This is the truth of you. Because you are all I see. Because you are all I breathe. Because when I cannot find you, I am lost. Because when I'm with you, I am found. Because you have the fire of the universe in you, and sometimes you forget. So this book is here to remind you. Dear You, I want you to know that I see you. I want you to know that even if no one else does, even if you are a ghost in this bookshop, or just the static floating across the screen of your computer, wherever you're reading this, I see

you. I see you in the dark and I see you in the grey. I see you as a story, as words I have spoken or may yet speak. Maybe only in a memory or a dream. I see your hands and your arms and your body and your legs and your face and I see what you have been and what you will be. I see you and in looking at you, I want you to know that whoever you've had to be to survive all this, I will not look away. I want you to know that there's a space inside this book for you. So if you have the time and the inclination, you can sit here with me, just for a while. And perhaps between us, we can see everything that matters. -pleasefindthis

This witty memoir traces a touching and often hilarious spiralic path to embracing a gay, Latinx identity against a culture of machismo—from a cockfighting ring in Nicaragua to cities across the U.S.—and the bath houses, night clubs, and drag queens who help redefine pride I've always found the definition of machismo to be ironic, considering that pride is a word almost unanimously associated with queer people, the enemy of machistas . . . In a world desperate to erase us, queer Latinx men must find ways to hold on to pride for survival, but excessive male pride is often what we are battling, both in ourselves and in others. A debut memoir about coming of age as a gay, Latinx man, *High-Risk Homosexual* opens in the ultimate anti-gay space: Edgar Gomez's uncle's cockfighting ring in Nicaragua, where he was sent at thirteen years old to become a man. Readers follow Gomez through the queer spaces where he learned to love being gay and Latinx, including Pulse nightclub in Orlando, a drag queen convention in Los Angeles, and the doctor's office where he was diagnosed a "high-risk homosexual." With vulnerability, humor, and quick-witted insights into racial, sexual, familial, and professional power dynamics, Gomez shares a hard-won path to taking pride in the parts of himself he was taught to keep hidden. His story is a scintillating, beautiful reminder of the importance of leaving space for joy.

At some point in their life, most people think, "I should write a book." But most people never do it. In this little booklet for would-be nonfiction authors, Allen Taylor shares his insights into why writing a book is a necessity for business professionals, executives, and entrepreneurs. He outlines six clear benefits of having a book with your name on it, but he also emphasizes why not having writing skills is no reason to prevent yourself from receiving those benefits. In his first sentence, he explains why writing this easy-to-read booklet was important--for him and for you: "I wrote this book to show how easy it is to write a book, and to illustrate that you can write one too." As a professional ghostwriter, Taylor has written books for others who are known

as the authors of those books. He's also edited books for authors. After delving into why to write a book, he discusses who can write a book and who makes the perfect non-fiction author, the benefits of authorship for people who are already recognized authorities in their fields, and how to get started writing your non-fiction book even if you don't have any writing skills or other book publishing knowledge. "Why I Wrote This Book" is simple and easy to read in one sitting. There's no better introduction to book authorship and its benefits, and nothing more motivational for the business professional longing to be an author.

\*\*I know you don't want to talk sometimes. Sometimes because it hurts and sometimes because you're just not supposed to talk about what you want to talk about. Sometimes it can be hard to say, "this is beautiful," when no one else can see what you see. Or, "Here, this is where the pain is." But some part of you knows, the truth about the words you cannot say is that they only hurt until you say them. They only hurt until the person who needs to hear them, hears them. Because we are human, and the closest we've ever come to showing each other who we really are, and how we love, is with words. So I'm going to try to say to you here, what I wish you'd say to me too. Please. Listen. We can change things. Here.

in my feelings collection volume 2 each person will feel things their own way. each person will hurt the only way they know how. will love... the only way they've been taught to love. not everyone will see things the way you do. feel things the way you do. and you can't force your beliefs on people either because that's not love. that's not having compassion for other people. we all have our own right to see the world with our own eyes, therefore, understanding is key. and I don't mean saying it, saying you understand someone without putting yourself in their shoes. without respecting their views. you have to really know yourself and your environment to understand why people are the way they are. you have to go through enough pain to keep your heart open. to be compassionate towards other people. understanding is key and not everyone will understand you and that's okay. but the point is, to remember how all of us are different and try to understand that not all of us are meant to be the same. and you should never believe you understand it all because believe me, there will always be something to learn. there will always be something that will take your breath away. something that will make you question everything--your own beliefs and your own way of thinking. people, things and places, like life, are always evolving and you must evolve with them... if you ever want a fair shot in accepting your flaws and the flaws of other people. and before I finish, I just want you to know... that the beauty of it all is this, the more you understand people the better you will understand yourself. from the known and to the depths of your soul... people will always shape you. all that you are is all you've experienced with them. and don't ever forget... that the people you love will always have a piece of your heart. they will always be with you... no matter what.

The first person who breaks your heart will always teach you the importance of love. 1. People come and go and only a handful of them are willing to stay. So it is best to give them your promises. 2. You have to go through pain every once in a while. That's how it works. Pain is inevitable. Pain is relative. Pain brings people closer together. So it is best to give the people you love your sorrow. They will make flowers out of them. Believe it. And 3. Somewhere down the line a revelation will hit you like a comet and when it does you will think of the first time you got your heart broken. And the second and maybe even the third. And you will finally realize the importance of it all. And you will thank them for the experiences. And you will finally bring down your walls

and learn how to move on. How to forgive. How to properly heal. And you will do all of these marvelous things but also, you will never forget the way they once made you feel. You will never forget the slow burn that brokenness brings. And you will remind yourself of it every now and then... and you will do so to remember the importance of letting go and etc. To remember why you should never search for love in the same place you lost it. Why you should never search for love in the same place where it left you broken. That's the importance of love. Of going through it-to have it and cherish it... but also, to not fall victim to the same people and tragedies that made you feel even more alone. To not fall victim to all things that covered up the sun. Those lessons are valuable, therefore, it is best to learn as much as you can and love as much as you're willing to get hurt. Stay strong.
