Create a sampler quilt as
unique as you are! Tula
Pink gives you an
inspiring quilt block
collection with Tula Pink's
City Sampler. Make a
beautiful, modern quilt of
your own design with the
100 original quilt blocks or

try one of the 5 city-
themed sampler quilts
designed by Tula. A note
from Tula: "You will
notice...that the blocks
are not named but simply
numbered. This is
intentional. I may have
designed the blocks and
given you the instructions
on what to cut and where
to stitch, but I have not
infused the blocks with
any meaning. This is your
quilt. The fabrics that you
choose, the colors that
you use and why you are
making it are what will

give the quilt a purpose.
Name your blocks, write
in the margins, cross out
the ones that you don't
like, draw hearts around
the ones that you love. In
a perfect world,
everyone's book would
end up looking like a
journal, coffee stains and
all. The more adventurous
ones might rename the
book and write their own
introduction. Tula Pink's
City Sampler is a
collaboration between you
and me. I am the platform
and you are the speaker,

so stand on my shoulders and tell the future who you are and why you make."

Upcycling goes upscale in this beautiful, elegant, and global collection that showcases what today's designers are creating out of yesterday's materials. Upcycling is the process of transforming seemingly low value items into something new. Today's upcyclists are creating stunning furniture, lighting, and art objects that combine values of

superb craftsmanship and design with ideas of how "waste" can be both inspiring and informing.

While the environmental and financial benefits of upcycling are readily acknowledged in *Upcyclist: Reclaimed and Remade Furniture, Lighting and Interiors*, the designers and makers profiled show how the practice can result in pieces that are as aesthetically exciting as anything created using only raw materials. Based on the author's popular website, this book

features hundreds of creations from an international collection of today's most exciting designers. It is organized by material, with chapters dedicated to wood, metal, glass and ceramics, textiles, plastic, paper, and mixed media. Reclaimed tree branches and barn doors are transformed into exquisite pieces of furniture; bicycle chains into chandeliers; t-shirts into rugs; saris into upholstery. Filled with an enormous range of materials and objects, this unique book will inspire

any designer or design-conscious consumer to incorporate upcycling into their creative practice or interior design projects.
