Windows Server 2008 Administrator with MOAC Labs Online Set Wiley
MOAC Labs Online is a cloud-based

environment that enables students to conduct exercises using real Microsoft products. These are not simulations but instead are live virtual machines where faculty and students can perform any activities they would on a local virtual machine. MOAC Labs Online relieves the need for local setup, configuration and most troubleshooting tasks. Rapid changes in software and hardware, authentic job training and experience, and anytime, anywhere access has become the new reality of today's student. This represents an opportunity to lower costs, eliminate the hassle of lab setup and support and improve student access and portability.

Exam 70-688 Managing and Maintaining Windows 8 Lab Manual
Wiley

MOAC Labs Online Wiley

This book is for students preparing to become certified for the 70-630, Microsoft Office SharePoint Server 2007 Configuration exam. The Microsoft Official Academic Course (MOAC) lessons correlate and are mapped to the Microsoft Certified Technology Specialist (MCTS) 70-630 certification exam. This text covers facilitating collaboration, understanding content management features, implementation of business processes, and supplying access to

information essential to organizational goals and processes. Students master skills to utilize SharePoint sites that support specific content publishing, content management, records management, and business intelligence needs. The MOAC IT Professional series is the Official from Microsoft, turn-key Workforce training program that leads to professional certification and was authored for college instructors and college students.

Exam 70-646 Wiley

MOAC Labs Online provide students with a hosted emulation environment for working in labs designed for use with the Microsoft Official Academic Course curriculum. These labs are the hands-on software experience that is critical for students to build the skills and

knowledge they need for effective work with Windows Server 2008 on the job. Give them real experience with real software, freely exploring the full environment, instead of the prescribed task flow of simulations. MOAC Labs Online simplify the implementation of your new network administration program by eliminating lab set up. All lab exercises are hosted on Microsoft servers. Only a browser and internet connection are required for their use. This will save your institution the expense of upgrading the hardware and the software in your lab. You will no longer need dedicated hard drives for each student. Students may log into their virtual lab from any machine. Distance learning is now a viable option for your IT Professional program.

Microsoft Press

70-620 Windows Vista Configuration with MOAC Virtual Lab Wiley

Microsoft Windows Server is a multi-purpose server designed to increase reliability and flexibility of a network infrastructure. Windows Server is the paramount tool used by enterprises in their datacenter and desktop strategy. The most recent versions of Windows Server also provide both server and client virtualization. Its ubiquity in the enterprise results in the need for networking professionals who know how to plan, design, implement, operate, and troubleshoot networks relying on

Windows Server. Microsoft Learning is preparing the next round of its Windows Server Certification program with exams covering the new version of the software, Windows Server 2012. The exams and certification path change significantly from the previous version of Windows Server. This provides an opportunity for the MS line to capitalize on the dual disruption of brand-new software and brand-new certifications.
