This is a book about one of the great untold stories of modern cultural life: the remarkable ascendancy of prizes in literature and the arts. Such prizes and the competitions they crown are almost as old as the arts themselves, but their number and power--and their consequences for society and culture at large--have expanded to an unprecedented degree in our day. In a wide-ranging overview of this phenomenon, James F. English documents the dramatic rise of the awards industry and its complex role within what he describes as an economy of cultural prestige. Observing that cultural prizes in their modern form originate at the turn of the twentieth century with the institutional convergence of art and competitive spectator sports, English argues that they have in recent decades undergone an important shift--a more genuine and far-reaching globalization than what has occurred in the economy of material goods. Focusing on the cultural prize in its contemporary form, his book addresses itself broadly to the economic dimensions of culture, to the rules or logic of exchange in the market for what has come to be called "cultural capital." In the wild proliferation of prizes, English finds a key to transformations in the cultural field as a whole. And in the specific workings of prizes, their elaborate mechanics of nomination and election, presentation and acceptance, sponsorship, publicity, and scandal, he uncovers evidence of the new arrangements and relationships that have refigured that field.

The Eisteddfod, first published in 1990 as part of the University of Wales Press's Writers of Wales series, presents the history of the National Eisteddfod to an English-speaking audience. Hywel Teifi Edwards (1934–2010), author, historian and broadcaster, was a leading authority on the history of the National Eisteddfod, which is Wales's annual cultural event and one of Europe's largest and oldest festivals. This concise, engaging and witty volume gives an overview of that history from the first Eisteddfod in 1176 to the modern Eisteddfod of the 1980s. It outlines the various literary competitions which are held annually at the Eisteddfod, and highlights some of the most memorable and important winners of prizes such as the Chair and the Crown.

We value truth in this family. Carpe Diem. Seize the day. We're all just food for worms. So tell them you love them. Have fun, mount a donkey, whatever, just feel alive. Charades is fun, right, with those people, yes, your family, the ones you try to get away from at Christmas. For the Pilgrims though it's not simply a family affair, this is more than a game, this... Is an Eisteddfod. This bawdy new play from acclaimed young playwright Luke Barnes, is inspired by Suffolk folklore and explores the idea of family and identity, stories and how they are told.

The outdoor music festival market has developed and commercialised significantly since the mid-1990s, and is now a mainstream part of the British summertime leisure experience. The overall number of outdoor music festivals staged in the UK doubled between 2005 and 2011 to reach a peak of over 500 events. UK Music (2016) estimates that the sector attracts over 3.7 million attendances each year, and that music tourism as a whole sustains nearly 40,000 full-time jobs. Music Festivals in the UK is the first extended investigation into this commercialised rock and pop festival sector, and examines events of all sizes: from mega-events such as Glastonbury Festival, V Festival and the Reading and Leeds Festivals to 'boutique' events with maximum attendances as small as 250. In the past, research into festivals has typically focused either on their carnivalesque heritage or on developing managerial tools for the field of Events Management. Anderton moves beyond such perspectives to propose new ways of understanding and theorising the cultural, social and geographic importance of outdoor music festivals. He argues that changes in the sector since the mid-1990s, such as professionalisation, corporatisation, mediation, regulatory control, and sponsorship/branding, should not necessarily be regarded as a process of transgressive 'alternative culture' being co-opted by commercial concerns; instead, such changes represent a reconfiguration of the sector in line with changes in society, and a broadening of the forms and meanings that may be associated with outdoor music events.

The Gwyneddion, Or, an Account of the Royal Denbigh Eisteddfod Held in September 1828 Greenwood

This volume recounts the fascinating history and thrilling contemporary celebrations of one of the most well-known aspects of Welsh cultural life: the Eisteddfod (eye-steth-vod). This festival of literature, music, and performance--in celebration of Welsh language and culture--dates back to the earliest history of the Celtic bards. Deteriorating to a tavern festival that cleverly punned on the meaning of the word ("Eistedd, ""to sit") in medieval and Renaissance times, the Eisteddfod became fully reinvented in the years it spent under the imaginative and creative hands of the Welsh Romantic visionary Iolo Morganwg, as well as his later supporters and devotees. "The Eisteddfod" traces the evolution of this ebullient festival from the nineteenth century to the present--providing a virtual tour of the sites and various features of the festival, as well as the fascinating journey the celebration has taken from Wales to global sites as farflung as Patagonia, Australia, Washington, D.C., and Malad City, Idaho. Competitions in poetry and prose translation, song and dance, photography, and video, as well as more traditional performing arts and acting events, make the Eisteddfod a fascinating index of the Welsh diaspora--and "The Eisteddfod " captures this jubilant folk festival in all its remarkable incantations, histories, and thrilling traditions.
