Global Affairs Correspondent Martha
Raddatz shares remarkable tales of
heroism, hope, and heartbreak in her
account of "Black Sunday"—a battle
during one of the deadliest periods of
the Iraq war. The First Cavalry Division
came under surprise attack in Sadr City
on Sunday, April 4, 2004. More than
seven thousand miles away, their
families awaited the news for forty-eight
hellish hours—expecting the worst. In
this powerful, unflinching account,
Martha Raddatz takes readers from the

streets of Baghdad to the home front
and tells the story of that horrific day
through the eyes of the courageous
American men and women who lived it.
"A masterpiece of literary nonfiction that
rivals any war-related classic that has
preceded it."—The Washington Post

Anatomy of Terror: From the Death of bin Laden to the Rise of the Islamic State Random House

Though capable of staging spectacular
attacks like 9/11, jihadist organizations
were not a significant force on the
ground when they first became notorious
in the shape of al-Qa'ida at the turn of
century. //Today, that's changed.
Exploiting the missteps of the West's
wars in Afghanistan, Iraq and Libya, as
well as its misjudgments in relation to
Syria and the uprisings of the Arab

Spring, jihadist organizations, of which ISIS is the most important, are swiftly expanding. They now control a geographical territory greater in size than Britain or Michigan, stretching from the Sunni heartlands in the north and west of Iraq through a broad swath of north-east Syria. On the back of their capture of Mosul and much of northern Iraq in June 2014, the leader of ISIS, Abu Bakr al-Baghdadi, has been declared the head of a new caliphate that demands the allegiance of all Muslims. The secular, democratic politics that were supposedly at the fore of the Arab Spring have been buried by the return of the jihadis writing with customary calmness and clarity, and drawing on unrivaled experience as a reporter in the region, Cockburn analyzes the unfolding of one

of the West's greatest foreign policy debacles and the rise of the new jihadis.//Patrick Cockburn is currently a Middle East correspondent for the Independent. His book on Iraq's recent history, *The Occupation: War and Resistance in Iraq*, was a finalist for the National Book Critics' Circle Awards. He won the Martha Gellhorn Prize in 2005, the James Cameron Prize in 2006, and the Orwell Prize for Journalism in 2009. He was named Foreign Commentator of the Year by the Comment Awards in 2013.

[A Flag Worth Dying For](#) Vintage

Everyone knows what happened on September 11, 2001. But do we really know what was behind this act of war? What was the lure? What was it about the Hamburg cell that appealed to him?

What lured this educated son of a successful Lebanese family to the jihadist message of destruction and annihilation that would result in the death of 3170 Americans? These questions torment Sami Haddad as he pondered his choice, in August of 2001, whether or not to join the 9-11 hijackers. Through a series of tape recordings which Sami had made in the months before the operation, he tells his beautiful and feisty Turkish-German lover, Karima Ilgun, of his first meeting with Muhammad Atta in Hamburg, of his training in Afghanistan under the watchful eye of Al Qaeda's military chief, of his meeting with Osama bin Ladin where he swears his oath of allegiance, and of his final months of preparation in Florida where he comes to loath

Muhammad Atta but cannot find the courage to flee. A sense of doubt and skepticism suffuses his musings to her, but also of weakness. After the attack on 9/11, Kommissar Recht, a ruffled German government investigator), is tasked to ferret out Karima's role, if any, as an Al Qaeda operative. He comes to suspect that she is withholding valuable evidence, but under German privacy law he is barred from employing strong-arm tactics that would force her to talk. Surviving members of the Al Qaeda cell in Hamburg also suspect Karima is hiding Sami's tapes. To them Sami's recollections are sacred artifacts of what they deemed to be their successful mission, but they fear his presentation of the attack might be something less than heroic. Karima is caught between these

two forces, either of which could have terrible consequences for her. How she resolves this dilemma is the climax of the novel.

ISIS Anchor

WINNER OF THE PULITZER PRIZE • In a thrilling dramatic narrative, the award-winning reporter traces how the strain of militant Islam behind ISIS first arose in a remote Jordanian prison and spread with the unwitting aid of two American presidents. With a new Afterword Drawing on unique high-level access to CIA and Jordanian sources, Warrick weaves gripping, moment-by-moment operational details with the perspectives of diplomats and spies, generals and heads of state, many of whom foresaw a menace worse than al Qaeda and tried desperately to stop it. Black Flags is a

brilliant and definitive history that reveals the long arc of today's most dangerous extremist threat.

Leviathan: The History of Whaling in America PM Press

First published in Great Britain in 2016 by Elliott and Thompson Limited as: Worth dying for: the power and politics of flags.

Lone-Actor Terrorists Penguin

A Los Angeles Times Best Non-Fiction Book of 2007 A Boston Globe Best Non-Fiction Book of 2007 Amazon.com Editors pick as one of the 10 best history books of 2007 Winner of the 2007 John Lyman Award for U. S. Maritime History, given by the North American Society for Oceanic History "The best history of American whaling to come along in a generation." —Nathaniel Philbrick The

epic history of the "iron men in wooden boats" who built an industrial empire through the pursuit of whales. "To produce a mighty book, you must choose a mighty theme," Herman Melville proclaimed, and this absorbing history demonstrates that few things can capture the sheer danger and desperation of men on the deep sea as dramatically as whaling. Eric Jay Dolin begins his vivid narrative with Captain John Smith's botched whaling expedition to the New World in 1614. He then chronicles the rise of a burgeoning industry—from its brutal struggles during the Revolutionary period to its golden age in the mid-1800s when a fleet of more than 700 ships hunted the seas and American whale oil lit the world, to its decline as the twentieth century

dawned. This sweeping social and economic history provides rich and often fantastic accounts of the men themselves, who mutinied, murdered, rioted, deserted, drank, scrimshawed, and recorded their experiences in journals and memoirs. Containing a wealth of naturalistic detail on whales, *Leviathan* is the most original and stirring history of American whaling in many decades.

Illusions of Victory Penguin

Already excerpted in the *New Yorker*, *Black Cloud Rising* is a compelling and important historical novel that takes us back to an extraordinary moment when enslaved men and women were shedding their bonds and embracing freedom. By fall of 1863, Union forces had taken control of Tidewater Virginia,

and established a toehold in eastern North Carolina, including along the Outer Banks. Thousands of freed slaves and runaways flooded the Union lines, but Confederate irregulars still roamed the region. In December, the newly formed African Brigade, a unit of these former slaves led by General Edward Augustus Wild--a one-armed, impassioned Abolitionist--set out from Portsmouth to hunt down the rebel guerillas and extinguish the threat. From this little-known historical episode comes Black Cloud Rising, a dramatic, moving account of these soldiers--men who only weeks earlier had been enslaved, but were now Union infantrymen setting out to fight their former owners. At the heart of the narrative is Sergeant Richard Etheridge, the son of a slave and her

master, raised with some privileges but constantly reminded of his place. Deeply conflicted about his past, Richard is eager to show himself to be a credit to his race. As the African Brigade conducts raids through the areas occupied by the Confederate Partisan Rangers, he and his comrades recognize that they are fighting for more than territory. Wild's mission is to prove that his troops can be trusted as soldiers in combat. And because many of the men have fled from the very plantations in their path, each raid is also an opportunity to free loved ones left behind. For Richard, this means the possibility of reuniting with Fanny, the woman he hopes to marry one day. With powerful depictions of the bonds formed between fighting men and heartrending scenes of sacrifice and

courage, *Black Cloud Rising* offers a compelling and nuanced portrait of enslaved men and women crossing the threshold to freedom.

Under the Black Flag Yale University Press

Michael Freeman highlights several key events of 1979 that caused the current wave of Islamist terrorism.

The Triple Agent Anchor

This book provides the first empirical analysis of lone-actor terrorist behaviour. Based upon a unique dataset of 111 lone actors that catalogues the life span of the individual's development, the book contains important insights into what an analysis of their behaviours might imply for practical interventions aimed at disrupting or even preventing attacks. It adopts insights and methodologies from

criminology and forensic psychology to provide a holistic analysis of the behavioural underpinnings of lone-actor terrorism. By focusing upon the behavioural aspects of each offender and by analysing a variety of case studies, including Anders Breivik, Ted Kaczynski, Timothy McVeigh and David Copeland, this work marks a pointed departure from previous research in the field. It seeks to answer the following key questions: Is there a lone-actor terrorist profile and how do they differ? What behaviours did the lone-actor terrorist engage in prior to his/her attack and is there a common behavioural trajectory into lone-actor terrorism? How 'lone' do lone-actor terrorists tend to be? What role, if any, does the internet play? What role, if any, does mental illness

play? This book will be of much interest to students of terrorism/counter-terrorism studies, political violence, criminology, forensic psychology and security studies in general.

Mein Kampf W. W. Norton & Company
ONE OF THE NEW YORK TIMES BOOK
REVIEW' S 10 BEST BOOKS OF THE YEAR
One of the Best Books of the Year: The
Washington Post, The Christian Science
Monitor, NPR, Entertainment Weekly,
The Economist, The Daily Beast, St.
Louis Post-Dispatch In September 1978,
three world leaders—Menachem Begin of
Israel, Anwar Sadat of Egypt, and U.S.
president Jimmy Carter—met at Camp
David to broker a peace agreement
between the two Middle East nations.
During the thirteen-day conference,
Begin and Sadat got into screaming

matches and had to be physically
separated; both attempted to walk away
multiple times. Yet, by the end, a treaty
had been forged—one that has quietly
stood for more than three decades,
proving that peace in the Middle East is
possible. Wright combines politics,
scripture, and the participants' personal
histories into a compelling narrative of
the fragile peace process. Begin was an
Orthodox Jew whose parents had
perished in the Holocaust; Sadat was a
pious Muslim inspired since boyhood by
stories of martyrdom; Carter, who knew
the Bible by heart, was driven by his
faith to pursue a treaty, even as his
advisers warned him of the political cost.
Wright reveals an extraordinary moment
of lifelong enemies working
together—and the profound difficulties

inherent in the process. Thirteen Days in September is a timely revisiting of this diplomatic triumph and an inside look at how peace is made.

The Looming Tower Henry Holt and Company

In the immediate aftermath of the 2007 "Surge" of American troops in Iraq, the defeat of al-Qaeda in Iraq (AQI) in Anbar Province was widely hailed as one of America's signature victories. US Marines and soldiers fought for years there, in grinding battles such as Fallujah and Ramadi that define the experience of Iraq. Eventually, the fractious tribal sheiks in that province, with the help of American troops, united in an "Awakening" that dealt AQI a stunning defeat. The Awakening's success argued that the United States could intervene in

a war-torn country and, with the right strategy, bring stability and peace. It seemed to exemplify snatching victory from the jaws of defeat. A decade later, the situation in Anbar Province is dramatically different. In 2014, much of Anbar fell to the AQI's successor organization, the Islamic State, which swept through the region with shocking ease. In *Illusions of Victory*, Carter Malkasian looks at the wreckage to explain why the Awakening's initial promise proved misleading and why victory was unsustainable. Malkasian begins by tracing the origins of the Awakening, then turns his attention to what happened in its wake. After the United States left, Iraq's Shi'a government sidelined Sunni leaders throughout the country. AQI, brought

back to life as the Islamic State, expanded in northern and western Iraq and quickly found a receptive audience among marginalized Sunnis. In short order, the progress that had resulted from the Awakening fell apart. Malkasian draws many lessons from Anbar. Chief among them, the most stunning of victories may not last. The fact that the leading model of success fell apart severely damages the idea that the United States can send the military to a country for a few years and create lasting peace. Even the most successful example was bound to deeper social, sectarian, and religious forces insensitive to temporary boots on the ground. From today's perspective, rather than decisive success, Anbar exemplifies how intervention itself is a costly, long-

term project. The most brilliant victory could not escape this wisdom.

Black Flags Vintage

"The Bars represent me finding my people. We were like a tribe. Together we are strong whereas before we felt weak and ostracized." *Barred for Life* is a photo documentary cataloging the legacy of Punk Rock pioneers Black Flag, through stories, interviews, and photographs of diehard fans who wear their iconic logo, The Bars, conspicuously tattooed upon their skin. Author Stewart Ebersole provides a personal narrative describing what made the existence of Punk Rock such an important facet of his and many other people's lives, and the role that Black Flag's actions and music played in soundtracking the ups and downs of living as cultural outsiders.

“The Bars say ‘I’m not one of them,’ and it also lets the right people know that I am one of them.” Stark black-and-white portraits provide visual testimony to the thesis that Black Flag’s factual Punk-pioneering role and their hyper-distilled mythology are now more prevalent worldwide than when the band was in service. An extensive tour of North America and Western Europe documents dedicated fans bearing Bars-on-skin and other Black Flag iconography. Nearly four hundred “Barred” fans lined up, smiled/frowned for the camera, and issued their stories for the permanent record. “It is the black flag of anarchism, and that is the opposite of the white flag of surrender.” *Barred for Life* expands its own scope by presenting interviews with former Black Flag members and those

close to the band. Interviews with alumni Dez Cadena, Ron Reyes, Kira Roessler, Keith Morris, and Chuck Dukowski, as well as photographers Glen E. Friedman and Ed Colver, and the man responsible for tattooing The Bars on more than a few Black Flag players, Rick Spellman, round out and spotlight aspects of Black Flag’s vicious live performances, forward-thinking work ethic, and indisputable reputation for acting as both champions and iconoclastic destroyers of the Punk Rock culture they helped to create. “When I see The Bars I think ‘Black Flag the band,’ but they also represent an entire movement of people that are not going to conform. They are part of a culture of people that stand up for themselves.”

Black Cloud Rising U of Nebraska Press

An authoritative introduction to ISIS—now expanded and revised to bring events up to the present The Islamic State stunned the world with its savagery, destructiveness, and military and recruiting successes. However, its most striking and distinctive characteristic was its capacity to build governing institutions and a theologically grounded national identity. What explains the rise of ISIS and the caliphate, and what does it portend for the future of the Middle East? In this book, one of the world's leading authorities on political Islam and jihadism sheds new light on these questions. Moving beyond journalistic accounts, Fawaz Gerges provides a clear and compelling explanation of the deeper conditions that fuel ISIS. This

new edition brings the story of ISIS to the present, covering key events—from the military defeat of its territorial state to the death of its leader al-Baghdadi—and analyzing how the ongoing Syrian, Iraqi, and Saudi-Iranian conflict could lead to ISIS's revival. *Drawdown* W. W. Norton & Company A New York Times Notable Book of 2020 "[A] sweeping and authoritative history" (The New York Times Book Review), *Black Wave* is an unprecedented and ambitious examination of how the modern Middle East unraveled and why it started with the pivotal year of 1979. Kim Ghattas seamlessly weaves together history, geopolitics, and culture to deliver a gripping read of the largely unexplored story of the rivalry between Saudi Arabia and Iran, born

from the sparks of the 1979 Iranian revolution and fueled by American policy. With vivid story-telling, extensive historical research and on-the-ground reporting, Ghattas dispels accepted truths about a region she calls home. She explores how Sunni Saudi Arabia and Shia Iran, once allies and twin pillars of US strategy in the region, became mortal enemies after 1979. She shows how they used and distorted religion in a competition that went well beyond geopolitics. Feeding intolerance, suppressing cultural expression, and encouraging sectarian violence from Egypt to Pakistan, the war for cultural supremacy led to Iran's fatwa against author Salman Rushdie, the assassination of countless intellectuals, the birth of groups like Hezbollah in

Lebanon, the September 11th terrorist attacks, and the rise of ISIS. Ghattas introduces us to a riveting cast of characters whose lives were upended by the geopolitical drama over four decades: from the Pakistani television anchor who defied her country's dictator, to the Egyptian novelist thrown in jail for indecent writings all the way to the murder of journalist Jamal Khashoggi in the Saudi consulate in Istanbul in 2018. *Black Wave* is both an intimate and sweeping history of the region and will significantly alter perceptions of the Middle East.

The Master Plan Random House

In *See No Evil*, one of the CIA's top field officers of the past quarter century recounts his career running agents in the back alleys of the Middle East. In the

process, Robert Baer paints a chilling picture of how terrorism works on the inside and provides compelling evidence about how Washington politics sabotaged the CIA's efforts to root out the world's deadliest terrorists. On the morning of September 11, 2001, the world witnessed the terrible result of that intelligence failure with the attack on the World Trade Center and the Pentagon. In the wake of those attacks, Americans were left wondering how such an obviously long-term, globally coordinated plot could have escaped detection by the CIA and taken the nation by surprise. Robert Baer was not surprised. A twenty-one-year veteran of the CIA's Directorate of Operations who had left the agency in 1997, Baer observed firsthand how an increasingly

bureaucratic CIA lost its way in the post-cold war world and refused to adequately acknowledge and neutralize the growing threat of Islamic fundamentalist terror in the Middle East and elsewhere. A throwback to the days when CIA operatives got results by getting their hands dirty and running covert operations, Baer spent his career chasing down leads on suspected terrorists in the world's most volatile hot spots. As he and his agents risked their lives gathering intelligence, he watched as the CIA reduced drastically its operations overseas, failed to put in place people who knew local languages and customs, and rewarded workers who knew how to play the political games of the agency's suburban Washington headquarters but not how to recruit

agents on the ground. See *No Evil* is not only a candid memoir of the education and disillusionment of an intelligence operative but also an unprecedented look at the roots of modern terrorism. Baer reveals some of the disturbing details he uncovered in his work, including: * In 1996, Osama bin Laden established a strategic alliance with Iran to coordinate terrorist attacks against the United States. * In 1995, the National Security Council intentionally aborted a military coup d'état against Saddam Hussein, forgoing the last opportunity to get rid of him. * In 1991, the CIA intentionally shut down its operations in Afghanistan and Saudi Arabia, and ignored fundamentalists operating there. When Baer left the agency in 1997 he received the Career Intelligence Medal,

with a citation that says, “He repeatedly put himself in personal danger, working the hardest targets, in service to his country.” See *No Evil* is Baer’s frank assessment of an agency that forgot that “service to country” must transcend politics and is a forceful plea for the CIA to return to its original mission—the preservation of our national sovereignty and the American way of life.

The Long Road Home (TV Tie-In)

Leftword Books

“This is the most authoritative and highly literate account of these pernicious people that I have ever read.”—Patrick O'Brian “[A] wonderfully entertaining history of pirates and piracy . . . a rip-roaring read . . . fascinating and unexpected.”—Men's Journal This rollicking account of the golden age of

piracy is packed with vivid history and high seas adventure. David Cordingly, an acclaimed expert on pirates, reveals the spellbinding truth behind the legends of Blackbeard, Captain Kidd, Sir Francis Drake, the fierce female brigands Mary Read and Anne Bonny, and others who rode and robbed upon the world's most dangerous waters. Here, in thrilling detail, are the weapons they used, the ships they sailed, and the ways they fought—and were defeated. Under the Black Flag also charts the paths of fictional pirates such as Captain Hook and Long John Silver. The definitive resource on the subject, this book is as captivating as it is supremely entertaining. Praise for *Under the Black Flag* “[A] lively history . . . If you've ever been seduced by the myth of the

cutlass-wielding pirate, consider David Cordingly's *Under the Black Flag*.”—USA Today, “Best Bets” “Engagingly told . . . a tale of the power of imaginative literature to re-create the past.”—Los Angeles Times “Entirely engaging and informative . . . a witty and spirited book.”—The Washington Post Book World “Plenty of thrills and adventure to satisfy any reader.”—The Philadelphia Inquirer

See No Evil Open Road Media

A stunning collection of the most iconic photographs ever taken of Black Flag, along with never-before-seen shots and a foreword by Chuck Dukowski. 256 jam-packed pages, over 300 photographs, and over 70% of the photos have never been seen. *What I See: The Black Flag Photographs* of Glen E. Friedman is an

incredible compilation of all of Friedman's most iconic and recognizable images (from 1980 to 1983), of this seminal American punk band, as well as over one hundred never-before-seen photos made during those phenomenal peak years in the group's history. The book includes a foreword by Chuck Dukowski, a cofounder and bass player of Black Flag. Friedman's own introduction to the book takes readers through his journey with the group, from the very first time he saw them play, to his perspectives on the music of the era, to the how, why, and what Black Flag were doing at the time. His words provide additional context to the imagery, explaining what drove him to create his art alongside the band. From the streets around Black Flag's single-

room home base/office, rehearsing for their first album, handing out flyers, wheat-pasting posters, driving for hours to a show and returning the same night, house parties, clubs, to the big stage and the beach, Glen E. Friedman was there with his heart, soul, and most importantly his camera. In *What I See*, he shares with us and inspires us with these images that were made over an incredibly volatile three-year time span. *Barbarian Days* Simon and Schuster They were the pioneers of American hardcore, forming in California in 1978 and splitting up 8 years later leaving behind them a trail of blood, carnage and brutal, brilliant music. Throughout the years they fought with the police, record industry and their own fans. This is the band's story from the inside,

drawing upon exclusive interviews with the group's members, their contemporaries and the groups who were inspired by them. It's also the story of American hardcore music, from the perspective of the group who did more to take the sound to the clubs, squats and community halls of America than any other.

ISIS Omnibus Press

****WINNER of the PULITZER PRIZE for NON-FICTION 2016**** In a thrilling dramatic narrative, Pulitzer Prize-winning reporter Joby Warrick traces how the strain of militant Islam behind ISIS first arose in a remote Jordanian prison and spread to become the world's greatest threat. When the government of Jordan granted amnesty to a group of political prisoners in 1999, it little realized that

among them was Abu Musab al-Zarqawi, a terrorist mastermind and soon the architect of an Islamist movement bent on dominating the Middle East. In *Black Flags*, an unprecedented character-driven account of the rise of ISIS, Joby Warrick shows how the zeal of this one man and the strategic mistakes of Western governments led to the banner of ISIS being raised over huge swathes of Syria and Iraq. Zarqawi began by directing terror attacks from a base in northern Iraq, but it was the allied invasion in 2003 that catapulted him to the head of a vast insurgency. By falsely identifying him as the link between Saddam Hussein and Osama bin Laden, Western officials inadvertently spurred like-minded radicals to rally to his cause. Their wave of brutal beheadings and

suicide bombings persisted until American and Jordanian intelligence discovered clues that led to a lethal airstrike on Zarqawi's hideout in 2006. His movement, however, endured. First calling themselves al-Qaeda in Iraq, then Islamic State of Iraq and Syria, or ISIS, his followers sought refuge in unstable, ungoverned pockets on the Iraq-Syria border. When the Syrian civil war broke out in 2011, and the rest of the world largely stood by, ISIS seized its chance to pursue Zarqawi's dream of an ultra-conservative Islamic caliphate. Drawing on unique high-level access to global

intelligence sources, Warrick weaves gripping, moment-by-moment operational details with the perspectives of diplomats and spies, generals and heads of state, many of whom foresaw a menace worse than al Qaeda and tried desperately to stop it. Black Flags is a brilliant and definitive history that reveals the long arc of today's most dangerous extremist threat.

The Global Spread of Islamism and the Consequences for Terrorism

Anchor

A book that will change the way we think about al-Qaeda, intelligence, and the events that forever changed America.
