The original version of this text was published in 1984 as a textbook on military history for officers in the U.S. Army. The revised version includes an appendix of terms and acronyms, and concepts are explained in nontechnical terms, making it more comprehensible to the general reader. Also incorporated is a description of combined arms warfare from the late-1970s to the end of the 20th century, which takes into account developments that were not obvious in 1984. The main topics are how the major armies of the world fight on the battlefield; what concepts, weapons, and organizations have developed for this purpose; and how the different armies have influenced each other in these developments. House is a former military officer and analyst for the Joint Chiefs of Staff. c. Book News Inc.

In his heyday, during the 1960s and early 1970s, B. S. Johnson was one of the best-known young novelists in Britain. A passionate advocate for the avant-garde in both literature and film, he became famous -- not to say notorious -- both for his forthright views on the future of the novel and for his idiosyncratic ways of putting them into practice. But in November 1973 Johnson's lifelong depression got the better of him, and he was found dead at his north London home. He had taken his own life at the age of forty. Jonathan Coe's biography is based upon unique access to the vast collection of papers Johnson left behind after his death, and upon dozens of interviews with those who knew him best. As unconventional in form as one of its subject's own novels, it paints a remarkable picture -- sometimes hilarious, often overwhelmingly sad -- of a tortured personality; a man whose writing tragically failed to keep at bay the demons that pursued him.

Film music is as old as cinema itself. Years before synchronized sound became the norm, projected moving images were shown to musical accompaniment, whether performed by a lone piano player or a hundred-piece orchestra. Today film music has become its own industry, indispensable to the marketability of movies around the world. Film Music: A Very Short Introduction is a compact, lucid, and thoroughly engaging overview written by one of the leading authorities on the subject. After opening with a fascinating analysis of the music from a key sequence in Quentin Tarantino's Reservoir Dogs, Kathryn Kalinak introduces readers not only to important composers and musical styles but also to

modern theoretical concepts about how and why film music works. Throughout the book she embraces a global perspective, examining film music in Asia and the Middle East as well as in Europe and the United States. Key collaborations between directors and composers--Alfred Hitchcock and Bernard Herrmann, Akira Kurosawa and Fumio Hayasaka, Federico Fellini and Nino Rota, to name only a few--come under scrutiny, as do the oft-neglected practices of the silent film era. She also explores differences between original film scores and compilation soundtracks that cull music from pre-existing sources. As Kalinak points out, film music can do many things, from establishing mood and setting to clarifying plot points and creating emotions that are only dimly realized in the images. This book illuminates the many ways it accomplishes those tasks and will have its readers thinking a bit more deeply and critically the next time they sit in a darkened movie theater and music suddenly swells as the action unfolds onscreen. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

Toward Combined Arms Warfare Penguin

An intimate and poignant memoir about the family of Alan Kurdi—the young Syrian boy who became the global emblem for the desperate plight of millions of Syrian refugees—and of the many extraordinary journeys the Kurdis have taken, spanning countries and continents. Alan Kurdi's body washed up on the shore of the Mediterranean Sea on September 2, 2015, and overnight, the political became personal, as the world awoke to the reality of the Syrian refugee crisis. Tima Kurdi first saw the shocking photo of her nephew in her home in Vancouver, Canada. But Tima did not need a photo to understand the truth—she and her family had already been living it. In *The Boy on the Beach*, Tima recounts her idyllic childhood in Syria, where she grew up with her brother Abdullah and other siblings in a tight-knit family. A strong-willed, independent woman, Tima studied to be a hairdresser and had dreams of seeing the world. At twenty-two, she emigrated to Canada, but much of her family remained in Damascus. Life as a single mother and immigrant in a new country wasn't always easy, and Tima recounts with heart-wrenching honesty the anguish of being torn between a new home and the world she'd left behind. As Tima struggled to adapt to life in a new land, war overtook her homeland. Caught in the crosshairs of civil war, her family risked everything and fled their homes. Tima worked tirelessly to help them find safety, but their journey was far from easy. Although thwarted by politics, hounded by violence, and separated by vast distances, the Kurdis encountered setbacks at every turn, they never gave up hope. And when tragedy struck, Tima suddenly found herself thrust onto the world stage as an advocate for refugees everywhere, a role for which she had never prepared but that allowed her to give voice to those who didn't have an opportunity to speak for themselves. From the jasmine-scented neighbourhoods of Damascus before the war to the streets of Aleppo during it, to the refugee camps of Europe and the leafy suburbs of Vancouver, *The Boy on the Beach* is one family's story of love, loss, and the persistent search for safe harbour in a devastating time of war.

Concorsi per sottufficiali esercito italiano. Manuale per gli accertamenti psico-fisici-attitudinali e delle qualità culturali Pan Macmillan

A tightly focused illustrated study comparing the design, development, and combat performance of two of the Cold War's first main battle tanks. Conceived at the height of World War II, the British Centurion and the Soviet T-55 were initially expected to counter the formidable Panther and Tiger tanks of Germany. But as the Cold War unfolded, these machines prepared instead for the coming struggle between NATO and the Warsaw Pact. Though they never fought in Europe, these two tanks became the mainstay of the Cold War's proxy forces around the world. From Korea to the Middle East and on to Angola, these two armored combatants clashed repeatedly, reaching their crescendo on the Golan Heights during the Yom Kippur War where 177 Centurions of the IDF took on a vastly superior Arab force. Presented with highly detailed digital artwork and photographs, this is a tightly focused study of the development and operational history two of the Cold War's first main battle tanks.
