Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.

Billboard

A dazzling biography of one of the bestselling bands of all time, told with brilliant insight by renowned pop music scholar Bob Stanley. The world is full of Bee Gees fans. Yet for a band of such renown, little is known about Barry, Maurice, and Robin Gibb. People tend to have their favorite era of the Bee Gees's career, but many listeners are also conscious that there is more to uncover about

the band. This book will provide the perfect solution, by pulling together every fascinating strand to tell the story of a group with the imagination of the Beatles, the pop craft of ABBA, the drama of Fleetwood Mac, and the emotional heft of the Beach Boys. Uniquely, the Bee Gees's tale spans the entire modern pop era—they are the only group to have scored British top-ten singles in the '60s,

'70s, '80s, and '90s—and includes world-conquering disco successes like 'Stayin' Alive' and 'More Than a Woman', both from the soundtrack of the hit film *Saturday Night Fever*. But the Bee Gees's extraordinary career was one of highs and lows. From a vicious but temporary split in 1969 to several unreleased albums, disastrous TV and film appearances, and a

demoralising cabaret season, the group weren't always revelling in the glow of million-selling albums, private jets, and UNICEF concerts. Yet, even in the Gibbs' darkest times, their music was rarely out of the charts, as sung by the likes of Al Green, Kenny Rogers and Dolly Parton, and Destiny's Child. Capturing the human story at the heart of the Bee Gees, this book is a lyrical and stylish read,

delighting hardcore fans with its details while engaging casual pop readers who simply want to know more about this important and enigmatic group. Billboard In its 114th year, Billboard remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform.
