At the time Fairey declared the campaign to be "an experiment in phenomenology." Over time the artwork has been reused in a number of ways and has become a world-wide pataphysical movement, following in the footsteps of Ivan Stang's Church of the SubGenius and populist WWII icon Kilroy Was Here. At the same time, Fairey's work has evolved stylistically and semantically into the OBEY Giant campaign. This book displays 10 years of graphic evolution - from the first photocopied "Andre the Giant" sticker that Shepard Fairey made at RISD to the giant billboard posters you see all around the world. A stunning full-colour documentation of Fairey's T `campaign' of poster and stencils It attempts to simultaneously bring the viewer to question propoganda absorption and to encourage a better use of public space. Linocut for Artists and Designers Springer This book explores representations of same-sex desire in Indian literature and film from the 1970s to the present. Through a detailed analysis of poetry and prose by authors like Vikram Seth, Kamala Das, and Neel Mukherjee, and films from Bollywood and beyond, including Onir's My Brother Nikhil and Deepa Mehta's Fire, Oliver Ross argues that an initially Euro-American "homosexuality" with its connotations of an essential psychosexual orientation, is reinvented as it overlaps with different elements of Indian culture. Dismantling the popular belief that vocal gay and lesbian politics exist in contradistinction to a sexually "conservative" India, this book locates numerous alternative practices and identities of same-sex desire in Indian history and modernity. Indeed, many of these survived British colonialism, with its importation of ideas of sexual pathology and perversity, in changed or codified forms, and they are often inflected by gay and lesbian identities in the present. In this account, Oliver Ross challenges the preconception that, in the contemporary world, a grand narrative of sexuality circulates globally and erases all pre-existing narratives and embodiments of sexual desire. <i>The Great Switcheroo (A Roald Dahl Short Story)</i> Routledge A vegetarian and grain-free cookbook for those who are fasting and prefer vegetarian and frain-free diet. <i>The World Is Flat [Further Updated and Expanded; Release 3.0]</i> The Crowood Press The Great Switcheroo is a short, sharp story from Roald Dahl, the master of the twist in the tale. <u>India and Pakistan</u> Macmillan The twenty-first century is a world in constant change. In A New Culture of Learning, Doug Thomas and John Seely Brown pursue an understanding of how the forces of change, and emerging waves of interest associated with these forces, inspire and invite us to imagine a future of learning that is as powerful as it is optimistic. Typically, when we think of culture, we think of an existing, stable entity that changes and evolves over long periods of time. In A New Culture, Thomas and Brown explore a second sense of culture, one that responds to its surroundings organically. It not only adapts, it integrates change into its process as one of its environmental variables. By exploring play, innovation, and the cultivation of the imagination as cornerstones of learning, the authors create a vision of learning for the future that is achievable, scalable and one that grows along with the technology that fosters it and the people who engage with it. The result is a new form of culture in which knowledge is seen as fluid and evolving, the personal is both enhanced and refined in relation to the collective, and the ability to manage, negotiate and participate in the world is governed by the play of the imagination. Replete with stories, this is a book that looks at the challenges that our education and learning environments face in a fresh way. PRAISE FOR A NEW CULTURE OF LEARNING "A provocative and extremely important new paradigm of a 'culture of learning', appropriate for a world characterized by continual change. This is a must read for anyone interested in the future of education." James J. Duderstadt, President Emeritus, University of Michigan "Thomas and Brown are the John Dewey of the digital age." Cathy Davidson, Professor of Interdisciplinary Studies, Duke University "A New Culture of Learning may provide for the digital media and learning movement what Thomas Paine's Common Sense did for the colonists during the American Revolution- a straightforward, direct explanation of what we are fighting for and what we are fighting against." Henry Jenkins, Provost's Professor, USC "A New Culture of Learning is at once persuasive and optimistic - a combination that is all too rare, but that flows directly from its authors' insights about learning in the digital age. Pearls of wisdom leap from almost every page." Paul Courant, Dean of Libraries, University of Michigan "Brilliant. Insightful. Revolutionary." Marcia Conner, author of The New Social Learning "Douglas Thomas and John Seely Brown portray the new world of learning gracefully, vividly, and convincingly." Howard Gardner, Professor, Harvard Graduate School of Education "Thomas and Brown make it clear that education is too often a mechanistic, solo activity delivered to the young. It doesn't have to be that way-learning can be a messy, social, playful, embedded, constant activity. We would do well to listen to their message." Clay Shirky, author of Cognitive Surplus "Anyone who fears, as I do, that today's public schools are dangerously close to being irrelevant must read this book. The authors provide a road map-and a lifeline-showing how schools can prosper under the most difficult conditions. It is a welcome departure from all the school bashing." John Merrow, Education Correspondent, PBS NewsHour "American education is at a crossroads. By illuminating how play helps to transform both information networks and experimentation, and how collective inquiry unleashes the power of imagination, A New Culture of Learning provides an irresistible path to the future." Joel Myerson, Director, Forum for the Future of Higher Education. <u>Indecent Correspondence</u> Univ of California Press A supportive survival guide for women who want a "REALationship"—not a rebound! In particular, the ensemble application of graph mining and multi-dimensionality reduction techniques is exploited on two common sense knowledge bases to develop a novel intelligent engine for open-domain opinion mining and sentiment analysis. The proposed approach, termed sentic computing, performs a clause-level semantic analysis of text, which allows the inference of both the conceptual and emotional information associated with natural language opinions and, hence, a more efficient passage from (unstructured) textual information to (structured) machine-processable data. <u>Montessori Madness</u> Oxford University Press The study explores housing affordability challenges and existing policy instruments for improving housing affordability in the regions covered by UNECE and presents examples of "good practices" in improving housing affordability among countries and cities. The study focuses on four topics, namely: housing governance and regulation; access to finance and funding; access and availability of land for housing construction; and Climate-neutral housing construction and renovation. <u>The Habit of Winning</u> Penguin UK Do you think "Bollywood" is just flashy dance sequences and unbelievable plots? By bringing queer theory to bear on ideas of diaspora, Gayatri Gopinath produces both a more compelling queer theory and a more nuanced understanding of diaspora. Focusing on queer female diasporic subjectivity, Gopinath develops a theory of diaspora apart from the logic of blood, authenticity, and patrilineal descent that she argues invariably forms the core of conventional formulations. She examines South Asian diasporic literature, film, and music in order to suggest alternative ways of conceptualizing community and collectivity across disparate geographic locations. Her agile readings challenge nationalist ideologies by bringing to light that which has

been rendered illegible or impossible within diaspora: the impure, inauthentic, and nonreproductive. Gopinath juxtaposes diverse texts to indicate the range of oppositional practices, subjectivities, and visions of collectivity that fall outside not only mainstream narratives of diaspora, colonialism, and nationalism but also most projects of liberal feminism and gay and lesbian politics and theory. She considers British Asian music of the 1990s alongside alternative media and cultural practices. Among the fictional works she discusses are V. S. Naipaul's classic novel *A House for Mr. Biswas*, Ismat Chughtai's short story "The Quilt," Monica Ali's *Brick Lane*, Shyam Selvadurai's *Funny Boy*, and Shani Mootoo's *Cereus Blooms at Night*. Analyzing films including Deepa Mehta's controversial *Fire* and Mira Nair's *Monsoon Wedding*, she pays particular attention to how South Asian diasporic feminist filmmakers have reworked Bollywood's strategies of queer representation and to what is lost or gained in this process of translation. Gopinath's readings are dazzling, and her theoretical framework transformative and far-reaching.

Queering India is the first book to provide an understanding of same-sex love and eroticism in Indian culture and society. The essays focus on pre-colonial, colonial, and post-colonial gay and lesbian life in India to provide a comprehensive look at a much neglected topic. The topics are wide-ranging, considering film, literature, popular culture, historical and religious texts, law and other aspects of life in India. Specifically, the essays cover such issues as Deepa Mehta's recent and controversial film, *Fire*, which focused on lesbian relationships in India; the Indian penal code which outlaws homosexual acts; a case of same-sex love and murder in colonial India; homophobic fiction and homoerotic advertising in current day India; and lesbian subtext in Hindu scripture. All of the essays are original to the collection. *Queering India* promises to change the way we understand India as well as gay and lesbian life and sexuality around the world.
