The Garden Jungle: Or Gardening to Save the Planet Springer Nature

From the origins and exodus to the restoration and new hope, Kingdom of Priests offers a comprehensive introduction to the history of Old Testament Israel. Merrill explores the history of ancient Israel not only from Old Testament texts but also from the literary and archeological sources of the ancient Near East. After selling more than 30,000 copies, the book has now been updated and revised. The second edition addresses and interacts with current debates in the history of ancient Israel, offering an up-to-date articulation of a conservative evangelical position on historical matters. The text is accented with nearly twenty maps and charts.

When the wicked have traveled a course of sin, and discover they have reason to fear the God; judgement and wrath for their sins, they begin to wish there is no God to punish them, then by degrees they persuade themselves there is no God, and then they set themselves to study the arguments to support their opinion. This excellent book by John Bunyan covers the subject matter of the existence of heaven and hell as well as studies and dispells the arguments presented by sinners who argue there is no heaven and hell. Most do not know that Bunyan wrote some 60 books, and poetry too. And also almost a well-kept secret is that his doctrine was so biblically laced that many good men would call him too severe. He believed in, and taught, ALL the doctrines of grace, including double-predestination, or reprobation. Why then is he not smeared with the name of hyper-Calvinist like Goodwin, Gill, and others? I guess the same people ought to call Luther a hyper-Lutheran, for he believed and taught it, too. Why begin a review of Bunyan's writings with such a view of his doctrine? It is to show that a Pilgrim's Progress can come only from someone who believes and teaches ALL the counsel of God, without flinching, yea, with loving-kindness. Illegally, He sat in a jail cell over a river for 12 years with his Bible, Galatians by Luther, and another book or two. He had the choice of feeling miserable and murmuring, or of filling his time, thoughts, and energies with studying that Bible, and seeking a way to be of help to his more comfortable, but less dedicated, brothers and sisters. Listen, dear saints, you can't do any better than reading Bunyan. Like Gurnall, he covers everything here and there, and with a sweetness that can come only from God. What a shame that his large heart should be encased in such small print. But, like digging gold, it is worth the time and trouble to dig spiritual gold. Bunyan (1628-1688) rose from an humble

beginning to being a preacher to a little house church, to 12 years in jail because he would not agree to quit preaching, to a huge church in London. He wrote 66 books, nearly all while in jail.

This work is written during his resting periods at Lake Ochrid (1921) in poetic-prose style, similar in spirituality to the Psalms of David. Can those who are themselves homeless really build the temple for the Teacher of all builders? (...) When you build the best for Him, you are setting an example for your soul, showing her what she should be building within herself (...) You build Him expensive edifices, in order to remind your soul that she was intended for, a royal palace, and not for hovels of clay (...) But what will become of your temples (...) If the domes of your temples are forever higher than your souls? (...) If the width of your temples is forever wider than the narrowness of your souls? (...) If your altars are forever shining more brightly than the shrines of your souls? (...) They will become the dead monuments of dead souls. Meet one of the greatest Orthodox bishops of the 20th century, an theological writer and a highly gifted orator, known as "The New Chrysostom." Winner of the Montreal Jewish Public Library's J. I. Segal Prize Originally published in 1991. In the eighteenth century, more than half of the world's Jewish population lived in Polish private villages and towns owned by magnate-aristocrats. Furthermore, roughly half of Poland's entire urban population was Jewish. Thus, the study of Jews in private Polish towns is central to both Jewish history and to the history of Poland-Lithuania. The Jews in a Polish Private Town seeks to investigate the social, economic, and political history of Jews in Opatów, a private Polish town, in the context of an increasing power and influence of private towns at the expense of the Polish crown and gentry in

the eighteenth century. Hundert recovers an important community from historical obscurity by providing a balanced perspective on the Jewish experience in the Polish Commonwealth and by describing the special dimensions of Jewish life in a private town.

In the tradition of *Kabul Beauty School* and *Start Something That Matters* comes an inspiring story of social entrepreneurship from the co-founder of Kiva, the first online microlending platform for the working poor. Featuring lessons learned from successful businesses in the world's poorest countries, Jessica Jackley's *Clay Water Brick* will motivate readers to more deeply appreciate the incredible entrepreneurial potential that exists in every human being on this planet—especially themselves. "The heart of entrepreneurship is never about what we have. It's about what we do." Meet Patrick, who had next to nothing and started a thriving business using just the ground beneath his feet . . . Blessing, who built her shop right in the middle of the road, refusing to take the chance that her customers might pass her by . . . Constance, who cornered the banana market in her African village with her big personality and sense of mission. Patrick, Blessing, Constance, and many others are among the poorest of the world's poor. And yet they each had crucial lessons to teach Jessica Jackley—lessons about resilience, creativity, perseverance, and, above all, entrepreneurship. For as long as she could remember, Jackley, the co-founder of the revolutionary microlending site Kiva, had a singular and urgent ambition: to help alleviate global poverty. While in her twenties, she set off for Africa to finally meet the people she had long dreamed of helping. The insights of those she met changed her understanding. Today she believes that many of the most inspiring entrepreneurs in

the world are not focused on high-tech ventures or making a lot of money; instead, they wake up every day and build better lives for themselves, their families, and their communities, regardless of the things they lack or the obstacles they encounter. As Jackley puts it, "The greatest entrepreneurs succeed not because of what they possess but because of what they are determined to do." In *Clay Water Brick*, Jackley challenges readers to embrace entrepreneurship as a powerful force for change in the world. She shares her own story of founding Kiva with little more than a laptop and a dream, and the stories and the lessons she has learned from those across the globe who are doing the most with the least. Praise for *Clay Water Brick* "Jessica Jackley didn't wait for permission to change the world—she just did it. It turns out that you can too."—Seth Godin, author of *What to Do When It's Your Turn* "Fascinating . . . gripping . . . bursting with lessons . . . Jessica Jackley has written a remarkable book . . . so thoroughly well meaning and engagingly put it is too magnetic to put down."—Financial Times "Clay Water Brick is a tremendously inspiring read. Jessica Jackley, the virtuoso co-founder of the revolutionary microlending platform Kiva, shares uplifting stories and compelling lessons on entrepreneurship, resilience, and character."—Adam Grant, author of *Give and Take* "A blueprint for anyone who wants to make the world a better place and find fulfillment in the process, no matter how scarce their resources or how steep the challenge."—Arianna Huffington "This book is inspirational. And honest and practical. . . . Well written, thoughtful: a selfless account of how to succeed by doing right and following your heart."—Booklist

Martin Gardner's *Mathematical Games* columns in *Scientific American* inspired and entertained several generations of mathematicians and scientists. Gardner in his crystal-clear prose illuminated corners of mathematics, especially recreational mathematics, that most people had no idea existed. His playful spirit and inquisitive nature invite the reader into an exploration of beautiful mathematical ideas along with him. These columns were both a revelation and a gift when he wrote them; no one--before Gardner--had written about mathematics like this. They continue to be a marvel. This volume, originally published in 1959, contains the first sixteen columns published in the magazine from 1956-1958. They were reviewed and briefly updated by Gardner for this 1988 edition.

What is the difference between a wink and a blink? The answer is important not only to philosophers of mind, for significant moral and legal consequences rest on the distinction between voluntary and involuntary behavior. However, "action theory"—the branch of philosophy that has traditionally articulated the boundaries between action and non-action, and between voluntary and involuntary behavior—has been unable to account for the difference. Alicia Juarrero argues that a mistaken, 350-year-old model of cause and explanation—one that takes all causes to be of the push-pull, efficient cause sort, and all explanation to be prooflike—underlies contemporary theories of action. Juarrero then proposes a new framework for conceptualizing causes based on complex adaptive systems. Thinking of causes as dynamical constraints makes bottom-up and top-down causal relations, including those involving intentional causes, suddenly tractable. A different logic for explaining actions—as historical narrative, not inference—follows if one adopts this novel approach to long-standing questions of action and responsibility.

This book is about the wildlife that lives right under our noses, in our gardens and parks, between the gaps in the pavement, and in the soil beneath our feet. Argues that gardens could become places where we can reconnect with nature and rediscover where food comes from. With just a few small changes, our gardens could become a vast network of tiny nature reserves, where humans and wildlife can thrive together in harmony rather than conflict

Winner of The 2019 Waclaw Lednicki Humanities Award *Screening Auschwitz* examines the classic Polish Holocaust film *The Last Stage* (Ostatni etap), directed by the Auschwitz survivor Wanda Jakubowska (1907-1998). Released in 1948, *The Last Stage* was a pioneering work and the first narrative film to portray the Nazi concentration and extermination camp complex of Auschwitz-Birkenau. Marek Haltof's fascinating book offers English-speaking readers a wealth of new materials, mostly from original Polish sources obtained through extensive archival research. With its powerful dramatization of the camp experience, *The Last Stage* established several quasi-documentary themes easily discernible in later film narratives of the Shoah: dark, realistic images of the camp, a passionate moral appeal, and clear divisions between victims and perpetrators. Jakubowska's film introduced images that are now archetypal—for example, morning and evening roll calls on the Appelplatz, the arrival of transport trains at Birkenau, the separation of families upon arrival, and tracking shots over the belongings left behind by those who were gassed. These and other images are taken up by a number of subsequent American films, including George Stevens's *The Diary of Anne Frank* (1959), Alan Pakula's *Sophie's Choice* (1982), and Steven Spielberg's *Schindler's List* (1993). Haltof discusses the unusual circumstances that surrounded the film's production on location at Auschwitz-Birkenau and summarizes critical debates surrounding the film's release. The book offers much of interest to film historians and readers interested in the Holocaust.
