The New York Times bestselling author of A History of the World in 100 Objects brings the world of Shakespeare and the Tudor era of Elizabeth I into focus We feel we know Shakespeare's

characters. Think of Hamlet, trapped in indecision, or Macbeth's merciless and ultimately self-destructive ambition, or the Machiavellian rise and short reign of Richard III. They are so vital, so alive and real that we can see aspects of ourselves in them. But their world was at once familiar and nothing like our own. In this brilliant work of historical reconstruction Neil MacGregor and his team at the British Museum, working together in a landmark collaboration with the Royal Shakespeare Company and the BBC, bring us twenty objects that capture the essence of Shakespeare's universe. A perfect complement to A History of the World in 100 Objects, MacGregor's landmark New York Times bestseller, Shakespeare's Restless World highlights a turning point in human history. This magnificent book, illustrated throughout with more than one hundred vibrant color photographs, invites you to travel back in history and to touch, smell, and feel what life was like at that pivotal moment, when humankind leaped into the modern age. This was an exhilarating time when discoveries in science and technology altered the parameters of the known world. Sir Francis Drake's circumnavigation map allows us to imagine the age of exploration from the point of view of one of its most ambitious navigators. A bishop's cup captures the most sacred and divisive act in Christendom. With A History of the World in 100 Objects, MacGregor pioneered a new way of telling history through artifacts. Now he trains his eye closer to home, on a subject that has mesmerized him since childhood, and lets us see Shakespeare and his world in a whole new light.

The worldwide bestseller - 1/3 million copies sold 'With his expert guidance we travel around the globe, from Burundi to Honduras via Vietnam, sipping and spitting as we go. This is high geekery made palatable by the evident love pulsing through every sentence.' - The Guardian 'The subject of coffee has never been more, er, hot, and The World Atlas of Coffee takes a close look at its history and evolution, the international range of beans and all the best ways to enjoy coffee. Great pics too.' - Susy Atkins, The Telegraph For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.

During the Cold War Italy witnessed the existence of an anomalous version of a civil conflict, defined as a 'creeping' or a 'low-intensity' civil war. Political violence escalated, including bomb attacks against civilians, starting with a massacre in Milan, on 12 December 1969, and culminating with the massacre in Bologna, on 2 August 1980. Making use of the literature on national reconciliation and narrative psychology theory, this book examines the fight over the 'judicial' and the 'historical' truth in Italy today, through a contrasting analysis of judicial findings and the 'narratives of victimhood' prevalent among representatives of both the post- and the neo-fascist right.
