Our beaches are eroding, sinking, washing out right under our houses, hotels, bridges; vacation dreamlands become nightmare scenes of futile revetments, fills, groins, what have you—all thrown up in a frantic defense against the natural system. The romantic desire to live on the seashore is in doomed conflict with an age-old pattern of beach migration. Yet it need not be so. Conservationist Wallace Kaufman teams up with marine geologist Orrin H. Pilkey Jr., in an evaluation of America's beaches from coast to coast, giving sound advice on how to judge a safe beach development from a dangerous one and how to live at the shore sensibly and safely.

This comparative historical study explores the broad sociocultural factors at play in the relationships among U.S. obscenity laws and literary modernism and naturalism in the early twentieth century. Putting obscenity case law's crisis of legitimation and modernism's crisis of representation into dialogue, Erik Bachman shows how obscenity trials and other attempts to suppress allegedly vulgar writing in the United States affected a wide-ranging debate about the power of the printed word to incite emotion and shape behavior. Far from seeking simply to transgress cultural norms or sexual boundaries, Bachman argues, proscribed authors such as Wyndham Lewis, Erskine Caldwell, Lillian Smith, and James T. Farrell refigured the capacity of writing to evoke the obscene so that readers might become aware of the social processes by which they were being turned into mass consumers, voyeurs, and racialized subjects. Through such efforts, these writers participated in debates about the libidinal efficacy of language with a range of contemporaries, from behavioral psychologists and advertising executives to book cover illustrators, magazine publishers, civil rights activists, and judges. Focusing on case law and the social circumstances informing it, *Literary Obscenities* provides an alternative conceptual framework for understanding obscenity's subjugation of human bodies, desires, and identities to abstract social forces. It will appeal especially to scholars of American literature, American studies, and U.S. legal history.

The book consists of 18 chapters, each covering roughly one hour of the day, beginning around 8 a.m. and ending sometime after 2 a.m. the following morning. Each chapter employs its own literary style, and parodies a specific episode in Homer's *Odyssey*. Furthermore, each chapter is associated with a specific colour, art or science, and bodily organ. This combination of kaleidoscopic writing with an extreme formal schematic structure renders the book a major contribution to the development of 20th-century modernist literature. The use of classical mythology as an organising framework, the near-obsessive focus on external detail, and the occurrence of significant action within the minds of characters have also contributed to the development of literary modernism. Nevertheless, Joyce complained that, "I may have oversystematised Ulysses," and played down the mythic correspondences by eliminating the chapter titles that had been taken from Homer. As he was completing work on *Dubliners* in 1906, Joyce considered adding another story featuring a Jewish advertising canvasser called Leopold Bloom under the title *Ulysses*. Although he did not pursue the idea further at the time, he eventually commenced work on a novel using both the title and basic premise in 1914. The writing was completed in October 1921. Three more months were devoted to working on the proofs of the book before Joyce halted work shortly before his self-imposed deadline, his 40th birthday (2 February 1922). This publication encountered censorship problems in the United States; serialisation was halted in 1920 when the editors were convicted of publishing obscenity. Although the conviction was based on the "Nausicaä" episode of *Ulysses*, *The Little Review* had fuelled the fires of controversy with dada poet Elsa von Freytag-Loringhoven's defence of *Ulysses* in an essay "The Modest Woman." Joyce's novel was not published in the United States until 1933. With the appearance of both *Ulysses* and T. S. Eliot's poem, *The Waste Land*, 1922 was a key year in the history of English-language literary modernism. In *Ulysses*, Joyce employs stream of consciousness, parody, jokes, and virtually every other established literary technique to present his characters. The action of the novel, which takes place in a single

day, 16 June 1904, sets the characters and incidents of the *Odyssey* of Homer in modern Dublin and represents Odysseus (*Ulysses*), Penelope and Telemachus in the characters of Leopold Bloom, his wife Molly Bloom and Stephen Dedalus, parodically contrasted with their lofty models. The book explores various areas of Dublin life, dwelling on its squalor and monotony. Nevertheless, the book is also an affectionately detailed study of the city, and Joyce claimed that if Dublin were to be destroyed in some catastrophe it could be rebuilt, brick by brick, using his work as a model. To achieve this level of accuracy, Joyce used the 1904 edition of Thom's *Directory*—a work that listed the owners and/or tenants of every residential and commercial property in the city. He also bombarded friends still living there with requests for information and clarification.

A transporting and illuminating voyage around the globe, through classic and modern literary works that are in conversation with one another and with the world around them *Featured in the *Chicago Tribune's* Great 2021 Fall Book Preview * One of *Smithsonian Magazine's* Ten Best Books About Travel of 2021* Inspired by Jules Verne's hero Phileas Fogg, David Damrosch, chair of Harvard University's department of comparative literature and founder of Harvard's Institute for World Literature, set out to counter a pandemic's restrictions on travel by exploring eighty exceptional books from around the globe. Following a literary itinerary from London to Venice, Tehran and points beyond, and via authors from Woolf and Dante to Nobel Prize-winners Orhan Pamuk, Wole Soyinka, Mo Yan, and Olga Tokarczuk, he explores how these works have shaped our idea of the world, and the ways in which the world bleeds into literature. To chart the expansive landscape of world literature today, Damrosch explores how writers live in two very different worlds: the world of their personal experience and the world of books that have enabled great writers to give shape and meaning to their lives. In his literary cartography, Damrosch includes compelling contemporary works as well as perennial classics, hard-bitten crime fiction as well as haunting works of fantasy, and the formative tales that introduce us as children to the world we're entering. Taken together, these eighty titles offer us fresh perspective on enduring problems, from the social consequences of epidemics to the rising inequality that Thomas More designed *Utopia* to combat, as well as the patriarchal structures within and against which many of these books' heroines have to struggle—from the work of Murasaki Shikibu a millennium ago to Margaret Atwood today. *Around the World in 80 Books* is a global invitation to look beyond ourselves and our surroundings, and to see our world and its literature in new ways.
