DES MALADES DU SIDA HOMOSEXUELS ET

BISEXWUELS MASCULINS, SUIVI EN

HOPITAL DE JOUR A SAO PAULO, BRESIL.

L'ENQUETE A ETE EFFECTUEE A ETE

EFFECTUEE EN 1988 AUPRES DES 40

MALADES ET DE 20 MEMBRES DU

PERSONNEL MEDICAL. SON OBJECTIF EST

DE MONTRER QUE LES MALADES

REALISENT UN "TRAVAIL" DE MISE EN

COHERENCE, POUR VIVRE AVEC LE SIDA

EN PHASE AVANCEE. L'UN DES ASPECTS

MAJEURS DE CE TRAVAIL SUR EUX-MEMES

EST DE CONSTRUIRE LA CONTINUITE DE

LEUR VIE EN COHERENCE AVEC LEUR

SITUATION PRESENTE. CETTE

PERSPECTIVE S'APPUIE D'UNE PART SUR

LA NOTION DE PERSONNE (CF. P.

RICOEUR, 1990), ET D'AUTRE PART, SUR

L'IDEE D'UNE "PLURALITE DES MONDES

D'ACTIONS" FONDEE SUR UN ORDRE

SOCIAL LEGITIME ET STABLE (BOLTANSKI

ET THEVENOT, 1991). LES RESULTATS

SONT PRESENTE EN TROIS PARTIES : LA

PREMIERE PARTIE EST CONSACREE AU

PROCESSUS DE DESORGANISATION QUE

LE DIAGNOSTIC DU SIDA ENTRAINE DANS

LA VIE DES PERSONNES ATTEINTES PAR LE

VIH : L'ATTEINTE A LA PERSONNE ET LA

REMISE EN CAUSE DES LIENS SOCIAUX LA

DEUXIEME PARTIE TRAITE DE LA GESTION

DE LA VIE QUOTIDIENNE AVEC LE SIDA :

DU RAPPORT AUX PRISES EN CHARGE

MEDICAL ET AUX ACTIONS DE SOLIDARITE

MENEES PAR L'ETAT, PAR LA FAMILLE, ET

PAR LES ASSOCIATIONS DE LUTTE CONTRE

LE SIDA. LA TROISIEME PARTIE EST

CENTREE SUR L'EFFET DE LA MALADIE ET

SUR LA PLACE DU RECIT DANS LA MISE EN

FORME DE LA COHERENCE DE LA

PERSONNE. C'EST A TRAVERS LA

RECONSTRUCTION DE LA PLACE DE LEUR

HOMOSEXUALITE QUE DEMEURE POSSIBLE

LA REAPPROPRIATION DE SOI ET LA

RECOMPOSITION DE LEUR IDENTITE,

PERTURBEE PAR LEUR MALADIE.

L'ANALYSE PORTE ENFIN SUR LA

POSSIBILITE, POUR LES MALADES, DE

CREER DES INCERTITUDES A L'EGARD DU

DETERMINISME CONTENU DANS LE

CARACTERE LETAL DU SIDA, GRACE A

LEUR PROPRE EXPERIENCE DE LA

MALADIE.

Public Policy Lessons from the AIDS

Response in Africa OECD Publishing

The development of AIDS and the policy

pursued by various national authorities

have considerable implications in terms of

respect for the human rights of HIV-

positive persons and AIDS sufferers. One

of the main problems is discrimination

against persons with AIDS or the HIV virus,

whether by the authorities or private

individuals. In this study, conducted by the

Swiss Institute of Comparative Law at the

request of The Steering Committee for

Human Rights (CCDH) of the Council of

Europe, the situation of HIV and AIDS

sufferers in some of the Member States of

the Council of Europe (Austria, Belgium,

Czechoslovakia, France, Germany, Ireland,

the Netherlands, Poland, Spain, Sweden,

Switzerland and the United Kingdom) were

investigated. However, identified cases of

discrimination are listed by situation

rather than by country, focussing on some

15 areas in which the risk of discrimination

is particularly high. In order of

presentation, they are: epidemiological

measures, confidentiality, criminal law,

family law, social insurance, private

insurance, the status of foreigners, labour

law, public service, housing, education,

health, the armed forces and social life.

The research was based on legislative

texts available at the Institute's library,

but above all on correspondence and

occasional telephone conversations and

interviews with persons in various

capacities concerned with the AIDS

phenomenon. These include members of

parliament, ombudsmen, health and

justice ministries, hospitals, social

services, universities, data protection

offices, AIDS victims' associations,

professional bodies (doctors, dentists,

lawyers and insurers), trade unions and

the press. The authors warn, however,

that despite their efforts they were unable

to obtain information from each country

on all the areas under study and,

consequently no tacit conclusions may be

deduced from the fact that one study does

not mention any negative situation in this

or that area in respect of a given country.

VIVRE AVEC LE SIDA EN PHASE AVANCEE

Routledge

The Oxford Handbook of French Politics

provides a comprehensive and

comparative overview of the French

political system through the lens of

political science. The Handbook is

organized into three parts: the first part

identifies foundational concepts for the

French case, including chapters on

republicanism and social welfare; the

second part focuses on thematic large-

scale processes, such identity,

governance, and globalization; while the

third part examines a wide range of issues

relating to substantive politics and policy,

among which are chapters on political

representation, political culture, social movements, economic policy, gender policy, and defense and security policy. The volume brings together established and emerging scholars and seeks to examine the French political system from a comparative perspective. The contributors provide a state-of-the-art review both of the comparative scholarly literature and the study of the French case, making *The Oxford Handbook of French Politics* an invaluable resource for anyone interested in the foundations of contemporary political life in France.

Record of proceedings OECD Publishing Social Representations in the 'Social Arena' presents key theoretical issues and extensive empirical research using different theoretical and methodological approaches to consider the value of social representation theory when social representations are examined in real world contexts. This comprehensive text brings together international experts to explore the relevance of a variety of applications of social representation theory in both institutional and organizational settings, and discusses how social representation theory compares with other constructs of social psychology. Areas covered include: justice leadership health and mental illness intergroup relations identity politics environment and tourism economics. This book will appeal to a range of academic researchers and practitioners from a variety of fields who are concerned with the application of social representation theory to various contexts as a heuristic tool for addressing and understanding relevant societal issues faced with 'social demand'.

The Commission was created by the UN in 1983 to formulate new proposals to deal with the important issues of environmental development facing the world. The Commission's findings are presented in this book.

Le grand dictionnaire Hachette-Oxford OECD Publishing

«Gli scrittori spesso travestono la loro vita in forma di romanzo. Quello che non fanno quasi mai è tramutare il romanzo nella loro vita» dice il protagonista della prima storia di Arkansas, un personaggio che non a caso si chiama David Leavitt. Ribaltando le convenzioni, infatti, l'autore di Ballo di famiglia ha qui inserito se medesimo in un contesto immaginario. Ed è l'indicazione più forte e sorprendente che esce da questo libro, segno di un cambiamento di rotta con cui Leavitt ci

conduce verso nuove direzioni. Che racconti di uno scrittore affermato e in crisi che in cambio di sesso scrive tesi per universitari, con un successo dagli esiti inaspettati, o di un giovane che consegna pasti a domicilio a malati di Aids costretti nelle loro case di Los Angeles, è della tensione fra desiderio di fuga e bisogno di accettazione che Leavitt ci parla, di ciò che si oppone alla libertà intellettuale e affettiva, della sessualità come demone sempre sconosciuto. E della nostra condizione di eterni "esiliati", che proprio nel loro stile trovano un'emozionante forza espressiva.

Our Common Future OECD Publishing Public Policy Lessons from the AIDS Response in Africa examines how the interplay between national state dynamics in Africa and the global political arena has shaped the global AIDS response, and in this context develops a framework for analysing public policy action more broadly in contemporary Africa. By applying comparative political sociology to AIDS public action, this book identifies four political models that are applicable to public initiatives. Fred Eboko goes on to test these in other domains – namely, the malaria and tuberculosis health subsectors, and the education and environment sectors. By articulating global and national connections and contributing a critical perspective grounded in African scholarship and French political science, the author builds a bold and ambitious framework with the potential to enable coherent and effective public policy action in Africa. This book will be of interest to scholars and students of public health, global health, political science, and development studies, as well as policy-level practitioners in the areas of global health and development.

XIth International Conference on AIDS and STDs in Africa, 9-13 December 2001, Ouagadougou, Burkina Faso Editions L'Harmattan

Now English-speaking readers can gain new access to valuable information on homosexuality and homosociality written by French-speaking scholars and researchers. *Gay Studies From the French Cultures* contains work taken from symposia held by the Research and Study Group on Homosociality and Homosexualities (GREH) in France over the past several years. GREH, founded by Mendès-Leite in 1986, is a forum and university network designed to open and enrich debate and interdisciplinary research on homosociality, homosexuality, and lesbianism. The chapters, all translated from their original French, represent a mosaic of scholars from Brazil,

The Netherlands, Belgium, and Canada, as well as France, giving readers a broad perspective on the subject. Although authors share cultural roots and connections through GREH, the book contains a deliberate disparity of topics and points of view from French-speaking persons in the western hemisphere, seeking to heighten understanding through diversity. The book is divided into three parts: Theoretical Background, Lesbian History and Commentary, and Gay Male History and Commentary. Some of the various topics discussed include: theoretical background on sexualities and gender studies gay and lesbian history homosexuality and AIDS nineteenth century's French gay and lesbian history sociology of Brazilian homosexualities French-spoken Canadian history on sexualities historiographies An enlightening volume, *Gay Studies From the French Cultures* provides a bridge between English-language and Francophone research on homosexuality, increasing the knowledge, awareness, and understanding of a whole new group of readers.

Creditor Reporting System on Aid Activities 2007 Aid Activities in Support of HIV/AIDS Control OUP Oxford

C'était il y a 40 ans déjà ! En 1981. Deux articles scientifiques décrivaient 5 cas de malades à Los Angeles et 26 à New York. De quoi s'agissait-il ? D'une aberration clinique ? D'un épiphénomène ? Ce sont en fait les premiers cas recensés d'une nouvelle maladie qu'on appellera bientôt le sida. Une maladie qui se transforme en véritable pandémie touchant encore 38 millions de personnes aujourd'hui. Ce livre ne raconte pas le sida. Il tente de retracer certaines des luttes qu'il a engendrées, en France, entre le début des années 1980 et aujourd'hui. Des luttes qui ont bouleversé de nombreuses vies, mais plus largement la société. L'ouvrage nous replonge ainsi au tout début de l'épidémie, dans l'urgence des malades et celle des premières découvertes. Puis il nous fait vivre les premières années, au plus près des personnes touchées, de leurs proches et de leurs soignants. Il revient enfin sur cette mobilisation extraordinaire, sur ce mouvement social unique qui a chamboulé la politique, le droit, la santé publique, la recherche et le soin. Olivier MAUREL est consultant-chercheur indépendant, après avoir été dirigeant associatif pendant près de 15 ans. Diplômé en science politique et en gestion, il enseigne aussi dans plusieurs universités. Il est par ailleurs l'auteur des ouvrages suivants : *La responsabilité des entreprises en matière de droits de l'Homme* (2008-2009), *Le*

Livre blanc des Etats généraux « Vers un plan Cœur » (avec C. Compagnon, 2014), La gestion des associations (avec J. Bernet, P. Eynaud et C. Vercher-Chaptal, 2016). Michel BOURRELLY est docteur en pharmacie. Il a effectué toute sa vie professionnelle dans la lutte contre le sida en tant que salarié, notamment à l'association Aides et au Crips Île-de-France. Consultant en santé publique et santé communautaire, il a rejoint l'unité mixte 1252 INSERM, SESSTIM à Marseille en 2016. Il est aussi l'auteur, avec Bruno Spire, du chapitre sur le sida dans l'ouvrage Santé publique : l'état des savoirs (coord. par B. Hauray et D. Fassin, 2019).

Geographical Distribution of Financial Flows to Developing Countries 2017 Disbursements, Commitments, Country Indicators Frontiers Media SA

This annual publication provides comprehensive data on the volume, origin and types of aid and other resource flows to around 150 developing countries. The data show each country's intake of official development assistance and well as other official and private funds.

Creditor Reporting System on Aid Activities **Aid Activities in Support of HIV/AIDS Control Volume 2004 Issue 6** Psychology Press

This publication presents comprehensive statistics on aid flows in support of HIV/AIDS control for the years 2000-2002. *Bibliography of the History of Medicine* OECD Publishing

La lutte contre le sida a constitué durant plusieurs années une priorité de l'agenda politique national. Comment les institutions locales se sont-elles mobilisées dans la lutte contre ce " fléau " ? Quelles leçons peut-on tirer des actions menées

tant en matière de prise en charge que de prévention par les nombreux intervenants qui ont participé localement à la lutte contre le sida ? L'ouvrage entend répondre à ces questions au travers d'une analyse des actions de lutte contre le sida dans trois départements : la Gironde, l'Hérault et Val d'Oise.
