Musculoskeletal Anatomy Coloring Book Mosby

A clear, simple guide for students of anatomy as well as an excellent resource for athletes, massage therapists, and anyone interested in the workings of the human body, this user-friendly book is organized around six muscle groups. They include muscles of the face head, and neck; the trunk; the shoulder and upper arm; the forearm and hand; the hip and thigh; and the leg and foot. Each of the groups is given a distinctive color to make it easy to identify, and each muscle is shown in its relationship to the skeleton. Each gets a complete profile, including origin/insertion, action of the muscle, which nerve controls it, movements that use it, and exercises and stretches that strengthen it. The Concise Book of Muscles shows students exactly how to locate and identify specific muscles, highlighting those that are heavily used and therefore subject to injury in a variety of sports and activities. This expanded edition of a leading anatomy reference book includes 20 muscles not previously covered, adding greater depth to the original edition while remaining accessible and affordable.

Color Yourself Smart: Human Anatomy Human Kinetics

Learning and naming the many parts and systems of the human body can be a daunting task for student nurses, as well as for other students preparing for careers in the various scientific and medical professions. This highly original book helps make learning a great deal easier. Hundreds of anatomically accurate line illustrations show human body parts and readers are encouraged to shade them in with colored pencils. It's a simple physical task intended to imprint on students' memories the shape and location of each body part, making later visualization and memory retention much easier. The book has a spiral binding hidden beneath the cover's spine so that pages lie flat for easy coloring. Other features include— Tabbed chapter openers for quick reference Extra-heavy paper that minimizes show-through Every body system and part is presented All parts labeled with correct anatomical names An extra feature is a set of eight transparent overlays illustrating the human body. They simulate the peeling away of layers of tissue to reveal anatomical features, such as muscles, bones, organs, and circulatory system. The overlays are bound into the book with "scissor-perf" lines that show students where to cut. The Anatomy Student's Self-Test Coloring Book is a must-have learning tool for all students and practitioners who require detailed anatomical

knowledge. In addition to a substantial and instructive text, it features 144 two-color pages and 32 additional pages in full color.
