The History and Theory of Fetishism, the expanded version of Iacono's enduring classic *Teorie del feticismo* and available for the first time in English, aims to provide the historical context necessary to understanding the concept of "fetishism" and offers an overview of the ideologies, prejudices, and critical senses that shaped the Western observer's view of otherness and of his own world. Iacono examines the moment when the Western observer turned his colonizing and evangelizing gaze to continents such as Africa and the Americas, while attempting to simultaneously destabilize and look at his own world critically.

Le nouvel Alberti Palgrave Macmillan

Marcel Mauss was the nephew and most distinguished pupil of mile Durkheim, whose review *L'Ann e sociologique* he helped to found and edit. Henri Hubert was another member of the group of sociologists who developed under the influence of Durkheim. The present book is one of the best-known essays published in *L'Ann e sociologique* and has been regarded as a model for method and

mode of interpretation. Its subject is at the very center of the comparative study of religion. The authors describe a basic sacrifice drawn from Indian sources and show what is fundamental and constant, comparing Indian and Hebrew practices in particular, then Greek and Roman, then additional practices from many eras and cultures.
