking, and non-consensual rough sex acts that our culture is only starting to recognise as sexual violence. The book explores the ways in which systems of oppression manifest in our sexual culture - from racist microaggressions, to fatphobic acts of aggression, and ableist dehumanising behaviour. An intersectional, sex-positive, kink-positive work, the book also examines how white supremacy, transphobia, biphobia, homophobia, and misogyny are driving forces behind sexual violence. Rough is an urgent, timely call for change to the systems that oppress us all. It's time for a societal shift. As individuals with agency within our sexual culture we have the power to remodel our behaviour and this book shows us how. Praise for Rough 'An incredible investigation into a frighteningly common part of our sexual experience; determined to give ownership back to those who have had their agency stolen from them.' Dr Fern Riddell 'Unflinching. Important, thought-provoking read.' Nataliya Deleva 'Rough speaks to how many women often feel after sexual encounters - violated but unsure of exactly why, and whether our feelings are valid. This book is excellent and demonstrates just how valid those feelings are.' Adele Walton, founder of Humanitarian Hotgirl [Is It Rough Or Smooth?](#) Springer Nature

Poe, a homeless fifteen-year-old boy, struggles to keep his living situation a secret.

How does memory work? Are we addicted to television? What is Alzheimer's Disease? Can machines read our minds? The human brain, with all its inherent complexity, has taken on near mythical status. Its 100 billion nerve cells, forged by nature and refined over millions of years, allow humans the capacity to survive, create culture, love. Once an impenetrable grey mass, modern science is getting to grips with our brains at an unprecedented rate. We are moving from a time of anatomy, in which science did well to characterise the various regions of the brain, to a time in which we can observe thought processes in real time. We have entered a neural renaissance. The Rough Guide to the Brain is for anyone who's ever wanted to know more about how their brain and mind works - and what goes wrong when it doesn't. From how we evolved such an impressive organ to how it achieves the feat that is you. Including numerous insights from leaders in their fields, there's no better way to stimulate your grey matter.

The guide comes complete with concise regional information, with overland maps and details on weather, major attractions and unmissable festivals.

The Rough Guide to First-Time Around The World Orca Book Publishers

A collection of essays on music and life by the famed classical pianist and composer Stephen Hough is one of the world's leading pianists, winning global acclaim and numerous awards, both for his concerts and his recordings. He is also a writer, composer, and painter, and has been described by The Economist as one of "Twenty Living Polymaths." Hough writes informally and engagingly about music and the life of a musician, from the broader aspects of what it is to walk out onto a stage or to make a recording, to specialist tips from deep inside the practice room: how to trill, how to pedal, how to practice. He also writes vividly about people he's known, places he's traveled to, books he's read, paintings he's seen; and he touches on more controversial subjects, such as assisted suicide and abortion. Even religion is there—the possibility of the existence of God, problems with some biblical texts, and the challenges involved in being a gay Catholic. Rough

Ideas is an illuminating, constantly surprising introduction to the life and mind of one of our great cultural figures.
