Decoded is a book like no other: a collection of lyrics and their meanings that together tell the story of a culture, an art form, a moment in history, and one of the most provocative and successful artists of our time. Praise for Decoded "Compelling . . . provocative, evocative . . . From street shots of Kool Herc and Kurtis Blow to elaborate stage shoots of Lil' Kim and Eminem, hip-hop photography has been the foundation for some of the most stylish photographs of the past two decades. Iconic images like Ice T's menacing affront to the camera while donning a full LAPD uniform, Flava Flav of Public Enemy sporting his trademark alarm clock around his neck and flashing his personalised gold teeth, and Notorious B.I.G. counting his loot, are placed side-by-side with lesser-known and previously unpublished photographs of hip-hop's biggest figures. Text by hip-hop historian Bonz Malone is laid out between lavish spreads of photographs from forty celebrated photographers, including David LaChapelle, Mark Seliger, Nitin Vadukul, Jesse Frohman, Christian Witkin, and Michel Comte. Nearly 200 colour and black-and-white photographs are featured throughout.

Loosely based on the *Odyssey*, this landmark of modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

A visual tour de force showcasing Toronto's vast concert history. "Not sure there's ever been anything like this...The graphics are fascinating, the script is comprehensive. It's staggering what's been unleashed from the Vault." — Gary Topp, promoter, half of the legendary duo the Garys "These pages will take you on a musical magical mystery tour of Toronto's important place in concert history. Reading The Flyer Vault gives you a rush, just like the one you get when the house lights go down!" — Dan Kanter, multi-platinum-selling songwriter/producer "The Flyer Vault book helps bottle the lore, bringing me a little bit closer to my Toronto and its shows that have only grown in renown." — Danko Jones, lead singer/guitarist of the rock trio Danko Jones Duke Ellington. Johnny Cash. David Bowie. Nirvana. Bob Marley. Wu-Tang Clan. Daft Punk. These are just some of the legendary names that played Toronto over the last century. Drawing from Daniel Tate's extensive flyer collection, first archived on his Flyer Vault Instagram account, Tate and Rob Bowman have assembled a time capsule that captures a mesmerizing history of Toronto concert and club life, ?running the gamut of genres from vaudeville to rock, jazz to hip-hop, blues to electronica, and punk to country. The Flyer Vault: 150 Years of Toronto Concert History traces seminal live music moments in the city, including James Brown's debut performance in the middle of a city-wide blackout, a then-unknown Jimi Hendrix backing up Wilson Pickett in 1966 — the year a new band from London named Led Zeppelin performed in Toronto six times — and the one and only show by the Notorious B.I.G., which almost caused a riot in the winter of 1995. Complementing the book's flyers is the story of the music, highlighting such iconic venues as Massey Hall, the Concert Hall/Rock Pile/Club 888, and the BamBoo, alongside lesser-known but equally important clubs such as Industry Nightclub and the Edge.

A compelling biography of SoundCloud sensation and rising star XXXTENTACION -- from his candid songwriting and connection with fans to his tragic death. At the age of twenty, rapper Jahseh Dwayne Onfroy-aka XXXTENTACION-was gunned down during an attempted robbery on the streets of Deerfield Beach, Florida, mere months after signing a \$10 million record deal with Empire Music. A rising star in the world of SoundCloud rap, XXXTENTACION achieved stellar levels of success without the benefit of a major label or radio airtime, and flourished via his passionate and unfettered connection to his fans. In *Look at Me!*, journalist Jonathan Reiss charts the tumultuous life and

unguarded songwriting of the SoundCloud sensation. Unlike most rap on the platform, XXXTENTACION's music didn't dwell on money, partying, and getting high. He wrote about depression, suicide, and other mental health issues, topics that led to an outpouring of posthumous appreciation from his devoted fanbase. It was XXXTENTACION's vulnerability that helped him stand apart from artists obsessed with being successful and "cool." Yet these insecurities also stemmed from-and contributed to-his fair share of troubles, including repeated run-ins with the law during his teen years, a disturbing proclivity toward violence, and a prison sentence that overlapped with the release of his first single. Through the memories of the people who knew him best, *Look at Me!* maps out the true story of an unlikely cultural icon and elucidates what it was about him that touched the post-millennial generation so deeply.

Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as "social practice." Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Pawe? Althamer and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

"Musicians often pay a high price for sharing their art with us. Underneath the glow of success can often lie loneliness and exhaustion, not to mention the basic struggles of paying the rent or buying food. Sally Anne Gross and George Musgrave raise important questions - and we need to listen to what the musicians have to tell us about their working conditions and their mental health." Emma Warren (Music Journalist and Author). "Singing is crying for grown-ups. To create great songs or play them with meaning music's creators reach far into emotion and fragility seeking the communion we demand of it. However, music's toll on musicians can leave deep scars. In this important book, Sally Anne Gross and George Musgrave investigate the relationship between the wellbeing music brings to society and the wellbeing of those who create. It's a much needed reality check, deglamorising the romantic image of the tortured artist." Crispin Hunt (Multi-Platinum Songwriter/Record Producer, Chair of the Ivors Academy). It is often assumed that creative people are prone to psychological instability, and that this explains apparent associations between cultural production and mental health problems. In their detailed study of recording and performing artists in the British music industry, Sally Anne Gross and George Musgrave turn this view on its head. By listening to how musicians understand and experience their working lives, this book proposes that whilst making music is therapeutic, making a career from music can be traumatic. The authors show how careers based on an all-consuming passion have become more insecure and devalued. Artistic merit and intimate, often painful, self-disclosures are the subject of unrelenting scrutiny and data metrics. Personal relationships and social support networks are

increasingly bound up with calculative transactions. Drawing on original empirical research and a wide-ranging survey of scholarship from across the social sciences, their findings will be provocative for future research on mental health, wellbeing and working conditions in the music industries and across the creative economy. Going beyond self-help strategies, they challenge the industry to make transformative structural change. Until then, the book provides an invaluable guide for anyone currently making their career in music, as well as those tasked with training and educating the next generation.

How artists' magazines, in all their ephemerality, materiality, and temporary intensity, challenged mainstream art criticism and the gallery system. During the 1960s and 1970s, magazines became an important new site of artistic practice, functioning as an alternative exhibition space for the dematerialized practices of conceptual art. Artists created works expressly for these mass-produced, hand-edited pages, using the ephemerality and the materiality of the magazine to challenge the conventions of both artistic medium and gallery. In *Artists' Magazines*, Gwen Allen looks at the most important of these magazines in their heyday (the 1960s to the 1980s) and compiles a comprehensive, illustrated directory of hundreds of others. Among the magazines Allen examines are *Aspen* (1965-1971), a multimedia magazine in a box—issues included Super-8 films, flexi-disc records, critical writings, artists' postage stamps, and collectible chapbooks; *Avalanche* (1970-1976), which expressed the countercultural character of the emerging SoHo art community through its interviews and artist-designed contributions; and *Real Life* (1979-1994), published by Thomas Lawson and Susan Morgan as a forum for the Pictures generation. These and the other magazines Allen examines expressed their differences from mainstream media in both form and content: they cast their homemade, do-it-yourself quality against the slickness of an Artforum, and they created work that defied the formalist orthodoxy of the day. *Artists' Magazines*, featuring abundant color illustrations of magazine covers and content, offers an essential guide to a little-explored medium.

For almost 30 years as label boss, producer, and talent conductor at XL Recordings, Richard Russell has discovered, shaped and nurtured the artists who have rewritten the musical dictionary of the 21st century, artists like The Prodigy, The White Stripes, Adele, M.I.A., Dizzee Rascal and Giggs. *LIBERATION THROUGH HEARING* tells the remarkable story of XL Recordings' three decades on the frontline of innovation in music, and Russell's own story; his highs and lows steering the fortunes of an independent label in a rapidly changing industry. This is the portrait of a man who believes in the spiritual power of music to change reality, and of a label that refused to be categorised by genre. 'Taking us from the rap 80s to the rave 90s into the grimy 21st century, Richard Russell is a Firestarter in his own right and his story is a riveting adventure' Simon Reynolds 'Russell reveals his forensic love of music and its strategies. A fascinating read' Damon Albarn 'Required reading for anyone who cares about the recent history

Deceptively simple and surprisingly addictive, *Not Quite What I Was Planning* is a thousand glimpses of humanity—six words at a time. One Life. Six Words. What's Yours? When Hemingway famously wrote, "For Sale: baby shoes, never worn," he proved that an entire story can be told using a half dozen words. When the online storytelling magazine SMITH asked readers to submit six-word memoirs, they proved a whole, real life can be told this way too. The results are fascinating, hilarious, shocking, and moving. From small sagas of bittersweet romance ("Found true love, married someone else") to proud achievements and stinging regrets ("After Harvard, had baby with crackhead"), these terse true tales relate the diversity of human experience in tasty bite-sized pieces. From authors Jonathan Lethem and Richard Ford to comedians Stephen Colbert and Amy Sedaris, to ordinary folks around the world, everyone has a six-word story to tell.

"A tour de force. . . . Crouch has given us a bone-deep understanding of Parker's music and the world that produced it. In his pages, Bird still lives." — Washington Post A stunning portrait of Charlie Parker, one of the most talented and influential musicians of the twentieth century, from Stanley Crouch, one of the foremost authorities on jazz and culture in America. Throughout his life, Charlie Parker personified the tortured American artist: a revolutionary performer who used his alto saxophone to create a new music known as bebop even as he wrestled with a drug addiction that would lead to his death at the age of thirty-four. Drawing on interviews with peers, collaborators, and family members, Stanley Crouch recreates Parker's Depression-era childhood; his early days navigating the Kansas City nightlife, inspired by lions like Lester Young and Count Basie; and on to New York, where he began to transcend the music he had mastered. Crouch reveals an ambitious young man torn between music and drugs, between his domineering mother and his impressionable young wife, whose teenage romance with Charlie lies at the bittersweet heart of this story. With the wisdom of a jazz scholar, the cultural insights of an acclaimed social critic, and the narrative skill of a literary novelist, Stanley Crouch illuminates this American master as never before.
