as a phonics text, this workbook presents the most common and regular sounds of vowels. The short vowels are presented first. The lesson for each vowel consists of six pages of exercises. On the first page, the vowel sound is introduced by a

cartoon. On the second and third pages, students learn to recognize the short vowel sounds by saying the names of pictures and completing short vowel words. The remaining three pages of the lesson provide practice in using the vowel sound in context. The second half of the workbook deals with long vowel sounds, which are presented in the same manner as the short vowel sounds, except that the different spellings for each of the vowel sounds are treated individually to aid in the students' recognition of the long vowels. There are three reviews in the workbook: one for the short vowels, one for the long vowels, and a general review. (MG)
