No other study guide targets what you really need to know in order to pass like PreTest!

Pediatric Pharmacotherapy Self Assessment American College of Clinical Pharmacy

Infectious disease (ID) is a constant concern for pharmacy clinicians, with far too few specialists to meet the demand. That means that while more and more pharmacists are seeking the added qualification in infectious disease along with other Board Certifications, many clinical pharmacists have to meet a higher standard as de facto ID specialists. Further, treatment of infectious disease involves a good deal of grey area, which means that even the experts need a way to verify their mastery Now, Infectious Disease Pharmacotherapy Self Assessment, by Lea Eiland and Diane Ginsburg, bring you thorough and relevant cases where questions are delivered with varying degrees of difficulty, allowing you to truly gauge your level of understanding of complex ID pharmacotherapy problems. Three levels of difficulty offers users a way to assess their mastery of ID topics.

Crash Course: Pharmacology Updated Edition - E-Book ASHP

Ideal for both neurosurgical residents and recertifying neurosurgeons, Neurosurgery Self-Assessment: Questions and Answers offers the most comprehensive, up to date coverage available. Over 1,000 clinically relevant multiple-choice questions across 46 topic areas test the candidate's knowledge of basic neuroscience and neurosurgical subspecialties to an unparalleled degree and provide detailed answer explanations to facilitate learning and assessment. Over 700 histology, pathology, radiology, clinical and anatomical images serve as an index of routinely tested-on images in neurosurgical examinations with high-yield summaries of each pathology to reinforce and simplify key concepts. Includes only multiple choice questions in both single-best-answer and extended matching item (10-20 options) format increasingly adopted by neurosurgery certification boards worldwide. Questions are organized by topic and classified by degree of difficulty through a highly visual "traffic light system" which codes each question in green, amber, or red. Includes coverage of the landmark studies in areas such as vascular, stroke, spine and neurooncology. Practical tips facilitate study with test-taking strategies and things to consider before sitting for an exam. Utilizes Imperial and SI units throughout.

Stahl's Self-Assessment Examination in Psychiatry Elsevier Health Sciences

Whether you are interpreting the medical literature to optimize patient care, improve health outcomes, or generate hypothesis for research, an understanding of biostatistics is essential for success. Despite exposure to biostatistics in undergraduate and professional education, pharmacists tend to be less confident in their knowledge of biostatistics and their ability to interpret the medical literature than in their clinical skills. This book was developed to bolster the pharmacist's knowledge and confidence for using biostatistical tools for interpreting the literature. With material drawn from ACCP's renowned Pharmacotherapy Self-Assessment Program (PSAP) and the live pharmacotherapy preparatory course Updates in Therapeutics, editor Robert DiCenzo, Pharm.D., FCCP, BCPS, has designed this review to support pharmacists' preparation for the Pharmacotherapy and Ambulatory Care Board of Pharmacy Specialties (BPS) examinations.

Pharmacotherapy Self-Assessment Program McGraw Hill Professional

Now there is a very effective way to assess and advance your pediatric pharmacotherapy skills, on your own time, at your own pace: ASHP's new Pediatric Pharmacotherapy Self Assessment. Sandra Benavides and Milap C. Nahata, co-lead editors of a major pediatric pharmacotherapy textbook, and Hanna Phan, Assistant Professor of Pharmacy Practice & Science and Pediatrics at The University of Arizona, Colleges of Pharmacy and Medicine, have created this unique resource. A practical learning tool for all levels of proficiency, it allows students, residents, and practicing pharmacists alike to strengthen their knowledge and analytical skills through 32 cases involving varying degrees of diagnostic complexity. Based on real life situations, these cases present challenges in the use of supplements, OTC, drug formulations, and all other therapies for neonates, children, and adolescents. This Self Assessment is a professional development tool for all areas of concern and levels of practice that can benefit you and your youngest patients for years to come.
