In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how Christopher Johnson McCandless came to die.

"It may be nonfiction, but

Into the Wild is a mystery of the highest order."

—Entertainment Weekly  
McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. Into the Wild is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of

his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man

are illuminated with a rare understanding—and not an ounce of sentimentality. Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

wench \ˈwɛnç\ n. from Middle English “wencil,” 1 a: a girl, maid, young woman; a female child. Situated in Ohio, a free territory before the Civil War, Tawawa House is an idyllic retreat for Southern white men who vacation there every summer with their enslaved black mistresses. It’s their open secret. Lizzie, Reenie, and Sweet are regulars at the resort, building strong friendships over the years. But when Mawu, as fearless as she is assured, comes along and starts talking of running away, things change. To run is to leave everything behind, and for some it also means escaping from the emotional and psychological bonds that bind them to their masters. When a fire on the resort sets off a string of tragedies, the women of Tawawa House soon learn that triumph and dehumanization are inseparable and that love exists even in the most inhuman, brutal of circumstances— all while they bear witness to the end of an era. An engaging, page-turning, and wholly original novel, *Wench* explores, with an unflinching eye, the moral complexities of slavery. *Wench*

Non-Chemical Weed Control is the first book to present an overview of plant crop protection against non-food plants using non-chemical means. Plants growing wild—particularly unwanted plants found in cultivated ground to the exclusion of the desired crop—have been treated with herbicides and chemical treatments in the past. As concern over environmental, food and consumer safety increases, research has turned to alternatives, including the use of cover crops, thermal treatments and biotechnology to reduce and eliminate unwanted plants. This book provides insight into existing and emerging alternative crop protection methods and includes lessons learned from past methodologies. As crop production resources decline while consumer concerns over safety increase, the effective control of weeds is imperative to insure the maximum possible levels of soil, sunlight and nutrients reach the crop plants. Allows reader to identify the most appropriate solution based on their individual use or case Provides researchers, students and growers with current

concepts regarding the use of modern, environment-friendly weed control techniques Presents methods of weed management—an important part of integrated weed management in the future Exploits the knowledge gained from past sustainable weed management efforts

A funny, fiercely feminist YA epic fantasy—following the adventures of a

tavern wench Tanya has worked at her tavern since she was able to see over the bar. She broke up her first fight at 11. By the time she was a teenager she knew everything about the place, and she could run it with her eyes closed. She'd never let anyone—whether it be a drunkard or a captain of the queen's guard—take advantage of her. But when her guardian dies, she might lose it all: the bar, her home, her purpose in life. So she heads out on a quest to

petition the queen to keep the tavern in her name—dodging unscrupulous guards, a band of thieves, and a powerful, enchanted feather that seems drawn to her. Fast-paced, magical, and unapologetically feminist, Wench is epic fantasy like you've never seen it before.
