A WALL STREET JOURNAL BEST BOOK OF THE YEAR • From the award-winning historian and best-selling author of Gettysburg comes the definitive biography of Robert E. Lee. An intimate look at the Confederate general in all his complexity—his hypocrisy and courage, his inner turmoil and outward calm, his disloyalty and his honor. "An important contribution to reconciling the myths with the facts." —New York Times Book Review Robert E. Lee is one of the most confounding figures in American history. Lee betrayed his nation in order to defend his home state and uphold the slave system he claimed to oppose. He was a traitor to the country he swore to serve as an Army officer, and yet he was admired even by his enemies for his composure and leadership. He considered slavery immoral, but benefited from inherited slaves and fought to defend the institution. And behind his genteel demeanor and perfectionism lurked the insecurities of a man haunted by the legacy of a father who stained the family name by declaring bankruptcy and who disappeared when Robert was just six years old. In Robert E. Lee, the award-winning historian Allen Guelzo has written the definitive biography of the

general, following him from his refined upbringing in Virginia high society, to his long career in the U.S. Army, his agonized decision to side with Virginia when it seceded from the Union, and his leadership during the Civil War. Above all, Guelzo captures Robert E. Lee in all his complexity--his hypocrisy and courage, his outward calm and inner turmoil, his honor and his disloyalty. Compton's Pictured Encyclopedia and Fact-index Vintage Die Trivialliteratur und somit selbstverständlich auch Comics sind fester Bestandteil der Leser- und Lesestoffforschung. Die früher noch für lange Zeit als "banal" und "jugendgefährdend" bezeichnete "Schundliteratur" wird gegenwärtig von allen sozialen Schichten gelesen. Doch noch immer beschäftigt man sich mit der Aufarbeitung der Geschichte dieser Literatur. In diesem Werk erfährt der Leser unter anderem, dass ein Antiheld im Comic genauso vielschichtig sein kann wie Georg Büchners Woyzeck.

Beautiful Joe Nabu Press

The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon

employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate

rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

Life of George Washington, Commander in Chief of American Forces

National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and

often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*
