War and Terror Since World War II Oxford University Press

The story of Japanese involvement in WWII is one that includes a number of amazing events between 1939 and 1945. The Japanese went from fighting against just the Chinese to attempting to practically take on the entire world at the one time. Inside you will learn about... ✓ The Attack on Pearl Harbor ✓ The Pacific War Begins ✓ The Completion of the War

Plan. ✓ Attacking Australia and Further Expansion ✓ Battle of the Coral Sea ✓ The Battle for the Solomon Islands ✓ The Bomb ✓ The Japanese Surrender And much more! This is a story of rapid expansion, an attempt at consolidation, and ultimately, retreat and massacre. It is a story of honor, of Allied unity, and eventual surrender. The role of Japan in the Pacific War is a part of WWII that cannot be forgotten.

Every Man in This Village Is a Liar

Createspace Independent Publishing Platform Power and Culture challenges existing assumptions about the war in the Pacific. By focusing on the interplay between culture and international relations, one of the world's most distinguished scholars of United States-Japanese affairs offers a startling reassessment of what the war really meant to the two combatants. Akira Iriye examines the Japanese-American war for the first time from the cultural perspectives of

both countries, arguing that it was more a search for international order than a ruthless pursuit of power. His thesis is bold, for he convincingly demonstrates that throughout the war many Japanese leaders shared with their American counterparts an essentially Wilsonian vision of international cooperation. As the war drew to a close, these statesmen began to plan for a cooperative world structure that was remarkably similar to the ideas of American

policymakers. Indeed, as Iriye shows, the stunning success of Japanese-American postwar relations can be understood only in the light of a deep convergence of their ideals. Iriye has drawn his conclusions from original research, using official Japanese archives and recently declassified American documents. These offer a totally new perspective on the ways leaders in both countries actually viewed the war they were waging. *Cultures of*

 The history of wars caused by misjudgments, from Napoleon's invasion of Russia to America's invasion of Iraq, reveals that leaders relied on cognitive models that were seriously at odds with objective reality. *Blinders, Blunders, and Wars* analyzes eight historical examples of strategic blunders regarding war and peace and four examples of decisions that turned out well, and then applies those lessons to the

current Sino-American case. *From Pearl Harbor to 9/11: How the Secret War between the FBI and CIA Has Endangered National Security* W. W. Norton & Company
 In the decade leading up to the attack on Pearl Harbor, at a time when Japan was expanding its influence in Asia, several Japanese institutions set about trying to convince Americans to support Tokyo's plans and ambitions for China. This book seeks to analyze the original publications

produced by these organizations and explores the methods used by the Japanese to influence American attitudes and policy. Four organizations active during the 1930s, the South Manchuria Railway Company, the America-Japan Society, the Foreign Affairs Association of Japan, and the Japan Pacific Association, were particularly instrumental in targeting the US. This book argues that they routinely used specific terminology to appeal to Americans, such as 'New

Deal,' 'Manifest Destiny,' and 'Open Door.' Furthermore, the Japanese claimed that only they could meet the challenge of the growing communist threat, while their development programs would bring peace and prosperity to China. Nevertheless, American policy was not significantly altered by Japanese propaganda efforts, as documents from the administration of Franklin D. Roosevelt reveal that the president continued to prepare the U.S. for war with Japan

long before Pearl Harbour. Examining original Japanese English-language propaganda sources from the 1920s and 1930s, this book will be of huge interest to historians of Japan, China, the US and World War II more broadly.

War without Mercy Yale University Press

In this remarkable oral history collection, thirty-three participants in the turbulent epic that began with the day of infamy at Pearl Harbor and ended with the signing of the surrender documents in

Tokyo Harbor tell their stories. Their remembrances of heartbreak, frustration, heroism, hope, and triumph were collected over a period of twenty-five years by John T. Mason. Their recollections reveal perspectives and facts not included in traditional works of history. Each selection, introduced with a preface that places it in the context of the Pacific War, takes the reader behind the scenes to present the personal, untold stories of naval history. Included are

Admiral William S. Sullivan's account of the problems involved in clearing Manila Harbor of some five hundred wrecked vessels left by the departing Japanese and Admiral Thomas C. Kinkaid's description of the communications breakdown at the Battle of Leyte Gulf. There are also the very personal recollections of humor and horror told by the unknown actors in the war: the hospital corpsman, the coxswain, and the machinist's mate. Originally published in

1986, this volume is an unusual and lasting tribute to the ingenuity and teamwork demonstrated by America's forces in the Pacific as well as a celebration of the human spirit

 This book describes how the states in post-1945 Austria, Germany, and Japan have tried to deal with the legacy of the Second World War and how their policies have affected their relations

with other countries in the region. It focuses on the intersection of national interest and popular emotions and argues that it is possible to reconcile over historical issues, but that to do so can exact a considerable political cost.

Pearl Harbor Is Burning!

Harvard University Press
Japanese Zeros appear in the skies over Hawaii and descend upon Pearl Harbor in a devastating attack that cripples the U.S. Navy fleet and airfields. One after another, the islands are conquered and occupied by the Empire of the Sun. In the hands of a merciless enemy,

American soldiers in POW camps suffer cruel punishment. Many older Hawaiians of Japanese origin support the invaders - while some of their children want to fight back. But the domination of the Pacific and the submission of those who live there is merely the beginning. With the U.S. military on Hawaii completely subjugated, there is no one to stop the Japanese from using the islands' resources to launch an offensive against America's western coast...

What America and China
Can Learn University of
Hawaii Press

Historian Ronald H. Spector, drawing on declassified intelligence files, an abundance of British and American archival material, Japanese scholarship and documents, and the research and memoirs of scholars, politicians, and the military men, presents a thrilling narrative of American war in the Pacific. Spector reassesses U.S. and Japanese strategy and offers some provocative

interpretations. He shows that the dual advance across the Pacific by MacArthur and Nimitz was less a product of strategic calculation and more a pragmatic solution to bureaucratic, doctrinal, and public relations problems facing the Army and Navy. He also argues that Japan made its fatal error not in the Midway campaign but in abandoning its offensive strategy after that defeat and allowing itself to be drawn into a war of attrition. Combining impeccable research with

electrifying detail, Spector vividly recreates the major battles, little-known campaigns, and unfamiliar events of this brutal 44-month struggle. He reveals that the U.S. had secret plans to wage unrestricted submarine warfare against Japan months before Pearl Harbor and demonstrates that MacArthur and his commanders ignored important intercepts of Japanese messages that would have saved thousands of lives in Papua and Leyte. He skillfully takes the reader

from top-secret strategy meetings in Washington, London, and Tokyo to distant beaches and remote Asian jungles with battle-weary GIs. Throughout, Spector contends that American decisions in the Pacific War were shaped more often by the struggles between the British and the Americans, and between the Army and the Navy, than by strategic considerations. Revealing what really happened in the course of a conflict that ended with the most deadly air raid

ever, this contribution to WWII history adds a new dimension to our understanding of the people and forces that determined its outcome. Pantheon
Winner of the Pulitzer Prize, the 1999 National Book Award for Nonfiction, finalist for the Lionel Gelber Prize and the Kiriyaama Pacific Rim Book Prize, *Embracing Defeat* is John W. Dower's brilliant examination of Japan in the immediate, shattering aftermath of World War II. Drawing on a vast range of Japanese

sources and illustrated with dozens of astonishing documentary photographs, *Embracing Defeat* is the fullest and most important history of the more than six years of American occupation, which affected every level of Japanese society, often in ways neither side could anticipate. Dower, whom Stephen E. Ambrose has called "America's foremost historian of the Second World War in the Pacific," gives us the rich and turbulent interplay between West and East, the victor and the

vanquished, in a way never before attempted, from top-level manipulations concerning the fate of Emperor Hirohito to the hopes and fears of men and women in every walk of life. Already regarded as the benchmark in its field, *Embracing Defeat* is a work of colossal scholarship and history of the very first order. John W. Dower is the Elting E. Morison Professor of History at the Massachusetts Institute of Technology. He is a winner of the National

Book Critics Circle Award for *War Without Mercy*. **A War It Was Always Going to Lose** University of Hawaii Press
 “Tells how America, since the end of World War II, has turned away from its ideals and goodness to become a match setting the world on fire” (Seymour Hersh, investigative journalist and national security correspondent). World War II marked the apogee of industrialized “total war.” Great powers savaged one another. Hostilities engulfed the

globe. Mobilization extended to virtually every sector of every nation. Air war, including the terror bombing of civilians, emerged as a central strategy of the victorious Anglo-American powers. The devastation was catastrophic almost everywhere, with the notable exception of the United States, which exited the strife unmatched in power and influence. The death toll of fighting forces plus civilians worldwide was staggering. The Violent American Century

addresses the US-led transformations in war conduct and strategizing that followed 1945—beginning with brutal localized hostilities, proxy wars, and the nuclear terror of the Cold War, and ending with the asymmetrical conflicts of the present day. The military playbook now meshes brute force with a focus on non-state terrorism, counterinsurgency, clandestine operations, a vast web of overseas American military bases, and—most touted of all—a

revolutionary new era of computerized “precision” warfare. In contrast to World War II, postwar death and destruction has been comparatively small. By any other measure, it has been appalling—and shows no sign of abating. The author, recipient of a Pulitzer Prize and a National Book Award, draws heavily on hard data and internal US planning and pronouncements in this concise analysis of war and terror in our time. In doing so, he places US policy and practice firmly

within the broader context of global mayhem, havoc, and slaughter since World War II—always with bottom-line attentiveness to the human costs of this legacy of unceasing violence. “Dower delivers a convincing blow to publisher Henry Luce’s benign ‘American Century’ thesis.”

Ways of Forgetting, Ways of Remembering
Macmillan
This is the first biography of Capt. Joe Rochefort, the Officer in Charge of Station Hypo the U.S.

Navy's decrypt unit at Pearl Harbor and his key role in breaking the Imperial Japanese Navy's main code before the Battle of Midway. It brings together the disparate threads of Rochefort's life and career, beginning with his enlistment in the Naval Reserve in 1918 at age 17 (dropping out of high school and adding a year to his age). It chronicles his earliest days as a mustang (an officer who has risen from the ranks), his fortuitous posting to Washington, where he headed the

Navy's codebreaking desk at age 25, then, in another unexpected twist, found himself assigned to Tokyo to learn Japanese. This biography records Rochefort's surprising love-hate relationship with cryptanalysis, his joyful exit from the field, his love of sea duty, his adventure-filled years in the '30s as the right-hand man to the Commander in Chief, U.S. Fleet, and his reluctant return to codebreaking in mid-1941 when he was ordered to head the Navy's decrypt unit at Pearl (Station

Hypo). The book focuses on Rochefort's inspiring leadership of Hypo, recording first his frustrating months in late 1941 searching for Yamamoto's fleet, then capturing a guilt-ridden Rochefort in early 1942 mounting a redemptive effort to track that fleet after the Japanese attack at Pearl Harbor . It details his critical role in May 1942 when he and his team, against the bitter opposition of some top Navy brass, concluded Midway was Yamamoto's invasion target, making

possible a victory regarded by many as the turning point in the Pacific War. The account also tells the story of Rochefort's ouster from Pearl, the result of the machinations of key officers in Washington, first to deny him the Distinguished Service Medal recommended by Admiral Nimitz, then to effect his removal as OIC of Hypo. The book reports his productive final years in the Navy when he supervises the building of a floating drydock on the West Coast, then, back in

Washington, finds himself directing a planning body charged with doing spade work leading to the invasion of Japan. The Epilogue narrates the postwar effort waged by Rochefort's Hypo colleagues to obtain for him the DSM denied in 1942—a drive that pays off in 1986 when President Reagan awards him the medal posthumously at a White House ceremony attended by his daughter and son. It also explores Rochefort's legacy, primarily his pioneering

role at Pearl in which, contrary to Washington's wishes, he reported directly to Commander in Chief, US Fleet, providing actionable intelligence without any delays and enabling codebreaking to play the key role it did in the Battle of Midway. Ultimately, this book is aimed at bringing Joe Rochefort to life as the irreverent, fiercely independent and consequential officer that he was. It assumes his career can't be understood without looking at his entire life. It

seeks to capture the interplay of policy and personality, and the role played by politics and personal rifts at the highest levels of Navy power during a time of national crisis. This bio emerges as a history of the Navy's intelligence culture.

Japan's Decision For War
In 1941: Some Enduring
Lessons ABDO

Historian John W. Dower's celebrated investigations into modern Japanese history, World War II, and U.S.-Japanese relations have earned him critical accolades and numerous honors, including the Pulitzer Prize, the National Book Award, and the Bancroft Prize. Now Dower returns to the major themes of his groundbreaking work, examining American and Japanese perceptions of key moments in their shared history. Both provocative and probing, Ways of Forgetting, Ways

of Remembering delves into a range of subjects, including the complex role of racism on both sides of the Pacific War, the sophistication of Japanese wartime propaganda, the ways in which the nuclear bombing of Hiroshima and Nagasaki is remembered in Japan, and the story of how the postwar study of Japan in the United States and the West was influenced by Cold War politics. *Ways of Forgetting, Ways of Remembering* offers urgent insights by one of our greatest interpreters

of the past into how citizens of democracy should deal with their history and, as Dower writes, “the need to constantly ask what is not being asked.” *Blinders, Blunders, and Wars* W. W. Norton & Company Japan’s decision to attack the United States in 1941 is widely regarded as irrational to the point of suicidal. How could Japan hope to survive a war with, much less defeat, an enemy possessing an invulnerable homeland and an industrial base 10

times that of Japan? The Pacific War was one that Japan was always going to lose, so how does one explain Tokyo’s decision? Did the Japanese recognize the odds against them? Did they have a concept of victory, or at least of avoiding defeat? Or did the Japanese prefer a lost war to an unacceptable peace? Dr. Jeffrey Record takes a fresh look at Japan’s decision for war, and concludes that it was dictated by Japanese pride and the threatened economic destruction of

Japan by the United States. He believes that Japanese aggression in East Asia was the root cause of the Pacific War, but argues that the road to war in 1941 was built on American as well as Japanese miscalculations and that both sides suffered from cultural ignorance and racial arrogance. Record finds that the Americans underestimated the role of fear and honor in Japanese calculations and overestimated the effectiveness of economic sanctions as a deterrent

to war, whereas the Japanese underestimated the cohesion and resolve of an aroused American society and overestimated their own martial prowess as a means of defeating U.S. material superiority. He believes that the failure of deterrence was mutual, and that the descent of the United States and Japan into war contains lessons of great and continuing relevance to American foreign policy and defense decision-makers.

Bombing the City W. W. Norton & Company

Prophetic when first published, even more relevant now, *Wedge* is the classic, definitive story of the secret war America has waged against itself. Based on scores of interviews with former spies and thousands of declassified documents, *Wedge* reveals and re-creates -- battle by battle, bungle by bungle -- the epic clash that has made America uniquely vulnerable to its enemies. For more than six decades, the opposed and overlapping missions of the FBI and CIA -- and

the rival personalities of cops and spies -- have caused fistfights and turf tangles, breakdowns and cover-ups, public scandals and tragic deaths. A grand panorama of dramatic episodes, peopled by picaresque secret agents from Ian Fleming to Oliver North, Wedge is both a journey and a warning. From Pearl Harbor, McCarthyism, and the plots to kill Castro through the JFK assassination, Watergate, and Iran Contra down to the Aldrich Ames affair, Robert Hanssen's

treachery, and the hunt for Al Qaeda -- Wedge shows the price America has paid for its failure to resolve the conflict between law enforcement and intelligence. Gripping and authoritative -- and updated with an important new epilogue, carrying the action through to September 11, 2001 -- Wedge is the only book about the schism that has informed nearly every major blunder in American espionage. **Propaganda Aimed at Americans before Pearl Harbor** Cambridge

From the bestselling author of *Wives of War* comes a harrowing tale of four brave young nurses whose lives change forever in the wake of the 1941 attack on Pearl Harbor. When Grace, April, and Poppy join the US Army Nurse Corps, they see it as little more than an adventure, one made all the better by their first station: Pearl Harbor, Hawaii. Joined at the hip, idealistic Grace, exuberant Poppy, and brave but haunted April frolic in the sun, attending

parties, flirting with the handsome soldiers, and becoming fast friends with seasoned nurse Eva. Like the Hawaiian sun, their future seems warm and bright--until the infamous morning of December 7. Within just a few

horrifying hours, their sparkling hopes turn to black rubble and ash. Now embroiled in a war they never could have imagined, they must decide what truly matters to them and face grief as

they never have before. Death may await them--but so do hope and purpose. In the midst of the carnage, can they find happiness and learn to fight not just for their country's honor but for themselves?
