| <u>Abstracts of Theses European Alliance for Innovation</u> | |
| This two-volume-set constitutes the refereed proceedings of the 6th International Conference on Future Information Technology, FutureTech 2011, held in Crete, Greece, in June 2011. The 123 revised full papers presented in both volumes were carefully reviewed and selected from numerous submissions. The papers are organized in topical sections on future information technology, IT service and cloud computing; social computing, network, and services; forensics for future generation communication environments; intelligent transportation systems and applications; multimedia and semantic technologies; information science and technology. | |
| <u>ICHSS 2022 Sanata Dharma University Press</u> | |
| We introduce the proceedings of the Material Science and Chemistry Symposium, one of the symposia in the 4th International Conference on Science and Technology (4th ICST 2018) that was held in Yogyakarta, Indonesia on 7[8 August 2018. The published papers present results of the multiple researches on the properties of materials and technologies in area of pharmacology, food production, modern biomanufacturing and chemical industry, nanomaterials, functional and structural materials. We hope that this collection will be interesting and useful for many specialists from different branches of the modern production. | |
| <u>Advanced Computer and Communication Engineering Technology Expose</u> | |
| This is an open access book. Still related to the big theme of reinforcement the SDG's at the previous conference, we try to invite academics and researchers in the world to participate in the 3rd Borobudur International Symposium 2021 (3rd BIS 2021). As we know, The COVID-19 pandemic and its impact on all 17 SDGs have demonstrated that what began as a health catastrophe swiftly transformed into a human and socioeconomic crisis. In September 2019, the UN Secretary-General urged all sectors of society to mobilize for a decade of action on three fronts: global action to ensure increased leadership, increased resources, and smarter solutions for the Sustainable Development Goals; local action to embed the necessary transitions into governments' policies, budgets, institutions, and regulatory frameworks; and international action to ensure greater leadership, increased resources, and smarter solutions for the Sustainable Development Goals. Especially in 3rd BIS 2021, we brought up "Decade of Action towards Environmental Issues: Advancing the Innovation to Recover our Planet" as main theme. The conference will be held on Wednesday, December 15, 2021 in Magelang, Central Java, Indonesia. Scope includes Art & Linguistics, Communication, Economics, Education, Government Studies, Health Administration, Hospitality, International Relations, Law, Pharmacy, Political Studies, Psychology, Public Health, Religious Studies, Sociology, Health Sciences. | |
| Proceedings of the 1st International Conference on Electronics, Biomedical Engineering, and Health Informatics Springer Nature | |
| The scope of this book focuses on how information technology may assist in achieving goals and in providing solutions to problems such as a pandemic. Research on the Internet and on technology has been done, and the findings have applications in various sectors that rely on interdisciplinary knowledge. This book explores and describes state-of-the-art research conducted during the COVID-19 pandemic. Topics covered include the IT viewpoint and the rules governing digital transformation throughout the pandemic. The Digital Revolution sped up by a decade during COVID-19, which impacted both the user experience and that of software developers. As a component of the digital transformation process, this book explores the experiences of both the user and developer when attempting to change and adapt while utilizing an information technology program. This book includes five topics: (1) multidisciplinary artificial intelligence, (2) Smart City and Internet of Things applications, (3) game technology and multimedia applications, (4) data science and business intelligence, and (5) IT hospitality and information systems. Each | |

topic is covered in several book chapters with some application in several countries, especially developing countries. The chapters provide insight from contributors with different perspectives and several diverse fields who present new ideas and approaches to solving problems associated with the worldwide pandemic.

ICLSSEE 2021 Transnational Press London

This is an open access book. Since human beings entering the modern era, risks have become parts of the very fabric of the society, either social, cultural, economy or political; they hit them entirely and continuously. The risks of the pandemic Covid-19 – hit the world in 2020 – have brought in a real jeopardy; new crises, new problems, new challenges that have radically changed ways of living of human beings in all continents and in all aspects of their daily activities. The issue of sustainability as the core principle to govern the today society – social, cultural, political and education – has been more prominent yet faced more difficult and unprecedented challenges. The academic conference addresses the issue of sustainability of social, education and political values, traditions and activities pursued by human beings in their daily life as now have been entirely affected by the pandemic. On the one hand, there is an inherent risk of the modern living, the vulnerability of human being and the power of nature that must be not only understood and learnt but also institutionalized and structured in various arena of social life of the people. On the other hand, there has been a tremendous change on the ways the social features of human living – from simple informal meeting/gathering of neighborhoods to daily shopping, formal working at the office/home, school teachings, professional football matches, elections and government/state ceremonies – being re-defined, reconstructed and carried out with online/virtual media. This new social fabric – thank to the Internet! – will eventually re-shape all established social institutions – states/government bodies, private companies, churches/religious organizations, schools/universities and so forth – on their approaches and serve the populace as well as their adaptation and change to survive and sustain.

Proceedings of the 1st UPY International Conference on Education and Social Science (UPINCESS 2022) Springer

This e-book presents selected papers from social sciences and humanities research area. The aim of this lecture notes is to provide a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field. This e-book will serve as a valuable reference resource for academics and researchers across the globe. Proceedings of the International Conference on Sustainability in Technological, Environmental, Law, Management, Social and Economic Matters (ICOSTELM 2022) Springer Nature

This is an open access book. It has been two years since the COVID-19 pandemic swept across the world. This has more or less left a mark of memories and trauma for more or fewer people. This pandemic reminds people around the world that there are things that can happen without people knowing it. People start to worry and pessimistically see the uncertainty that lies in the future. To deal with this, a strategy is needed through educational innovation and social science to answer and face the challenges of uncertainty in the future. Breakthroughs in education and social science are the most strategic ways to build and enhance human capacity to solve problems, environmental and social problems. The spirit of innovation, rising from an economic downturn, the use of technology is obtained through the role of educational institutions. This can be interpreted that innovation in education and social science produces superior humans, who have good behavior, and wise humans. So that in the face of uncertainty in the post-pandemic period, humans have strategies and become more prepared. To find out more about strategies for dealing with and responding to future uncertainties after the pandemic through educational innovations and social science, it is necessary to conduct research or studies that discuss these matters and be published widely. To support this, Universitas PGRI Yogyakarta held an international conference and Call for Papers The 1st UPY International Conference on Education and Social Science (UPINCESS) "Strategies to Deal with Uncertainty through Education and Social Science Innovation"

on June 15, 2022.

Design of Materials and Technologies for Environmental Remediation Springer Nature

In the light of current digital advancements, the discourse surrounding digitalization has increased in importance, and the International Scientific Conference "Social Discourse in Challenging Times" reflected upon this trend. Coordinated by the University of Economics in Bratislava, this event was organized within the ODDEA project, at the University of Economics in Bratislava, between May 17th-20th, 2023. A significant attribute of the conference was its hybrid form, utilizing both face-to-face interaction at the University premises, and MS TEAMS for virtual involvement. This conference focused on the exploration of two fundamental areas of study. The first explored interdisciplinary topics of the current discourse, while the second dived into the digital transformation occurring within the EU and Southeast Asian countries. The second area was specifically devoted to presentations of research findings from the first work package of the ODDEA project. This not only brought to the forefront the work of the project's researchers, but it also fostered synergies within the consortium, enhancing the project's implementation. The value and impact of the ODDEA project are also reflected within this volume. From discussions around current discourses to the exploration of the digitalization pathways, this collection represents a milestone in our journey towards a digital society research that would be both inclusive and resilient. These presentations provide insights into the selected problems of digital transformation and are invaluable contributions to the understanding of digitalization during these challenging times. Our sincere appreciation goes out to the researchers, contributors, reviewers and the academic community who have made this significant contribution possible. We hope that this volume will fuel further discussions, inspire additional research, and drive innovative breakthroughs in digitalization and interdisciplinary studies.

LECTURE NOTES IN SOCIAL SCIENCES AND HUMANITIES: FRONTIER RESEARCH CRC Press

We are pleased to introduce the proceedings of the second edition of the International Conference of Humanities and Social Science 2022 (ICHSS). The conference has brought researchers, developers, and practitioners around the world to write about their work in social and humanities research aimed at strengthening diversity. The theme of ICHSS 2022 is "Freedom to Learn in Education, Social, Religious, Culture, and Language Perspective."

Proceedings of the 4th Borobudur International Symposium on Humanities and Social Science 2022 (BIS-HSS 2022) Trans Tech Publications Ltd

This is an open access book. The objectives of the conference are as follows. to update knowledge about the relevant program priorities for addressing CVD burden in developing countries to explore options for the comprehensive management of primary cardiovascular risk factors such as high blood pressure, high blood glucose level, smoking, and sedentary lifestyle to discuss the latest guidance and evidence on the early detection and management of CVD and its implementation in the context of developing countries, including the impact of the COVID-19 pandemic on the management of CVD to strengthen interprofessional collaboration in addressing challenges using multidisciplinary approaches for the prevention, treatment, and rehabilitation of patients with CVD to update knowledge about health technology science and innovation related to the management and rehabilitation of patients with CVD.

Proceedings of the International Conference on Global Innovation and Trends in Economics and Business (ICOBIS 2022) European Alliance for Innovation

Penggabungan dan pengasingan kaedah kuantitatif dan kualitatif secara teknik 'penyegitigaan' dalam sesuatu kajian diterjemahkan ke dalam buku ini melalui pembentangan projek kajian sebenar. Penyegitigaan ialah strategi, pelan dan struktur yang digunakan untuk mendapatkan jawapan kepada permasalahan yang dikenal pasti pada peringkat awal kajian. Bencana tsunami yang melanda Aceh, Indonesia pada tahun 2004 telah menarik minat penulis untuk menjalankan kajian penilaian kesesuaian tanah untuk petempatan pascabencana dengan menggunakan teknik penyegitigaan ini. Kajian ini dijalankan secara komprehensif berdasarkan persekitaran fizikal

dengan mengambil kira risiko bencana dan implikasi sosial. Buku ini diadaptasi daripada tesis doktor falsafah Muhammad Rusdi yang diselia oleh Ruhizal Roosli dan Mohd Sanusi S. Ahamad. Tesis ini telah dinobatkan oleh Universiti Sains Malaysia (USM) sebagai Tesis Terbaik dalam Majlis Persada Kencana pada tahun 2017. Walaupun terdapat sejumlah buku di pasaran yang membahaskan garis panduan pembangunan dan teknik penelitian umum penyegitigaan, namun buku-buku tersebut hanya memberikan contoh penggabungan kaedah kuantitatif dan kualitatif tanpa cadangan penyelesaian serta implikasi terhadap polisi pentadbiran dan persekitaran seperti yang dibincangkan dalam buku ini. Malah, buku ini turut memaparkan langkah demi langkah teknik penyegitigaan berdasarkan kajian kes berserta rajah dan penerangan lengkap. Buku ini sesuai dijadikan bahan rujukan bagi pengamal industri, pelajar, ahli akademik dan penyelidik.

Proceedings of the 3rd International Conference on Cardiovascular Diseases (ICvD 2021) Penerbit NEM

This volume of peer-reviewed papers is from the symposium of life sciences, materials, and applied chemistry. It provides an opportunity for readers to connect with a selection of refereed papers presented during the 5th International Conference on Science and Technology (ICST 2019, July 30-31, 2019, Yogyakarta, Indonesia). The papers published here reflect on the multiple dimensions of the properties of materials and their application, development technologies of synthesis and processing for goals of biomedicine, pharmacology, food production, agriculture, biomass processing, and environmental engineering.

Symposium of Materials Science and Chemistry III Springer Nature

The Social Sciences Empowered contains papers presented at the 7th International Congress on Interdisciplinary Behavior and Social Science 2018 (ICIBSoS 2018), held 21-22 July 2018, Bangkok, Thailand, 22-23 September 2018, Bali, Indonesia, 6-7 October 2018, Kuta, Bali, Indonesia, and 24-25 November 2018, Yogyakarta, Indonesia. ICIBSoS 2018 provided the economic and social analysis necessary for addressing issues in Humanities disciplines such as Education, Sociology, Anthropology, Politics, History, Philosophy, Psychology as well as food security. Contributions to these proceedings give necessary insight into the cultural and human dimension of such diverse research areas as transport, climate change, energy and agriculture. ICIBSoS 2018 also analyses the cultural, behavioural, psychological, social and institutional drivers that transform people's behaviour and the global environment. ICIBSoS 2018 proposes new ideas, strategies and governance structures for overcoming the crisis from a global perspective, innovating the public sector and business models, promoting social innovation and fostering creativity in the development of services and product design.

ICMLG2015-The 3rd International Conference on Management, Leadership and Governance Cambridge University Press

This book constitutes the refereed proceedings of the International Conference on Information and Communication Technology, ICT-EurAsia 2013, and the collocation of AsiaARES 2013 as a special track on Availability, Reliability, and Security, held in Yogyakarta, Indonesia, in March 2013. The 62 revised full papers presented were carefully reviewed and selected from a numerous submissions. The papers are organized in topical sections on e-society, software engineering, security and privacy, cloud and internet computing, knowledge management, dependable systems and

applications, cryptography, privacy and trust management, network analysis and security, and multimedia security.

Handbook of Research on Disruptive Innovation and Digital Transformation in Asia Springer Nature
Jamu, the Indonesian herbal medicine, has been passed down through generations. It is part of the local wisdom, culture and tradition. A vast variety of plants throughout Indonesia have been used to prepare jamu for healing, health maintenance and for beauty care. Using safe ingredients taken from the nature and due to its affordability, it remains an alternative to modern medicine opted by the majority of the population. The use of jamu does not only preserve the local wisdom, it is also the means of conserving the natural resources, the bio-diversity treasure of the land. In this book Dr. Martha Tilaar, Prof. Dr. Ir. Bernard Wijaya as well as several other experts from leading universities and research institutions comprehensively discuss various aspects of jamu ranging from culture, science, ethnobotany, health, beauty, and industrialization as well as commercialization. The book is presented with the hope that it inspires scientists, academics and policy makers involved in herbal medicine to continue the development of jamu for the health of generations to come and for the benefit of the world.

Religion and Nationalism in Southeast Asia Springer

This is an open access book. MEST2022 invites all potential authors from universities and various organisations to submit papers in the area of mechanical, manufacturing, materials sciences and related interdisciplinary engineering fields. This conference is part of a conference program called International Summit on Science Technology and Humanity (ISETH) 2022 Organized by Universitas Muhammadiyah Surakarta. The 6th Mechanical Engineering, Science and Technology (MEST2022) International conference is an annual the Mechanical Department of Universitas Muhammadiyah Surakarta event. All possible writers from universities and other organizations are invited to submit papers. The conference is a forum for academic exchange that provides a prompt presentation of articles on experimental, numerical, and theoretical studies that shed light on the critical topics of mechanical, thermal, fluid, and aerothermodynamics internal flow, heat and mass transfer, multiphase flow, turbulence modelling, combustion, engineering thermodynamics, thermophysical properties of matter, measurement, and visualization techniques. Contributions range from intriguing and significant research immediately applicable to industry development or practice to high-level student textbooks, explanations, distribution of technology, and good practice.

Symposium of Materials Science and Chemistry Trans Tech Publications Ltd

This is an open access book. The 3rd Universitas Lampung International Conference on Social Sciences (ULICoSS) 2022 (ULICoSS) 2022 is an international conference organized by the Institute for Research and Community Services, Universitas Lampung, Indonesia. The event took place on 6th - 7th September 2022 in Bandar Lampung City, on the Indonesian island of Sumatra. This event will adopt a hybrid working model, combining an in-person event with an online meeting via Zoom. Attendees and presenters are expected to interact in this way, using technology to connect to global networks. As has been widely stated in the literature, a number of reports and papers have examined the pandemic's negative effects, with the majority of work to date focusing on COVID-19's negative impact on psychological well-being. Thus, social adjustment is required for resilience in order to adapt to and change in the face of adversity. In other words, it is clear that social adjustment, which includes the specific behaviors and abilities that people use to deal with

daily problems and adapt to changing circumstances, is critical for global resilience today. As such, this international conference, which will feature five invited keynote speakers from the Czech Republic, Hungary, Indonesia, and Japan is intended to serve as a forum for the dissemination of specific alternative and significant breakthroughs in rapid social adjustments for global resilience, with an emphasis on global society, social welfare and development, and innovative communication, among other topics. Therefore, we invite scholars, academics, researchers, experts, practitioners, and university students to participate and share perspectives, experiences, and research findings by submitting papers on a variety of topics relevant to the conference's theme and scope. All abstracts and papers submitted for consideration will undergo a double-blind peer review process to ensure their quality, relevance, and originality.

Handbook of Climate Change Communication: Vol. 2 Springer Nature

The conference committee encourages contributions on this wide range of topics through the use of a variety of rigorous approaches, including theoretical and empirical papers employing qualitative, quantitative and critical methods. Action-based research, case studies and work-in-progress/posters are enthusiastically welcomed. PhD research, proposals for roundtable discussions, practitioner contributions and product demonstrations based on the conference themes are also invited.

ICoSI 2014 Trans Tech Publications Ltd

This book describes environmental remediation technologies to remove pollutants from the environment and the environmental materials used for remediation. The focus is on the functional design of environmental materials, especially to create materials for coping with a variety of pollutants in different concentrations and conditions. The authors present research highlights from their work in this area and aim to inspire the development of new concepts in environmental remediation. This work is a must-read for practitioners who are exploring restoration technologies and materials for solving environmental pollution as well as researchers and graduate students studying environmental remediation. A number of Asian researchers who have been engaged in these studies are among the authors, and this book will contribute to solving pollution problems in Asia as well as the rest of the world.

Research in the Social Scientific Study of Religion, Volume 30 Three House Global Services
Celebrating their 50th anniversary, Indonesia and South Korea have bolstered multifaceted cooperation, especially in security, economics, agriculture, and cultural exchange. Adopting the theme "Closer Friendship Stronger Partnerships", both nations emphasize the pivotal role of their citizens in steering and benefiting from their partnership. This book, featuring contributions from Indonesian doctoral candidates in South Korea under the HEAT Scholarship (Higher Education for ASEAN Talent) offers insights into diverse areas of collaboration. Topics include the gender dynamics of Indonesian migrant workers in Korea, bilateral tourism opportunities highlighted by the IK-CEPA, AI's integration in agriculture and education, local government's role in international relations, agricultural transformation, and the impacts of global political dynamics on their partnership. Additionally, the influence of Korean pop culture in Indonesia and the potential of mutual health collaborations is discussed. Through these insights, the contributors aim to enrich the understanding and potential of Indonesia-South Korea partnerships.
