MLA International Bibliography of Books and Articles on the Modern Languages and Literatures Springer Nature

This book contains commentaries from the series "Klassiker der Nationalökonomie" (classics of economics), which have been translated into English for the first time. This selection focuses on neglected, but notable writers in a deserted sub-discipline, localising the beginning of economic science not with Adam Smith, but with the moral question of usury and the good life in Antiquity. Bertram Schefold's choice of authors for the "Klassiker" series, which he has edited since 1991, and his comments on the various re-edited works are proof of his highly original and thought-provoking interpretation of the history of economic thought (HET). This volume is an important contribution to HET not only because it delivers original and fresh insights about such well-known figures as Aristotle, Jevons or Wicksell, but also because it deals with authors and ideas who have been forgotten or neglected in the previous literature. In this regard Schefold's book could prove to be seminal for the field of the history of economic thought, for in the age of globalisation our usual restriction to the thinkers of Western Europe and the USA might eventually be overcome. This book will give the reader a far broader view of economics compared to that of the latest research. This volume is suitable for those who are interested in and study history of economic thought as well as economic theory and philosophy.

Mexico's Hope International Strategic Research Organization (USAK)

This volume gathers personal reflections on life and literature by 44 of China's leading authors. It aims to illustrate how Chinese society and its creative writing have supported, competed and fought with each other for the past 40 years and more. Much of what is revealed here is mundane, but the pressure of bringing art to social and political causes, indeed the universal pressure to survive, forges this collection into a very human document. The strengths and weaknesses of these essays offer a window on those of modern Chinese literature itself. Realism was the favoured literary doctrine of the day, and, reflecting this, most of these essays speak for themselves - about war, revolution, betrayal and commitment.

Language and Language Behavior Abstracts Narr Francke Attempto Verlag

This book examines the ways in which our ideas about language and identity which used to be framed in national and political terms as a matter of rights and citizenship are increasingly recast in economic terms as a matter of added value. It argues that this discursive shift is connected to specific

characteristics of the globalized new economy in what can be thought of as "late capitalism". Through ten ethnographic case studies, it demonstrates the complex ways in which older nationalist ideologies which invest language with value as a source of pride get bound up with newer neoliberal ideologies which invest language with value as a source of profit. The complex interaction between these modes of mobilizing linguistic resources challenges some of our ideas about globalization, hinting that we are in a period of intensification of modernity, in which the limits of the nation-State are stretched, but not (yet) undone. At the same time, this book argues, this intensification also calls into question modernist ways of looking at language and identity, requiring a more serious engagement with capitalism and how it constitutes symbolic (including linguistic) as well as material markets.

Politik und Wirtschaft - Bilingual. Globalisation Leyden : A. W. Sythoff

Am 25. März 2017 jährt sich zum 60. Mal die Unterzeichnung der Römischen Verträge. Die Erinnerung an dieses zentrale Gründungsdokument der Europäischen Union wird von einigen offiziellen Feierlichkeiten begleitet. Doch so richtig zum Feiern ist derzeit allenfalls den Nationalisten, nicht aber den Befürwortern der europäischen Integration zu Mute. Schließlich befindet sich die EU in einer tiefen Krise, deren Ausgang – trotz oder wegen ihrer langen Dauer – noch immer nicht absehbar ist. Eine besondere Brisanz liegt dabei in der Unübersichtlichkeit und wechselseitigen Verstärkung unterschiedlicher Krisendimensionen: der Wirtschafts- und Finanzkrise, der Eurokrise, der Krise demokratischer Organisationsformen, der Krise der europäischen Migrationspolitik und nicht zuletzt spezifischer sozialer und kultureller Krisen. In dieser Gemengelage folgt der Integrationsprozess nicht mehr, wie noch in der Vergangenheit, dem Muster von Entwicklungskrisen. Diese hatten noch stets eine Krisenlösung in Gestalt einer weiteren Vergemeinschaftung der Politik eröffnet. Derzeit – der Brexit und die nationalistisch-populistische Aufladung der öffentlichen Debatten weisen hierauf hin – bewegt sich der europäische Geleitzug jedoch in die entgegengesetzte Richtung. Vieles deutet darauf hin, dass sich die EU in einer Bestands- oder Existenzkrise befindet oder doch zumindest in einem Zwischenstadium der EUrosion, deren Verlauf ungewiss ist und europapolitisch bedenklich stimmt. Genau diese Unübersichtlichkeit und Ungewissheit soll in der vorliegenden Ausgabe von ergründet, kontrovers diskutiert und, soweit möglich, auch reduziert werden.

DIERCKE INTERNATIONAL ATLAS - ENGLISCHE AUSGABE Taylor & Francis

This book examines language education policy in European migrant-hosting countries. By applying the Multiple Streams Framework to detailed case studies on Austria and Italy, it sheds light on the factors and processes that innovate education policy. The book illustrates an education policy design that values language diversity and inclusion, and compares underlying policymaking processes with less innovative experiences. Combining empirical analysis and qualitative research methods, it assesses the ways in which language is intrinsically linked to identity and political power within societies, and how language policy and migration might become a firmer part of European policy agendas. Sitting at the intersection between policy studies, language education studies and integration studies, the book offers recommendations for how education policy can promote a more inclusive society. It will appeal to scholars, practitioners and students who have an interest in policymaking, education policy and migrant integration.

This volume fills an important gap in exploring English in the domains of business and commerce through the prism of sociolinguistics and the sociology of language, as opposed to analyzing business genres or taking a linguodidactic approach. It expands the regional coverage of English in Europe, with several studies based in Central Europe, and also considers contexts which interact with Europe even though they are physically outside of it (Asia, Africa). It addresses English as just one of several languages at play in the ecology of the countries. It focuses not only on the position of languages as declared in documents of various organizations, that is, language policy, but also everyday linguistic practices as observed in business contexts, that is, interactions. The studies are divided into three thematic areas: ideologies and discourses on English in the business sphere, the

management of English in business and organizational contexts, and English and other languages on local and international labor markets. It will be of interest to readers concerned with multilingualism in the economic sphere and the workplace and the interplay between macro and micro levels during the management of communication in organizations.
