The owls, the most mysterious members of the bird kingdom, have long been revered as feathery embodiments of wisdom, as well as admired for their breathtaking beauty. This book nests together some of the most striking examples of stunning strigiformes, from the Mexican Striped to the Abyssinian Eagle Owl, the Sunda Scops to the Burrowing Owl. Stylishly lit and photographed against studio backgrounds, this perfect parliament will have you mesmerised by their elegance, arrested by their gaze. Also included is a succinct introduction to owls, exploring their position at the top of the perch throughout the ages, and reportage photography from conservation centres around the UK.

To prove his goodness, young Nyroc will renounce his name, his mother, and his inheritance to seek the holiest of relics from The Beyond the Beyond. Nyroc has exiled himself from the Pure Ones. He flies alone, feared and despised by those who know him as Kludd's son, hunted by those whose despotism he has rejected, and haunted by ghostly creatures conjured by Nyra to lure him back to the Pure Ones. He yearns for a place he only half believes in -- the great tree -- and an uncle -- the near-mythic Soren -- who might be a true father to him. Yet he cannot approach the tree

while the rumor of evil clings to him. To prove his worth, Nyroc will fly to The Beyond the Beyond seeking the legendary Relic and bring it, a talisman of his own

Even on the hottest summer days this book will transport you." —Helen Macdonald, author of *H is for Hawk*, in *Kirkus* I saw my first Blakiston's fish owl in the Russian province of Primorye, a coastal talon of land hooking south into the belly of Northeast Asia . . . No scientist had seen a Blakiston's fish owl so far south in a hundred years . . . When he was just a fledgling birdwatcher, Jonathan C. Slaght had a chance encounter with one of the most mysterious birds on Earth. Bigger than any owl he knew, it looked like a small bear with decorative feathers. He snapped a quick photo and shared it with experts. Soon he was on a five-year journey, searching for this enormous, enigmatic creature in the lush, remote forests of eastern Russia. That first sighting set his calling as a scientist. Despite a wingspan of six feet and a height of over two feet, the Blakiston's fish owl is highly elusive. They are easiest to find in winter, when their tracks mark the snowy banks of the rivers where they feed. They are also endangered. And so, as Slaght and his devoted team set out to locate the owls, they aim to craft a conservation plan that helps ensure the species' survival. This quest sends them on all-night monitoring missions in freezing tents, mad dashes across thawing rivers, and free-climbs up rotting trees to check nests for precious eggs. They use cutting-edge tracking technology and improvise ingenious traps. And all along, they must keep watch against a run-in with a bear or an Amur tiger. At the heart of Slaght's story are the fish owls themselves: cunning hunters, devoted parents, singers of eerie

duets, and survivors in a harsh and shrinking habitat. Through this rare glimpse into the everyday life of a field scientist and conservationist, *Owls of the Eastern Ice* testifies to the determination and creativity essential to scientific advancement and serves as a powerful reminder of the beauty, strength, and vulnerability of the natural world.

Welcome to the proceedings of the 2004 European Conference on Web Services (ECOWS 2004). ECOWS is one of the leading international conferences focusing on Web services.

ECOWS 2004 was a forum for researchers and practitioners from academia and industry to exchange information regarding advances in the state of the art and practice of Web services, identify emerging research topics, and define the future directions of Web services computing. ECOWS 2004 had a special interest in papers that contribute to the convergence of Web services, Grid computing, e-business and autonomic computing, and papers that apply techniques from one area to another. This conference was called the International Conference on Web Services Europe in 2003. ECOWS 2004 was a sister event of the International Conference on Web Services 2004 (ICWS 2004), which attracted more than 250 registered participants in San Diego, USA. Web services are characterized by network-based application components and a service-oriented architecture using standard interface description languages and uniform communication protocols. Industrial application domains for Web services include business-to-business integration, business process integration and management, content management, e-sourcing, composite Web services creation, design collaboration for computer engineering, multimedia communication, digital TV, and interactive Web solutions. Recently, Grid computing has also started to leverage Web services to define standard interfaces for business Grid services and generic reusable Grid resources. The program of ECOWS 2004 featured a variety of papers on topics ranging from Web services and dynamic business process composition to Web services and process management, Web services discovery, Web services security, Web services-based applications for e-commerce, Web services-based Grid computing, and Web services solutions.

"Cats have been associated with artistic creation for many centuries, from Egyptian tomb paintings to Louis wain's

anthropomorphised felines of the late 1880's. They represent an undeniably compelling subject whether appearing on stone wall, canvas or paper. This book concentrates solely on printmaking, itself an ancient art form that has seemingly found a new lease of life in contemporary hands. Captured on these pages are etchings, engraving, woodblocks, linocuts, silkscreen, collagraphs and lithography. All feature cats as dominant or significant subject. Many are witty, whimsical; some bold others subtle. Buyers of this book will probably art lovers, inevitably cat lovers, or more likely both"-- Publishers description.
