FORD WATTS

Italy and the Suez Canal, from the Mid-nineteenth Century to the Cold War

Antonio Tombolini editore
Italy from Crisis to Crisis seeks to understand Italy's approach to crises by studying the country in regional, international, and comparative context. Without assuming that the country is abnormal or unusually crisis-prone, the authors treat Italy as an example from which other countries might learn. The book integrates the analysis of domestic politics and foreign policy, including Italy's approach to military interventions, energy security, economic relations with the European Union (EU), and to the NATO alliance, and covers a number of issues that normally receive little attention in studies of "high politics," such as information policy, national identity, immigration, youth unemployment, and family relations. Finally, it puts Italy in a comparative perspective - with other European states, naturally - but also with Latin America, and even the United States, all countries that have experienced similar crises to Italy's and similar - often populist - responses. This text will be of key interest to scholars and students of, and courses on, Italian politics and history, European politics and, more broadly, comparative politics and democracy.
Flight MH17, Ukraine and the new Cold War Sellerio Editore srl

Winner of the American Association for Italian Studies Book Prize A new history explores how one of Renaissance Italy's leading cities maintained its influence in an era of global exploration, trade, and empire. The Grand Duchy of Tuscany was not an imperial power, but it did harbor global ambitions. After abortive attempts at overseas colonization and direct commercial expansion, as Brian Brege shows, Tuscany followed a different path, one that allowed it to participate in Europe's new age of empire without establishing an empire of its own. The first history of its kind, Tuscany in the Age of Empire offers a fresh appraisal of one of the foremost cities of the Italian

Renaissance, as it sought knowledge, fortune, and power throughout Asia, the Americas, and beyond. How did Tuscany, which could not compete directly with the growing empires of other European states, establish a global presence? First, Brege shows, Tuscany partnered with larger European powers. The duchy sought to obtain trade rights within their empires and even manage portions of other states' overseas territories. Second, Tuscans invested in cultural, intellectual, and commercial institutions at home, which attracted the knowledge and wealth generated by Europe's imperial expansions. Finally, Tuscans built effective coalitions with other regional powers in the Mediterranean and the Islamic world, which secured the duchy's access to global products and empowered the Tuscan monarchy in foreign affairs. These strategies allowed Tuscany to punch well above its weight in a world where power was equated with the sort of imperial possessions it lacked. By finding areas of common interest with stronger neighbors and forming alliances with other marginal polities, a small state was able to protect its own security while carving out a space as a diplomatic and intellectual hub in a globalizing Europe.

The 1973 'Oil Shock' is considered a turning point in the history of the twentieth century. At the time it seemed to mark a definitive shift from the era of low priced oil to the era of expensive oil. For most Western industrialized countries, it became the symbolic marker of the end of an era. For many oil producers, it translated into an unprecedented control over their energy resources, and completed the process of decolonization, leading to a profound redefinition of international relations. This book provides an analysis of the crisis and its global political and economic impact. It features contributions from a range of perspectives and approaches, including political, economic, environmental, international and social history. The authors examine the origins of what was defined as an 'oil revolution' by the oil-producing countries,

as well as the far-reaching effects of the 'shock' on the Cold War and decolonization, on international energy markets and the global economy. In doing so, they help place the event in its historical context as a key moment in the transformation of the international economy and of North-South relations.
Before the Neoliberal Turn Benjamin Maximilian Eisenhauer
On 17 July 2014 Malaysian Airlines Flight MH17 was shot down amid conflict in Ukraine, a crisis that led to a NATO-Russia standoff and the onset of a new period of East-West confrontation. This is the first scholarly work on the Ukrainian unrest and the tragic downing of MH17. It offers an analysis that challenges the Western consensus surrounding these events, emphasizing the geopolitical and economic context of the West's standoff with Russia, the BRICS bloc, and the struggles over the EU's energy supply. Based on previously unpublished government and NATO documents as well as a wide array of sources this book offers an analysis of global political economy and contemporary debates about Russia and East-West relations.

Mario Balotelli has a reputation like no other in football. Since exploding on to the scene at Inter Milan in 2007, he has won league titles in both Italy and England, moving between Europe's elite clubs. Yet for all his undoubted talent, he is better

known for his off-field antics – not least his infamous run-ins with both the police and Manchester's firefighters. Once described by José Mourinho as 'unmanageable', match-winning performances at the highest level have continued to convince clubs such as AC Milan and Liverpool to give him a chance. With exclusive access to friends, teammates and coaches, acclaimed football biographer Luca Caioli talks to the people best placed to explain the mystery that is Mario Balotelli.

The banking and financial sector has expanded dramatically in the last forty years, and the consequences of this accelerated growth have been felt by people around the world. *European Banks and the Rise of International Finance* examines the historical origins of the financialised world we live in by analysing the transformations in world finance which occurred in the decade from the first oil crisis of 1973, until the debt crisis of 1982. This a crucial and formative decade for understanding the modern financial landscape, but it is still mostly unexplored in economic and financial history. The availability of new archival evidence has allowed for the re-examination of issues such as the progressive privatisation of international financial flows to Less Developed Countries, especially in Latin America and South-East Asia, and its impact on the expansion of the European banking sector, and for the development of an invaluable financial and political history. This book is well suited for those interested in monetary economics and economic history, as well as those studying international political economy, banking history and Financial history.

Developing Writing Skills in Italian Rick Steves

Lucrezia Vallini, reporter di guerra del Corriere, si sta occupando del Sudan, dove è stato inviato un contingente di pace italiano per vigilare sul trattato di pace appena concluso tra SPLA e governo di Karthoum. La giornalista si convince ben presto che, dietro gli accordi di pace, ci sono ragioni economiche e che, forse, l'attenzione mediatica riservata al Darfur è stata pilotata ad arte. Da un vecchio amico – un ex trafficante d'armi – scopre che un famigerato mercenario, Lumube, è stato assoldato per distruggere l'oleodotto costruito da una multinazionale petrolifera cinese. Arrivata in Sudan, Lucrezia visita la zona dove si concentrano i pozzi e con la sua scorta, guidata dal tenente Sibilla del contingente italiano, finisce nel mezzo dell'assalto, appena in tempo per salvare l'ingegner Cattaneo – il progettista dell'oleodotto cinese. Nello stesso

momento, dall'altra parte del mondo, un commando di uomini rapisce Emily, la figlia di Sir Duncan, il presidente della British Petroleum, e il riscatto chiesto non è chiesto in denaro. Su tutto aleggia l'ombra di Frank Aker, onnipotente presidente della Exxon Mobile, con la vocazione del tessitore di trame oscure. Romanzo vincitore del Premio speciale "Tra fiction e realtà" Amarganta 2017 *The Great Dictionary English - Italian* Cambridge Scholars Publishing
This book pinpoints continuities and changes in U.S. foreign economic policy from the fixed exchange rate system of the 1960s through to the period between the two oil crises of the 1970s. Chapters pay close attention to the interconnectedness between the long lasting decline of the U.S. Dollar on foreign exchange markets and the U.S. balance of payments, transformations in international capital markets, and international oil developments. The book charts the prolonged failure of Washington's foreign economic policies to restore U.S. financial and monetary leadership through to the Carter Administration.

IL GRANDE NIDO che ha dato ORIGINE al BIG BANG DEI BUCHI NERI DI STEPHEN HAWKING Routledge

At the beginning of the year 66, Emperor Nero ruled the Roman Empire. By the end of it, Nero had committed suicide and three of his successors were dead, and out of the carnage of civil war at home and a nationalistic uprising in Judaea a new emperor, Vespasian, had emerged. Here Scaurus, once the lover of both Vespasian's son and daughter, looks back on the whole extraordinary year and recreates a world of treachery, malice, passion and - occasionally - quite heroism. Drawing on his formidable knowledge of Roman history, Allan Massie brings the distant past vividly to life and creates telling parallels with the present.

This multilingual collection of poets from many countries reflects planetary resistance to the misery that global capitalism is relentlessly inflicting upon the peoples of the world. Anything less than an international response would not reflect the enormity of our solidarity as poets. These poems speak urgently of the international class struggle for revolution and social justice as the very essence of truth and beauty, the struggle to topple the open fascist dimensions rising today. The poets in this anthology embody an historical memory as vast as our solidarity, as deep as all the struggles of the past that sought to liberate humanity from the scourges of war, racism, sexism, plunder

of the environment, of capitalism's religion of money. Toward this same goal of overthrowing capitalism we say, with the poets in this anthology: Not one step back!

Conceived in the 1850s and opened to navigation in 1869, the Suez Canal's construction coincided with Italy's path to unification and its first foray into nineteenth-century globalization. Since then, the history of Italy and the Canal have intertwined in many ways, throughout in peace and war. This edited collection explores the fundamental technical, diplomatic and financial contributions that Italy made to the production of the Canal and to its subsequent development, from the mid-nineteenth century to the Cold War. Drawing from unpublished public and private archival sources, this book is the first comprehensive account of this long and multifaceted relationship, providing innovative perspectives on Italy's diplomatic, economic, social, colonial and cultural history. An insightful read for those studying maritime, diplomatic or Italian history, this book contributes to a growing body of research on the Canal, which has largely emerged from international business, labour and social history, and offers new insights into the Euro-Mediterranean region.

Italy from Crisis to Crisis Federico Harbaruk

La crisi del petrolio del 1973 - conseguenza della guerra arabo-israeliana - scatena nel Mediterraneo intrighi finanziari e politici senza precedenti: Dominique Manotti svela un mondo opaco in cui l'unica legge è il profitto in un poliziesco ad alta tensione.

Ente Nazionale Idrocarburi Univ of California Press

Il petrolio era una ricchezza fantastica quanto lo era stato l'oro, e per questo non per niente era conosciuto con il nome simbolico e un po' inquietante di "oro nero". Il petrolio era qualcosa di più semplice da scoprire e da sfruttare rispetto all'oro puro. Bastava tentare la fortuna e aprire la bocca dove la nafta sgorgava con forza travolgente, per possedere la straordinaria miniera che doveva produrre migliaia e migliaia di tonnellate e con esse migliaia e migliaia di dollari, perché germogliava appena dal viscere della terra il liquido fetido, non era

necessario continuare a scavare giorno dopo giorno per estrarre il tesoro. È bastato organizzare la raccolta del prezioso liquido e sfruttarne le continue prestazioni. Per questo, appena si è diffusa la notizia della prima scoperta petrolifera, centinaia di uomini desiderosi di rapide ricchezze, sono rimasti stupiti dalla scoperta e si sono lanciati ad aprire buche con più o meno fortuna, perché il sottosuolo traboccava di petrolio e lui voleva espellerlo dal suo intestino. Oro Nero è una storia appartenente alla collezione Far West, una raccolta di romanzi sviluppati nel Wild West americano.

Tuscany in the Age of Empire Harvard University Press

Stephen Hawking avrebbe dovuto passare più tempo ad aiutare la scienza medica a risolvere i problemi, compreso il suo, anziché cercare buchi neri nelle profondità della sua "mente brillante", criticando aspramente quella che lo ha creato. Il dramma che lo ha reso disabile avrebbe potuto spingerlo a usare la sua "mente brillante" per aiutare gli altri sulla terra, invece di cercare buchi neri e inseguire l'infinitesimo, lasciando che se ne occupino quelli che non sono in condizioni fisiche come la sua. Avrebbe potuto divertirsi con un telescopio a casa sua, come facevo io quando abitavo a Miami,

North Miami Beach, e poi a Oakland Park, mentre lo scorrere del tempo scandiva la mia vita. A quanto ne so, l'orgoglio di essere l'uomo dei buchi neri non lo sta aiutando, perché avrebbe dovuto spiegarci come difenderci da questi mostri anti Dio. Se uno di loro va fuori orbita e ci viene addosso, lui e la sua famiglia diventano cibo per buchi neri, poiché non hanno un Dio che li difende. Questi divoratori della galassia terrorizzano angeli e demoni, e turbano i sogni dei bambini.

Il principe vampiro. L'oro nero
Manchester University Press

* Powerful, passionate and highly topical critique of humanitarian intervention* International political theorist with eight top-selling books "Whoever invokes humanity wants to cheat." In this first time translation in English, Danilo Zolo considers Carl Schmitt's maxim in the context of the "humanitarian war" waged against the Federal Republic of Yugoslavia in the Spring of 1999 by 19 NATO countries. This erudite and disturbing book is a political, legal and philosophical reflection on an extraordinary display of Western Power and its present and future impact on the global system of international relations. Zolo's account of the war is located within the context of the irresistible drive of globalization which he argues brings economic, financial and military, ecological and ethnic-religious

turbulence in its wake. Not only the future of the Balkan region, he suggests, is at stake here, but the fate of international law, the future role of the United Nations and the political destiny of Europe. *Oro nero* Edizioni Nuova Cultura Proceedings of the IX Symposium on Mediterranean Archaeology, Chieti (Italy), 24-26 February 2005 84 papers. Introduction by S. Trinchese. Preliminary editing by L. Cherstich. Castel Manfrino excavation edited by S. Antonelli. *Invoking Humanity* Routledge Il Vero Oro Nero racconta di Davide, trentenne romano che si barcamena tra un lavoro insoddisfacente, un capo dispotico e un amore infelice. Dalla sua, però, gli amici di una vita e uno sguardo teneramente ironico sul variegato panorama di bizzarri personaggi che lo circondano. E così ecco Giò, il burbero titolare del negozio di dischi Dirty Fingers, Krantz, il dentista tedesco melomane, e i gemelli Tomlin circensi ormai in pensione. Improvvisamente però Davide metterà in discussione tutta la sua vita, intraprendendo un percorso di crescita personale che lo porterà ad affermare la propria identità in quello che potrebbe essere considerato un moderno romanzo di formazione. E sullo sfondo lei, la musica, vera compagna e protagonista ultima del racconto.
