A literary mediation on life and death, being and non-being, and the intense mystery and beauty of existence between a mother and child. "Heartbreakingly perfect" (San Francisco Chronicle), Maso's moving, dreamlike novel follows a mother and child as they roam through wondrous and increasingly dangerous psychic and physical terrain. A great wind comes, an ancient tree splits in half, and a bat, or possibly an angel, enters the house where the mother and child sleep, and in an instant a world of relentless change, of spectacular consequences, of submerged memory, and uncanny intimations is set into motion. What was once hidden is now in plain sight in all its splendor and terror as the mother and child are asked to bear enormous transformations and a terrible wisdom almost impossible to fathom. As the outside can no longer be separated from the inside, nor dream from reality, the mother and child continue, encountering along the way all kinds of characters and creatures as they move through a surreal world of grace and dread to the end. "The tough-mindedness, originality and wit of her perceptions are intoxicating."—Publisher Weekly "By giving the conflicts in her life a fictional context, she tries to bring order and beauty—and some degree of understanding—to chaos."—Library Journal "Fully coherent, moving and elegiac, a genuine consolation." —The New York Times Book Review

Meetings, partings, loves and losses in rural France are dissected with compassion. The late wedding guest isn't your cousin but a drunken chancer. The driver who gives you a lift isn't going anywhere but off the road. Snow settles on your car in summer and the sequins found between the pages of a borrowed novel will make your fortune. Pagano's stories weave together the mad, the mysterious and the dispossessed of a rural French community with honesty and humour. A superb, cumulative collection from a unique French voice. Why Peirene chose to publish this book: This is a spellbinding web of stories about people on the periphery. Pagano makes rural France her subject matter. She invokes the closeness of a local community and the links between the inhabitants' lives. But then she reminds us how little we know of each other. 'Devastatingly beautiful.' Le Soir, Belgium 'A treasure hunt that you can follow from title to title...fine-tipped drawings of little bits of the world

that attach themselves to each other imperceptibly.' Xavier Houssin, Le Monde 'Pagano succeeds because of the range of her insight and the skill with which she shifts register: from wistfulness to blunt force, or from fantasy to naturalism.' Chris Power, The Guardian 'Endlessly beautiful and poignant.' Le Monde books of the year 2012 'With animal writing, Emmanuelle Pagano invites herself to the side of rebels and solitaries.' One of The New York Times Book Review's 10 Best Books of 2021 Shortlisted for the 2021 International Booker Prize and the 2021 National Book Award for Translated Literature A fictional examination of the lives of real-life scientists and thinkers whose discoveries resulted in moral consequences beyond their imagining. When We Cease to Understand the World is a book about the complicated links between scientific and mathematical discovery, madness, and destruction. Fritz Haber, Alexander Grothendieck, Werner Heisenberg, Erwin Schrödinger—these are some of luminaries into whose troubled lives Benjamín Labatut thrusts the reader, showing us how they grappled with the most profound questions of existence. They have strokes of unparalleled genius, alienate friends and lovers, descend into isolation and insanity. Some of their discoveries reshape human life for the better; others pave the way to chaos and unimaginable suffering. The lines are never clear. At a breakneck pace and with a wealth of disturbing detail, Labatut uses the imaginative resources of fiction to tell the stories of the scientists and mathematicians who expanded our notions of the possible.

Seven decades after its original publication, Clarice Lispector's third novel—the story of a girl and the city her gaze reveals—is in English at last. Seven decades after its original publication, Clarice Lispector's third novel—the story of a girl and the city her gaze reveals—is in English at last. Lucrecia Neves is ready to marry. Her suitors—soldierly Felipe, pensive Perseu, dependable Mateus—are attracted to her tawdry not-quite-beauty, which is of a piece with Sao Geraldo, the rough-and-ready township she inhabits. Civilization is on its way to this place, where wild horses still roam. As Lucrecia is tamed by marriage, Sao Geraldo gradually expels its horses; and as the town strives for the highest attainment it can conceive—a viaduct—it takes on the progressively more metropolitan manners that Lucrecia, with her vulgar ambitions, desires too. Yet it is precisely through this woman's superficiality—her identification with the porcelain knickknacks in her mother's parlor—that Clarice Lispector creates a profound and enigmatic meditation on “the mystery of the thing.” Written in Europe shortly after Clarice Lispector's own marriage, *The Besieged City* is a proving ground for the intricate language and the radical ideas that characterize one of her century's greatest writers—and an ironic ode to the magnetism of the material.

A work of fantasy, *I Who Have Never Known Men* is the haunting and unforgettable account of a near future on a barren earth where women are kept in underground cages guarded by uniformed groups of men. It is narrated by the youngest of the women, the only one with no memory of what the world was like before the cages, who must teach herself, without books or sexual contact, the essential human emotions of longing, loving, learning, companionship, and dying. Part thriller, part mystery, *I Who Have Never Known Men* shows us the power of one person without memories to reinvent herself piece by piece, emotion by emotion, in the process teaching us much about what it means to be human.

*John the Posthumous* exists in between fiction and poetry, elegy and history: a kind of novella in objects, it is an anatomy of marriage and adultery, an interlocking set of fictional histories, and the staccato telling of a murder, perhaps two murders. This is a literary album of a pre-Internet world, focused on physical elements — all of which are tools for either violence or sustenance. Knives, old iron gates, antique houses in flames; Biblical citations, blood and a history of the American bed: the unsettling, half-perceived images, and their precise but alien manipulation by a master of the language will stay with readers. Its themes are familiar — violence, betrayal, failure — its depiction of these utterly original and hauntingly beautiful.

*Trilogy* is Jon Fosse's critically acclaimed, luminous love story about Asle and Alida, two lovers trying to find their place in this world. Homeless and sleepless, they wander around Bergen in the rain, trying to make a life for themselves and the child they expect. Through a rich web of historical, cultural, and theological allusions, Fosse constructs a modern parable of injustice, resistance, crime, and redemption. Consisting of three novellas (*Wakefulness*, *Olav's Dreams*, and *Weariness*), *Trilogy* is a haunting, mysterious, and poignant evocation of love, for which Fosse received The Nordic Council's Prize for Literature in 2015.

Comaville Dalkey Archive Press

An elegantly hair-raising collection of Edith Wharton's ghost stories, selected and with a preface written by the author herself. No history of the American uncanny tale would be complete without mention of Edith Wharton, yet many of Wharton's most dedicated admirers are unaware that she

was a master of the form. In fact, one of Wharton's final literary acts was assembling *Ghosts*, a personal selection of her most chilling stories, written between 1902 and 1937. In "The Lady's Maid's Bell," the earliest tale included here, a servant's dedication to her mistress continues from beyond the grave, and in "All Souls," the last story Wharton wrote, an elderly woman treads the permeable line between life and the hereafter. In all her writing, Wharton's great gift was to mercilessly illuminate the motives of men and women, and her ghost stories never stray far from the preoccupations of the living, using the supernatural to investigate such worldly matters as violence within marriage, the horrors of aging, the rot at the root of new fortunes, the darkness that stares back from the abyss of one's own soul. These are stories to "send a cold shiver down one's spine," not to terrify, and as Wharton explains in her preface, her goal in writing them was to counter "the hard grind of modern speeding-up" by preserving that ineffable space of "silence and continuity," which is not merely the prerogative of humanity but—"in the fun of the shudder"—its delight.

What We Were Doing and where We Were Going Dalkey Archive Press

Two novellas about family life and fraudsters by one of the twentieth century's best Italian novelists. *Valentino* and *Sagittarius* are two of Natalia Ginzburg's most celebrated works: tales of love, hope, and delusion that are full of her characteristic mordant humor, keen psychological insight, and unflinching moral realism. *Valentino* is the spoiled child of doting parents, who have no doubt that their handsome young son will prove "a man of consequence." Nothing that *Valentino* does—his nights out on the town, his failed or incomplete classes—suggests there is any ground for that confidence, and *Valentino*'s sisters view their parents and brother with a mixture of bitterness, stoicism, and bemusement. Everything becomes that much more confused when, out of the blue, *Valentino* finds an enterprising, wealthy, and strikingly ugly wife, who undertakes to support not just him but the whole family. *Sagittarius* is another story of misplaced confidence recounted by a wary daughter, whose mother, a grass widow with time on her hands, moves to the suburbs, eager to find new friends. Brassy, bossy, and perpetually dissatisfied, especially when it comes to her children,

she strikes up a friendship with the mysterious *Scilla*, and soon the two women are planning to open an art gallery. But knowing better than everyone, it turns out, is not that different from knowing nothing at all.

*I Am The Wind* New York Review of Books

This Patrick White masterpiece, now in a Vintage Classics edition Hurtle Duffield, a painter, is incapable of loving anything except what he paints. The men and women who court him during his long life are, above all, the victims of his art. He is the vivisector, dissecting their weaknesses with cruel precision: his sister's deformity, a grocer's moonlight indiscretion, and the passionate illusions of his mistress Hero Pavloussi. It is only when Hurtle meets an egocentric adolescent whom he sees as his spiritual child does he experience a deeper, more treacherous emotion in this tour de force of sexual and psychological menace that sheds brutally honest light on the creative experience.
