Set just before the first world war as the onset of conflict looms, 'Christopher and Columbus' tells the story of seventeen-year-old twin orphans, Anna-Rose and Anna-Felicitas as they are thrust upon their relatives by their Uncle Arthur. Arthur, a patriot, is suspicious of their half-German heritage and worries that they may be spying. He ships the twins off to America, and on their voyage, they befriend Mr Twist. However, Twist has not considered the pitfalls of taking the young women under his wings, especially since

they cannot behave with tact and will need continued protection long after the ship docks. In this witty and comic novel, the twins arrive in America and take on the nicknames of Christopher and Columbus, as the reader follows their adventures in a country poised for war. A fun and uplifting novel, 'Christopher and Columbus' will be enjoyed by fans of 'A Series of Unfortunate Events'. Elizabeth von Arnim was an English novelist – a cousin of the New Zealand-born writer Katherine Mansfield – born as Mary Annette Beauchamp in Australia in 1866. She married a German aristocrat and her earliest written works are set in Germany. Von Arnim launched her career as a writer with her satirical and semi-autobiographical work 'Elizabeth and Her German Garden', published anonymously in 1898. Although she was known by the name May in her early life, when she began writing, her success as 'Elizabeth' meant that her writings were ascribed to the name Elizabeth von Arnim.

The Red and the Black covers the major stages in the history of Greek pottery production, both figured and plain, as they are understood today. It provides an up-to-date evaluation of ways of studying Greek pottery and encourages new approaches. There is a detailed analysis of the subject matter of figured scenes covering some of the main preoccupations of ancient Greece: myth, fantasy and everyday life. Furthermore, it sets the artefacts in the context of the societies that produced them, highlighting the social, art historical, mythological and economic information that can be revealed from their study. This volume also covers a hitherto neglected area: the history of the collecting of Greek pottery through the Renaissance and up to the present day. It shows how market values have gradually increased to the high prices of today and goes on to take a closer look at the enthusiasm of the collectors.

The original edition of Pompeii: A Sourcebook was a crucial resource for students of the site. Now updated to include material from Herculaneum, the neighbouring town also buried in the eruption of Vesuvius, Pompeii and Herculaneum: A Sourcebook allows readers to form a richer and more diverse picture of urban life on the Bay of Naples. Focusing upon inscriptions and ancient texts, it translates and sets into context a representative sample of the huge range of source material uncovered in these towns. From the labels on wine jars to scribbled insults, and from advertisements for gladiatorial contests to love poetry, the individual chapters explore the early history of Pompeii and Herculaneum, their destruction, leisure pursuits, politics, commerce, religion, the family and society. Information about Pompeii and Herculaneum from authors based in Rome is included, but the great majority of sources come from the cities themselves, written by their ordinary inhabitants – men and women, citizens and slaves. Incorporating the latest research and finds from the two cities and enhanced with more photographs, maps, and plans, Pompeii and Herculaneum: A Sourcebook offers an invaluable resource for anyone studying or visiting the sites.

Henry Miller called *The Smile at the Foot of the Ladder* his "most singular story." First published in 1959, this touching fable tells of Auguste, a famous clown who could make people laugh but who sought to impart to his audiences a lasting joy. Originally inspired by a series of circus and clown drawings by the cubist painter Fernand Léger, Miller eventually used his own decorations to accompany the text in their stead. "Undoubtedly," he says in his explanatory epilogue, "it is the strangest story I have yet written. . . . No, more even than all the stories which I based on fact and experience is this one the truth. My whole aim in writing has been to tell the truth, as I know it. Heretofore all my characters have been real, taken from life, my own life. Auguste is unique in that he came from the blue. But what is this blue which surrounds and envelopes us if not reality itself? . . . We have only to open our eyes and hearts, to become one with that which is."

From the PREFACE. THIS translation was made at the suggestion of my friend, Dr. W. R. Newbold, Professor of Greek Philosophy at the University of Pennsylvania, in the hope of interesting here and there a student of thought or a lover of poetry. The introduction and notes are intended merely to illustrate the text: they touch only incidentally on the doxographical material and give thus by no means a complete account of all it is possible to know about Empedocles's philosophy. My indebtedness to the critics is frequently attested in the references, but I have in all points tried to exercise an independent judgment. Most citations from works not accessible in English are given in translation.

One of the most controversial of all works to survive from ancient Rome, the Augustan History is our main source of information about the Roman emperors from 117 to 284 AD. Written in the late fourth century by an anonymous author, it is an enigmatic combination of truth, invention and humour. This volume contains the first half of the History, and includes biographies of every emperor from Hadrian to Heliogabalus - among them the godlike Marcus Antonius and his grotesquely corrupt son Commodus. The History contains many fictitious (but highly entertaining) anecdotes about the depravity of the emperors, as the author blends historical fact and faked documents to present our most complete - albeit unreliable - account of the later Roman Caesars.

A new 2023 translation of Gottfried Keller's 1886 "Martin Salander", followed by an

Afterword by the translator, a timeline of his life and works and an index of his works. "Martin Salander" is both the title of a family and historical novel by Gottfried Keller, published in 1886. This final work by the author is a candid critique of conditions in his own country and beyond. It follows Martin, a poor idealist, as he navigates life ethically, which is a reflection of Keller's hope for a compassionate family life as an image for a free Switzerland. The idealistic but credulous and naive protagonist returns to his Swiss homeland after a lengthy stay in Brazil, achieving prosperity as a merchant and engaging in political activities. However, he witnesses how the unchecked pursuit of social advancement leads many contemporaries into fraud and embezzlement, resulting in him and his family becoming victims of such schemes. His hope that people, endowed with political rights in their country, would interact more responsibly with each other is bitterly disappointed, leading him to hand over the management of his business to his pragmatic son by the novel's end. One can compare this novel to Dostoevsky's "The Idiot". In his later work, Gottfried Keller undertook an experiment on multiple fronts. He engaged with contemporary history more directly than in any of his previous works and ventured into new formal pathways by attempting to minimize the use of an authoritative narrator. Despite varying reception, the novel held norm-setting power for many subsequent Swiss writers. **Schiller's Poems and Ballads** Createspace Independent Publishing Platform

David Farrell Krell reflects on nine writers and philosophers, including Heidegger, Derrida, Blanchot, and Holderlin, in a personal exploration of the meaning of sensual love, language, tragedy, and death. The moon provides a unifying image that guides Krell's development of a new poetics in which literature and philosophy become one. Krell pursues important philosophical motifs such as time, rhythm, and desire, through texts by Nietzsche, Trakl, Empedocles, Kafka, and Garcia Marquez. He surveys instances in

which poets or novelists explicitly address philosophical questions, and philosophers confront literary texts—Heidegger's and Derrida's appropriations of Georg Trakl's poetry, Blanchot's obsession with Kafka's tortuous love affairs, and Garcia Marquez's use of Nietzsche's idea of the Eternal Return—all linked by the tragic hero Empedocles. In his search to understand the insatiable desire for completeness that patterns so much art and philosophy, Krell investigates the identification of the lunar voice with woman in various roles—lover, friend, sister, shadow, and narrative voice.
