comparée* Routledge

Para evitar la cautividad cultural, los fundamentos de la educación cristiana deben ser repensados por cada generación. De no hacerlo, dice el autor, los educadores cristianos corren el riesgo de perpetuar ideas y prácticas anticuadas, ajenas al evangelio. Al explorar con criterio los diversos fundamentos que han predominado y predominan en el pensamiento evangélico, continúa el autor, los educadores pueden enfrentar mejor las necesidades de hoy y los retos del futuro. En Cuestiones fundamentales de la educación cristiana, el autor mismo se entrega a este proceso de evaluación crítica, con importantes resultados. El autor llama a los educadores evangélicos a reafirmar las verdades bíblicas, que constituyen la autoridad esencial para nuestra teoría y práctica, y a incorporar las verdades de otras disciplinas, proceso que tiene que estar sujeto a la continua autoridad de la Palabra de Dios.

Le boom des ressources naturelles en Afrique a tiré la croissance dans toute la région, sans contribuer de manière substantielle à améliorer le bien-être et les moyens de subsistance des citoyens. Les personnes vivant dans les pays africains richement dotés en ressources naturelles sont moins alphabétisées de 3 %, ont une espérance de vie plus faible de 4,5 ans et affichent des taux de malnutrition plus élevés chez les femmes et les enfants que dans les pays de la région n'ayant pas de ressources naturelles. Cette lenteur dans la réduction de la pauvreté est souvent attribuée à la croissance économique tirée par les ressources naturelles, la malédiction des ressources naturelles. Au-delà de l'impact global, les communautés vivant à proximité des

centres miniers souffrent-elles également d'une malédiction des ressources naturelles ? L'exploitation minière en Afrique : Les communautés locales en tirent-elles parti ? examine comment l'exploitation aurifère à grande échelle dans trois pays : le Ghana, le Mali et la Tanzanie affecte les moyens de subsistance et les communautés locales. L'analyse et les résultats des auteurs concluent qu'en moyenne, les communautés minières bénéficient d'avantages sociaux positifs bien que limités. L'étude définit trois grands canaux : marché, fiscal et environnemental pouvant affecter les localités. Les auteurs appliquent ce cadre d'analyse à l'exploitation aurifère à grande échelle dans les trois pays de l'étude et ils utilisent des méthodes économétriques solides pour évaluer ces effets au niveau local. Si le défi de l'extraction des ressources naturelles est traité dans toutes ses dimensions, des pistes pour une prospérité partagée et une meilleure égalité peuvent être ouvertes, créant ainsi une vie meilleure pour les familles et améliorant les perspectives des pays dans lesquels elles vivent. Ce livre a pour objectif d'éclairer les politiques publiques et le comportement des entreprises concernant le bien-être des communautés situées à proximité des sites d'extraction et les opportunités que l'activité minière peut leur offrir.

*Education a la Carte* Springer  
Henry O. Pollak Chairman of the International Program Committee Bell Laboratories Murray Hill, New Jersey, USA  
The Fourth International Congress on Mathematics Education was held in Berkeley, California, USA, August 10-16, 1980. Previous Congresses were held in Lyons in 1969, Exeter in 1972, and Karlsruhe in 1976. Attendance at Berkeley was about 1800 full and 500 associate members from about 90 countries; at least half of these come from outside of North America. About 450 persons participated in the program either as speakers or as presiders; approximately 40 percent of these came from the U.S. or Canada. There were four plenary addresses; they were delivered by Hans Freudenthal on

major problems of mathematics education, Hermina Sinclair on the relationship between the learning of language and of mathematics, Seymour Papert on the computer as carrier of mathematical culture, and Hua Loo-Keng on popularising and applying mathematical methods. George Polya was the honorary president of the Congress; illness prevented his planned attendance but he sent a brief presentation entitled, "Mathematics Improves the Mind". There was a full program of speakers, panelists, debates, miniconferences, and meetings of working and study groups. In addition, 18 major projects from around the world were invited to make presentations, and various groups representing special areas of concern had the opportunity to meet and to plan their future activities.

On cover: Collection education

Annual Report on Education Statistics in Canada Walter de Gruyter

Cette collection est le premier ouvrage par un autochtone canadien qui discute le concept d'histoire des peuples autochtones et l'expérience coloniale. Tout au long de ces textes, écrits dans plusieurs genres pendant vingt ans, Georges Sioui reprend les idées des Hurons-Wyandots au sujet de la place des Autochtones au Canada, dans l'histoire et le monde. -- This is the first collection written by an Aboriginal Canadian on the Aboriginal understanding of history and the colonial experience. These essays, stories, lectures, and poems, written over the last twenty years by Georges Sioui, present and explore the perspectives of the Huron-Wyandot people on the place of Aboriginal people in Canada, in the world, and in history.

*Memory, Humanity, and Meaning* World Bank Publications

Every parent wants the best possible education for their child--one that fits their child's unique needs, challenges them to grow, and equips them to succeed. But there are so many options--public, private, and charter schools, plus homeschooling and online schooling--that it's easy for parents to feel overwhelmed and, well, undereducated about the choices. What's more, while one schooling option may be right for one child, it may be challenging for another. And sometimes the same child will thrive in one environment in elementary school but falter in that same environment in middle school. What's a parent to do? Parenting expert and longtime educator Dr. Kevin Leman can help. In this practical book, he clearly explains the pros and cons of various schooling options so that parents can make an informed choice about the kind of education that will help their child thrive. He shows parents how to stay involved and engaged with their child's education every step of the way, knowing that the choices they make about school now will reverberate long into that child's future.

*Report of the Third International Congress of Women, Vienna, July 10-17, 1921* World Bank Publications

A classic work of educational theory and practice, offering a timeless and inspiring vision of how to cultivate the ethical, intellectual, and social development of young women. Written by François de Salignac de la Mothe Fénelon, a French theologian and educator who served as the tutor of the grandson of Louis XIV, this book provides a model of educational excellence and a source of guidance and inspiration for parents, teachers, and students alike. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work.

Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

**Population Studies and Development from Theory to Fieldwork** Council of Europe

This book addresses major population and development issues: fertility and reproductive health, migrations, gender, education, poverty and inequalities. To that aim it revisits and considerably enlarges Kingsley Davis' 1963 theory of change and response, using interdisciplinary methodologies. On the basis of four decades of field research (1985-2015), it questions the rationality of the actors, how culture shapes socio-demographic behaviours, in a context of modernity and globalisation. More specifically, it casts new light on the

interactions of individuals, families, networks and local communities with the State and its population policy.

**Circular[s] of Information ...** Wipf and Stock Publishers

'Mettre au point les tests et questionnaires pour une évaluation nationale des acquis scolaires' est le deuxième volume de cette série destinée à renforcer les capacités afin de réaliser des évaluations techniquement adéquates des niveaux nationaux des acquis des élèves. Cet ouvrage présente aux lecteurs les activités impliquées dans l'élaboration des tests de performance, notamment la conception d'un cadre d'évaluation la rédaction des items à choix multiple et à réponse construite le pré-test la production de carnets de tests et la notation manuelle des items. Une section consacrée à l'élaboration des questionnaires explique comment mettre au point les questionnaires rédiger les questions coder les réponses et relier les questionnaires aux tests. La dernière section traite de l'élaboration du manuel d'administration de test du recrutement des administrateurs de tests et de la prise de contact avec les établissements échantillonnés. Le CD d'accompagnement contient des exemples d'items extraits de tests nationaux et internationaux des exemples de questionnaires et des manuels administratifs. Cet ouvrage constitue une ressource utile pour les personnes concernées par l'évaluation de l'éducation en particulier pour les professionnels participant aux évaluations nationales des acquis des élèves.
