The integration of market economies is one of the most remarkable features of international economics, which has important implications for macroeconomic performance in open economies. Equally important is the declining relevance of the real versus the monetary theory dichotomy. These papers focus on those aspects of monetary policy which relate to credibility and non-neutrality; the domestic adjustment to foreign shocks; the interdependence of open economies and their strategic interactions. An important section is also devoted to the innovative modelling of exchange rate dynamics.

Do you feel awkward at networking events? Do you wonder what your date really thinks of you? Do you wish you could decode people? You need to learn the science of people. As a human behavior hacker, Vanessa Van Edwards created a research lab to study the hidden forces that drive us. And she's cracked the code. In *Captivate*, she shares shortcuts, systems, and secrets for taking charge of your interactions at work, at home, and in any social situation. These aren't the people skills you learned in school. This is the first comprehensive, science backed, real life manual on how to captivate anyone—and a completely new approach to building connections. Just like knowing the formulas to use in a chemistry lab, or the right programming language to build an app, *Captivate* provides simple ways to solve people problems. You'll learn, for example... · How to work a room: Every party, networking event, and social situation has a predictable map. Discover the sweet spot for making the most connections. · How to read faces: It's easier than you think to speed-read facial expressions and use them to predict people's emotions. · How to talk to anyone: Every conversation can be memorable—once you learn how certain words generate the pleasure hormone dopamine in listeners. When you understand the laws of human behavior, your influence, impact, and income will increase significantly. What's more, you will improve your interpersonal intelligence, make a killer first impression, and build rapport quickly and authentically in any situation—negotiations, interviews, parties, and pitches. You'll never interact the same way again.

GETTING RICH IS NOT JUST ABOUT LUCK; HAPPINESS IS NOT JUST

A TRAIT WE ARE BORN WITH. These aspirations may seem out of

reach, but building wealth and being happy are skills we can

learn. So what are these skills, and how do we learn them? What

are the principles that should guide our efforts? What does

progress really look like? Naval Ravikant is an entrepreneur,

philosopher, and investor who has captivated the world with his

principles for building wealth and creating long-term happiness.

The Almanack of Naval Ravikant is a collection of Naval's wisdom

and experience from the last ten years, shared as a curation of

his most insightful interviews and poignant reflections. This isn't a

how-to book, or a step-by-step gimmick. Instead, through Naval's

own words, you will learn how to walk your own unique path

toward a happier, wealthier life.
