Words of encouragement help children become the person God created them to be. Changing the words "i'm not a ..." to "i am a ..." is critical to building a positive self-concept. Children are less likely to focus on their imperfections, negative thoughts, and shortcomings when they have talents, skills, hobbies, and special interests. Children paint a mental picture of themselves from the words significant others say to them: parents, teachers, ministers. With content targeted specifically toward higher education students in Canada, *Fitness and Wellness in Canada: A Way of Life With Web Study Guide* presents evidence-based physical and mental health guidance to point students toward healthy choices that will develop into healthy lifestyles.

Authors Sarah J. Woodruff Atkinson, Carol K.

Armbruster, and Ellen M. Evans have more than 80 years of combined professional experience in health and wellness, the majority of which has focused on the higher education population. This enables them to present the material in a contemporary manner that is relatable and easily understood by students.

Relevant information on topics such as cardiorespiratory exercise, strength training, stretching, nutrition, weight management, stress management, substance abuse and addiction, and sexual health will start students on the path to developing a healthy mind and body, which can lead to a better quality of life. Additionally, because *Fitness and Wellness in Canada: A Way of Life* emphasizes behaviour

modification to develop desired habits, students are armed with the tools they need to make healthy lifestyle changes—for both the present and future: A web study guide offers more than 50 video clips and practical learning activities to provide real-life context for the material. Behaviour Check sidebars help students integrate health and wellness concepts into their daily lives. Now and Later sidebars encourage students to consider how their actions today will affect them in the future. The Functional Movement Training section shows exercises to strengthen specific muscles and explains their importance for everyday activities. Infographics, research-based tables, and figures illustrate and reinforce key concepts so they are easy to understand. Canada's Food Guide is included to assist students in making healthy nutritional choices. The companion web study guide offers students the unique opportunity to engage directly with the content and practice the exercises and strategies presented. Lab activities for each chapter will guide students in completing

individual assessments, setting goals, and identifying the pros and cons of modifying their behaviour. Video clips of 48 exercises demonstrate proper exercise technique, and additional learning activities and quizzes gauge student comprehension of the content. In addition, students will benefit from learning aids such as key terms, a glossary, and review questions for each chapter. Instructors will benefit from an abundance of online ancillaries: a presentation package plus image bank, test package, chapter quizzes, and an instructor guide that includes chapter summaries, chapter objectives, class outlines, sample answers to the chapter review questions, and suggested class activities. The primary goal of *Fitness and Wellness in Canada: A Way of Life* is to provide evidence-based guidance to help students embrace living well. Students will learn how to make healthy choices and positive behaviour changes to lead healthier, happier, and more productive lives, now and in the future.

I believe we all have had these thoughts once or twice in our life. Some of us may feel we are cursed and were just left on this earth as someones cruel joke to manipulate and hurt. Im sure that some of us may even be hurting due to circumstances from someone we love and trusted to care for us. Whatever your thoughts and questions are, there is an answer for it. We may not always understand at the time but everything happens

for a reason. Timing is everything and remember above all, some are sicker than others. We are not all with healthy thoughts or feelings, some people carry some pretty heavy stuff around with them as they try to get through their daily life. Some of us carry our parents issues as well as our own. This allows us to be bullied and picked on. Some of us are desperate; some of us are just confused on what we should do. No matter what we say out loud or the actions we take the mistakes we make or carry for another, will ever be hidden. We show all our feelings in our actions as well as expressions. We should never allow our self to feel like we dont belong we dont fit in or we are not loved. This is our brain giving us false information because of a feeling or thought and sights we are producing. This my friends is an unhealthy STATE OF MIND. Having this will lead us to destruction lead us to believing anything about us. We are no good we dont deserve love we are no good to anyone. I hate me I hate my life no one cares no one will miss me. What difference will it make if Im here or not?

My Goal Is to Stop Yours
John Wiley & Sons

The year was 1864. The
freezing winds off Lake
Michigan swept across the
snow laden grounds and
through the cracks of a
building that held
Southern prisoners in
Camp Douglas, Illinois.
Huddled with the other
prisoners, John mulled
over the reasons he had
enlisted, even after his
father had forbidden it. He
knew the only real reason
was to protect his best
friend Frankie, who had
enlisted first but never
even bothered to show up
at the station when the
recruits left for war.
Shivering, he wondered if
he would ever see his

family again or especially
the girl he had loved since
childhood. John realized
that nothing but an act of
God could deliver him
from this hell on earth.

Student retention continues to be a vexing problem for all colleges and universities. In spite of the money spent on creating programs and services to help retain students until they achieve their academic and personal goals, and graduate, the figures have not improved over time. This is particularly true for minority students, who have a greater attrition rate than majority students. Demographic information shows that

the minority population in the United States is growing at a faster rate than the majority. It is imperative that educational institutions find ways to help improve retention rates for all students but particularly minority students.

Retention rates should not differ appreciably among different racial/ethnic groups."The Journal of College Student Retention: Research, Theory and Practice" is the only scholarly, peer-reviewed journal devoted solely to college student retention. It has published many articles on minority student retention, and this topic continues to garner much attention. This book is a compilation of the very best of these articles, selected on the basis of reviews by a cadre of experts in the education field. The articles discuss African American, Latino/Latina, Asian and Asian Pacific, Native American, and biracial students, and institutional commitments to retaining a diverse student population. For those interested in this vital area, the collection will teach and inspire them to achieve greater heights and pay additional attention to retaining minority students in our

colleges and universities.
