Where can students visit an Egyptian pyramid, learn the Sumerian number system, study the ancient Chinese dynasties, and explore the Mayan city of Chichen Itza? The Internet, of course! Armed with reproducible graphic organizers, students go online and hone their research skills to learn about these and other ancient civilizations. Students then use what they've learned to recreate a Mayan calendar, map out Mesopotamia, create a timeline of ancient Greece, and more.

*Becoming a Teacher of Writing in Elementary Classrooms* nurtures teachers' identities as writers, connects to the realities of writing instruction in real and diverse classrooms, and encourages critical and creative thinking. This text is about writing instruction as a journey teachers and students embark on together. The focus is on learning how to teach writing through specific teaching and learning structures found in the Writing Studio: mini-lessons; teacher and peer conferencing; guided writing; and sharing, celebrating, and broadcasting writing. Pedagogical features include teaching structures and strategies, "Problematizing Practice" classroom scenarios, assessment resources, and a Companion Website. Because a teacher who views him or herself as a writer is best positioned to implement the Writing Studio, a parallel text, *Becoming-writer*, give readers space to consider who they are as a writer, their personal process as a writer, and who they might become as a writer.

This book takes you on a journey where no writer has ever taken you before. Author Valerie Kirschenbaum not only dreams of a Renaissance "the likes of which the world has never seen", she gives you the actual blueprint. In warm and intimate prose, she shows you how and why we will experience this Renaissance in our lifetime. Responding to the recent National Endowment for the Arts survey, which documented a precipitous, 20-year decline in America's reading habits, she presents an electrifying new solution for captivating a generation of readers reared on television, movies and music videos. With 860 gorgeous, full colour images from ancient Egypt, Greece, Rome,

Maya, India, China, Japan, Tibet, and medieval Europe (many never seen by an American audience), Kirschenbaum provides what world renowned graphic designer Milton Glaser described as "the visual history of the universe and its relationship to writing." She combines the breathtaking beauty of illuminated manuscripts with today's latest technologies to create a scintillating multisensory experience.

In *Unlocking the Power of Academic Vocabulary*, Dr. Yu Ren Dong, an associate professor of English education at Queens College, City University of New York, helps secondary teachers expand their instructional repertoire to teach academic vocabulary in a systematic, meaningful, contextualized, and exciting way. Every secondary, subject-matter teacher will find strategies, easy-to-integrate activities, and tips on selecting words and planning lessons. As you teach with these strategies, your English language learners will be able to: tap into prior knowledge through cross-language transfer and cross-cultural comparisons; use concept-based vocabulary, such as analogies, metaphorical language, themes, sources, inquiry, and graphic organizers; interact with new words in context to decipher euphemisms, words with multiple meanings, connotation, and context clues; engage in interactive read-alouds, think-alouds, and wordplay; and master vocabulary through writing. Charts, student examples, suggested resources, and subject-matter vocabulary lists give teachers the hands-on tools they need to teach the concepts behind words as well as the actual definitions, spelling, and sounds. Transform your academic vocabulary instruction into an engaging, skill-building mix that carries over into students' reading, writing, thinking, and conversations in all subject areas.

Travel to ancient Rome to experience power, corruption and greed among the ruling class. This resource helps to focus and guide classroom discussions. Imagine alternatives to dealing with disagreeing parties in a peaceful manner. Put yourself in the mind of Brutus to determine how he convinces himself to betray his friend. Answer questions about the events that take place surrounding Caesar's death. Look inward to identify your own values and what you would do to see them realized. Keep track of your dreams in order to decipher their meanings. Complete a timeline of the real Julius Caesar and his accomplishments. Aligned to your State Standards and written to Bloom's Taxonomy, our worksheets incorporate a variety of scaffolding strategies along with additional crossword, word search, comprehension quiz and answer key. About the Novel: Julius Caesar imagines the true events surrounding the titular character's downfall. Beware the Ides of March! A warning given to Caesar, but not followed. Caesar has risen to power. Rome is prospering. However, some of the other senators are not happy. They believe Caesar is drunk with power. They believe Rome would be better with someone else in charge. Their greed leads to the formation of a plot to overthrow Caesar. Led by Cassius, the conspirators know they need Brutus on their side. With manipulation they succeed, and the horrible deed is done. What happens after this betrayal is a struggle for power between two sides. One side that of the conspirators. The other of Marc Antony and Octavius, who have managed to turn the Romans against Brutus and the others. This struggle culminates into a war, where only one ruler will rise to control Rome.

#### **Social Studies Lessons Using Graphic Organizers** Routledge

This book is written primarily for pre-service and in-service teachers of Literacy/English Language Arts, school administrators, literacy graduate education students, and literacy education researchers, and addresses the myriad of questions regarding the implementation of the Common Core State Standards. Classroom teachers and pre-service teachers are currently confronting questions such as how they can teach the Common Core State Standards to make sure they are fully addressing them; how they can have the time to teach students to have deeper understandings of the skills and concepts addressed in the Standards; what they can do to meet the learning needs of diverse students such as English language learners and students with learning disabilities; whether teachers of content areas are required to add reading instruction to their teaching responsibilities; whether the Standards tell teachers what to teach; and whether the document tells teachers how to implement the Standards in the classroom, among others. This book is designed to answer these questions and many others. Each chapter contains instructional practices, examples, vignettes, and illustrations that connect the Common Core State Standards to classroom practices, and thereby provide pre-service and in-service teachers with meaningful, relevant, and practical teaching strategies to prepare culturally, academically, and linguistically diverse students in California and other states of the nation for both career and college. In this regard, readers of this book will find that the authors have provided a pathway to better understand the Common Core State Standards, and will be able to use what they learn in the pages of this book to provide more effective instruction for their students across the disciplines to read, analyse, and critique complex texts and apply knowledge to solve practical, real-life problems.

No matter where students' lives lead after graduation, one of the most essential tools we can teach them is how to comprehend, analyze, and respond to arguments. Students need to know how writers' and speakers' choices are shaped by elements of the rhetorical situation, including audience, occasion, and purpose. In *Teaching Arguments: Rhetorical Comprehension, Critique, and Response*, Jennifer Fletcher provides teachers with engaging classroom activities, writing prompts, graphic organizers, and student samples to help students at all levels read, write, listen, speak, and think rhetorically. Fletcher believes that, with appropriate scaffolding and encouragement, all students can learn a rhetorical approach to argument and gain access to rigorous academic content. *Teaching Arguments* opens the door and helps them pay closer attention to the acts of meaning around them, to notice persuasive strategies that might not be apparent at first glance. When we analyze and develop arguments, we have to consider more than just the printed words on the page. We have to evaluate multiple perspectives; the tension between belief and doubt; the interplay of reason, character, and emotion; the dynamics of occasion, audience, and purpose; and how our own identities shape what we read and write. Rhetoric teaches us how to do these things. *Teaching Arguments* will help students learn to move beyond a superficial response to texts so they can

analyze and craft sophisticated, persuasive arguments; a major cornerstone for being not just college- and career-ready but ready for the challenges of the world.
