Among the various techniques of self-improvement and caring, I chose Tantric and Kashmiri massages to rediscover my body but also to experience an intensification of my sensations in order to get the most out of life. Nakedness, being touched all over our body enables us to renew with our prepubertal innocence, the innocence of childhood and the happy days when we were discovering tactile pleasure. We feel... alive again As I received various Tantric massages in the course of my

research, I tried to conceptualize the different techniques used and the impulse which transmits love through the sense of touch. This led directly to my taking note of what the different Tantric and Kashmiri massages have in common. The 6 full body massage protocols I describe in my book provide a framework for the moves to be performed and transitions to be smoothed out, as well as tips and tricks meant to increase the fluidity of a Tantric massage. You may simply draw your initial inspiration from these and go on to massage freely with an open heart. Tantric & Kashmiri massages includes various solo exercises such as undulatory orbital breathing, chakra balancing, and the Who-Am-I or karsai nei tsang self-massage, as well as a number of easy twosome exercises associated with the Tantra. In an age when we are constantly bombarded with stimuli of every sort, getting in tune with our own sensibility and that of our partners and even renewing contact with the sacred through shamanism or the Tantra will strengthen our sense of rootedness shattered by stress.

A tantric massage practice for awakening and honoring male creative energy and allowing a man conscious, loving contact with his own masculinity • Empowers men to expand and deepen their experience of arousal and sensuality • Demonstrates how deep relaxation is important to a strong and lasting erection • Shows how the lingam connects a man to his dynamic strength while the prostate is linked to his more receptive side Lingam is the Sanskrit word for the male generative organ, the penis. In India, the lingam is revered as an expression of Shiva's clarity, symbolizing the fine sword that differentiates between truth and falsehood. The goal of a lingam massage is to provide a man conscious, loving contact with his own masculinity. Western cultural expectations around sexual "performance" have created sexual difficulties for many men, including erectile dysfunction and premature ejaculation. Through loving touch, lingam massage provides the deep relaxation that supports sustained erection, putting a man in touch with less familiar aspects of his sexuality, including the energetic responses of his perineum, prostate gland, and anus. Lingam massage is not simply a hands-on technique but involves the conscious direction of energy throughout the body. It allows men to savor longer, deeper orgasms and teaches taoist and tantric practices for conserving sexual energy. Over time, as his consciousness deepens, these practices give a man complete control over his ejaculation.

Not your average massage guide, this book is the story of how the author earns a living working in a counselling and therapy practice that also specialises in tantra and lingam massage. You will read how she left her professional career in the UK and moved to Germany, embracing the rather more naked lifestyle. She tells us how she found work in a tantra massage studio and you can read her honest and sometimes funny descriptions of the techniques that she uses in her tantra and body to body massages. This is not a spiritual tantra kind of book. It is rather a humorous and down to look at how the author deals with the clients who want to touch her inappropriately and how she feels when there is some strong chemistry occurring on the massage table. This is an interesting book for anyone who wonders what really goes on inside a tantra massage studio, and for people who would like to learn some lingam massage techniques from someone who carries them out as part of her daily work.

A lingam massage is a tantric sex practice zeroed in on rubbing the penis. Dissimilar to your typical hand work, the lingam rub includes massageing and stroking the penis as well as integrate further developed methods, including the balls, perineum, and the prostate (also known as the Consecrated Spot) too. The lingam rub isn't tied in with having one climax and being finished. All things considered, it's tied in with attempting to feel increasingly more delight that will become floods of

numerous climaxes all through the back rub. Indeed, different climaxes aren't only for individuals with clitorises! Lingam is the Sanskrit word for penis and freely means "wand of light." In tantra reasoning, we approach the lingam from a position the very pinnacle of adoration and regard, the same way we approach the yoni, or vagina. (The yoni back rub may be viewed as what might be compared to the lingam massage, just performed on individuals with vaginas.) While you give your accomplice joy through their "wand of light," you are loaded up with that equivalent energy or light in a cognizant trade of energy in giving and getting joy. A major piece of hallowed sexuality is figuring out how to cherish the penis and not fear it. Numerous ladies I work with are as yet not absolutely OK with taking care of a man's penis. Assuming that is an ideal case for you, carve out opportunity to consider any bad introductions you might have acquired from your folks or your way of life. Lingam rub is a training that really respects the penis and the individuals who have them. We do it to give them joy. There is likewise an enormous measure of sexual energy or chi in an individual's penis, and figuring out how to animate and circle it is extremely strong. At the point when I went to India to concentrate on tantra and yoga, I was stunned at first to see sculptures of the Shiva lingam that addressed the God Shiva. For a great many people, it addresses a condition of reflection. In any case, for old tantric professionals, this held a mystery meaning: that this strong God energy was in the penis, which was remembered to contain the most manly pith packed in one spot.
