 Guy Saville's The Madagaskar Plan imagines a disturbing alternate history in which Nazi victory in World War II brings their "Final Solution" ever closer. The year is 1953. There is peace in Europe, but a victorious Germany consolidates power in Africa. The lynchpin to its final solution is Madagaskar. Hitler has ordered the resettlement of European Jews to the

remote island. British forces conspire to incite colony-wide revolt, resting their hopes on the expertise of Reuben Salois, an escaped leader of Jewish resistance. Ex-mercenary Burton Cole scours the island for his wife and child. But as chaos descends and the Nazis brutally suppress the nascent insurrection, Cole must decide whether he is master of-or at the mercy of-history. The Madagaskar Plan is alternate history of the highest order, a thriller of terrifying scope based on

the Nazis' actual plans prior to the Holocaust. Classic Science Fiction Citadel Press

In *War of Annihilation*, noted military historian Geoffrey P. Megargee provides a clear, concise history of the Germans' opening campaign of conquest and genocide in 1941. By drawing on the best of military and Holocaust scholarship, Megargee dispels the myths that have distorted the role of Germany's military leadership in both the military operations themselves and the unthinkable crimes that were part of them.

From Guy Saville, the explosive new thriller of a world that so nearly existed Africa, 1952. More than a decade has passed since Britain's humiliation at Dunkirk brought an end to the war and the beginning of an uneasy peace with Hitler. The swastika flies from the Sahara to the Indian Ocean. Britain and a victorious Nazi Germany have divided the continent. The SS has

crushed the native populations and forced them into labor. Gleaming autobahns bisect the jungle, jet fighters patrol the skies. For almost a decade an uneasy peace has ensued. Now, however, the plans of Walter Hochburg, messianic racist and architect of Nazi Africa, threaten Britain's ailing colonies. Sent to curb his ambitions is Burton Cole: a one-time assassin torn between the woman he loves and settling an old score with Hochburg. If he fails unimaginable horrors

will be unleashed on the continent. No one – black or white – will be spared. But when his mission turns to disaster, Burton must flee for his life. It is a flight that will take him from the unholy ground of Kongo to SS slave camps to war-torn Angola – and finally a conspiracy that leads to the dark heart of The Afrika Reich itself.

A 2018 FINALIST FOR THE

PULITZER PRIZE The

chilling, little-known story

of the rise of Nazism in

Los Angeles, and the

Jewish leaders and spies

they recruited who

stopped it. No American

city was more important

to the Nazis than Los

Angeles, home to

Hollywood, the greatest

propaganda machine in

the world. The Nazis

plotted to kill the city's

Jews and to sabotage the

nation's military

installations: plans existed

for hanging twenty

prominent Hollywood

figures such as Al Jolson,

Charlie Chaplin, and

Samuel Goldwyn; for

driving through Boyle

Heights and machine-

gunning as many Jews as

possible; and for blowing

up defense installations

and seizing munitions

from National Guard

armories along the Pacific

Coast. U.S. law

enforcement agencies

were not paying close

attention--preferring to

monitor Reds rather than

Nazis--and only Leon

Lewis and his daring ring

of spies stood in the way.

From 1933 until the end

of World War II, attorney

Leon Lewis, the man Nazis

would come to call "the

most dangerous Jew in

Los Angeles," ran a spy

operation comprised of

military veterans and

their wives who infiltrated

every Nazi and fascist

group in Los Angeles.

Often rising to leadership

positions, this daring ring

of spies uncovered and

foiled the Nazi's

disturbing plans for death

and destruction. Featuring

a large cast of Nazis, undercover agents, and colorful supporting players, Hitler in Los Angeles, by acclaimed historian Steven J. Ross, tells the story of Lewis's daring spy network in a time when hate groups had moved from the margins to the mainstream.

many innocent people as they must to prevent that greater horror. After witnessing a horrendous slaughter, the village girl Heloise opposes the Order, and risks bringing their wrath down on herself, her family, and her village.

Hero-or Nazi? Silvia Foti was raised on reverent stories about her hero grandfather, a martyr for Lithuanian independence and an unblemished patriot. Jonas Noreika, remembered as "General

Storm," had resisted his country's German and Soviet occupiers in World War II, surviving two years in a Nazi concentration camp only to be executed in 1947 by the KGB. His granddaughter, growing up in Chicago, was treated like royalty in her tightly knit Lithuanian community. But in 2000, when Silvia traveled to Lithuania for a ceremony honoring her grandfather, she heard a very different story—a "rumor" that her grandfather had been a "Jew-killer." The Nazi's Granddaughter is Silvia's

account of her wrenching twenty-year quest for the truth, from a beautiful house confiscated from its Jewish owners, to familial confessions and the Holocaust tour guide who believed that her grandfather had murdered members of his family. A heartbreaking and dramatic story based on exhaustive documentary research and soul-baring interviews, The Nazi's Granddaughter is an unforgettable journey into World War II history, intensely personal but

filled with universal lessons about courage, faith, memory, and justice.

'Dick's best work, and the most memorable alternative world tale...ever written'

SCIENCE FICTION: THE 100 BEST NOVELS It is

1962 and the Second World War has been over for seventeen years:

people have now had a chance to adjust to the new order. But it's not been easy. The Mediterranean has been

drained to make farmland, the population of Africa has virtually been wiped out and America has been divided between the Nazis and the Japanese. In the neutral buffer zone that divides the two superpowers lives the man in the high castle, the author of an underground bestseller, a work of fiction that offers an alternative theory of world history in which the Axis powers didn't win the war. The novel is a rallying cry for all those who dream of

overthrowing the occupiers. But could it be more than that? Subtle, complex and beautifully characterized, *The Man in the High Castle* remains the finest alternative world novel ever written, and a work of profundity and significance. Emily Vinson's entire life was impacted by the loss of her mother when she was 2 years old. At 82 Emily contacts a hypnotist

hoping to draw out hidden memories and discover as much as possible about the short time she spent with the woman who gave her life. Glen Wiley, the hypnotist, teaches her more about herself than she had expected. He helps her bring out memories of many past lives, including an experience that took place on a smoke filled battlefield. All of Emily's lives have had the same tragic outcome, the loss of her mother at a young age. Her soul is caught in what Glen calls circularity,

meaning that the tragedy will occur again and again unless she can break the pattern. She and Glen must revisit her past lives and use what they learn to find the other souls who are part of the circle. They must use the past to change the future. Emily's stubborn desire to know her mother is realized in intricate and unsettling ways no one could have imagined possible.

A masterpiece ahead of its time, a prescient rendering of a dark future,

and the inspiration for the blockbuster film *Blade Runner* By 2021, the World War has killed millions, driving entire species into extinction and sending mankind off-planet. Those who remain covet any living creature, and for people who can't afford one, companies built incredibly realistic simulacra: horses, birds, cats, sheep. They've even built humans. Immigrants to Mars receive androids so sophisticated they are indistinguishable from true men or women. Fearful of the havoc these

artificial humans can wreak, the government bans them from Earth. Driven into hiding, unauthorized androids live among human beings, undetected. Rick Deckard, an officially sanctioned bounty hunter, is commissioned to find rogue androids and “retire” them. But when cornered, androids fight back—with lethal force. Praise for Philip K. Classic works of speculative fiction from the earliest masters of the genre. Classic Science Fiction includes nine stories from masters of

early science fiction: H. G. Wells, Jules Verne, H. P. Lovecraft, Edgar Allan Poe, Jack London, Fitz James O’Brien, Charlotte Perkins Gilman, and Stanley G. Weinbaum. The exploration of new concepts and technologies has driven the genre since its earliest days, and these works demonstrate how science fiction evolved to encompass not only speculative science but also humanity’s role in the universe.
