Introduction to Teaching Physical Education Jacaranda

Adapted Physical Education National Standards, Third Edition, thoroughly covers the latest Adapted Physical Education National Standards (APENS), offering current knowledge and best practices for teaching adapted physical education. This new edition solidifies the book's reputation as an essential resource for adapted physical educators. Representing the first major revision to the standards since 2006, Adapted Physical Education National Standards, Third Edition, fully explains the 15 national standards as established by the National Consortium for Physical Education for Individuals with Disabilities (NCPEID). In addition to updating the national standards, this resource offers educators and professionals two other important updates: a new web study guide and a fresh design of the text. The study guide includes important information and more than 1,100 sample test questions for educators who are studying to take the Certified Adapted Physical Educator (CAPE) exam. This new tool allows candidates to prepare for the exam by taking practice quizzes based on the content within each standard. For each practice quiz, the reader is presented with questions randomly drawn from a pool of questions for that standard, ensuring a wide variety of sample exam possibilities. The candidate then receives a score and can review the correct and incorrect answers to determine areas for further study. Candidates can also view and download a comprehensive list of all questions for all standards. The new text design makes the content within each standard easier to read, providing a greater understanding of each level at a glance. Each of the 15 standards is presented in five levels. The level for a typical standard is organized this way: Level 1: the standard number and name Level 2: the major components of the standard Level 3: the standard's subcomponents—dependent pieces of knowledge of fact or principle related to the major component Level 4: adapted physical education content—additional knowledge regarding the subcomponents that teachers working with individuals with disabilities need to know Level 5: application of adapted physical education content from level 4 to teaching individuals with disabilities Levels 1 through 3 outline the basic instructional competencies that physical educators who teach students in integrated or segregated environments must be able to demonstrate. Those levels provide the foundation for levels 4 and 5. The standards are logical extensions of SHAPE America's 2017 National Standards for Initial Physical Education Teacher Education, SHAPE America's 2008

Advanced Standards for Physical Education, and the National Board for Professional Teaching Standards' 2014 Physical Education Standards. Adapted Physical Education National Standards, Third Edition, is useful for a variety of stakeholders: Physical education majors and in-service teachers who are preparing for the APENS exam Higher education faculty members who want to evaluate their adapted physical education preparation programs K-12 administrators who want to use APENS exam results for reviewing and hiring new teachers Parents of children who require adapted physical education instruction, to inquire at their child's IEP meeting about the qualifications of the physical educator for their child The book features an appendix of Frequently Asked Questions, a glossary of terms that includes abbreviations and acronyms in the field, and a summative list of references that were used by NCPEID committees in developing the APENS standards. It also includes an overview of NCPEID and a detailed description of how the standards and the certification exam were developed. Adapted Physical Education National Standards, Third Edition, will keep readers up to date on the standards, help them prepare for the CAPE exam, and help ensure that high-quality adapted physical education is available for all students who can benefit from it.

These can be copied from the print version or kept safe and printed out year after year from the CD-ROM. -CD-ROM of activity and vocabulary cards—This includes 8.5- x 11-inch cards depicting activities with instructions and vocabulary cards for use in studying fitness terminology covered in the book. -CD-ROM of the presentation package—This CD-ROM includes a PowerPoint presentation for every lesson in the book, making class time easy for you and more engaging for your students. -In-service DVD—Learn the program philosophy, objectives, and teaching strategies presented by Chuck Corbin. This DVD is useful for presenting your program's objectives to parents and administrators. -Spanish e-book on CD-ROM and online Spanish vocabulary—You'll find the full text in a Spanish translation on the CD-ROM, and all vocabulary is translated to Spanish on the Web site. -FitnessforLife.org Web site—The student text uses icons

throughout to direct students to the Web site for more information. Additional content updates will continue to be added to the Web site as new information on health and wellness emerges. The Web site also includes the two newest ancillaries: -Online study guide—Use as a supplement to regular coursework, as an independent study for students who are unable to attend class, or as a make-up assignment for a student who missed a class. The online study guide also allows students to create online electronic portfolios that can be used as evidence of meeting physical education outcomes and standards. Access is free to teachers and students with an adoption of 25 or more copies. -Test bank—Quickly and easily create exams from more than 500 multiple-choice, essay, and matching questions. You can easily customize the exams to meet your needs, and you can make them unique for each class period you teach. -Award-winning DVDs—Two DVDs each include five 20-minute segments that illustrate key concepts, activities, and assessments featured in the text, including the Telly Award-winning segments. -The Lifetime Fitness DVD includes Introduction to Physical Activity, Cardiovascular Fitness, Muscle Fitness, Flexibility, and Body Composition. -The Wellness DVD includes Introduction to Wellness, Nutrition, Stress Management, the Activity Pyramid, and Planning Healthy Lifestyles. -Additional supplementary instructional materials are also available for purchase: -Physical Education Soundtracks—Two CDs contain the cadence for PACER and other fitness tests, music intervals, and music for exercise routines. -Physical Activity Pyramid Posters—Explains the FIT formula for all types of physical activities. How Fitness for Life Benefits Students -Fitness for Life helps students meet national, state, and local physical education standards and helps students achieve national health goals outlined in Healthy People 2010. -Fitness for Life is based on the HELP philosophy, which specifies the goal of promoting health for everyone with an emphasis on lifetime activity designed to meet personal needs. -Fitness for Life helps students learn the value and benefits of lifelong physical activity. Just as important, they learn that physical activity can and should be fun—and thus they are more likely to become and remain active throughout their lives. - Students learn how to create an activity and fitness plan, set individual goals, assess their status and progress, manage their time and responsibilities, and overcome barriers to regular physical activity. They learn to use technology to benefit their fitness rather than detract from it. And they experience the various components of health-related fitness, activity, and wellness through participation in the many labs and activities that are a crucial part of the Fitness for Life program. - Fitness for Life enables students to have success, build confidence in their ability to lead an active lifestyle, and take control of their own health. And research has shown that the program is effective in promoting physically active behavior after students finish school. -Fitness for Life complements the total learning process, contributing learning experiences in science, math, and language arts, including extensive vocabulary enhancement. How Fitness for Life Benefits Teachers -Teachers can present this course knowing that it is consistent with national and state standards. -Fitness for Life helps students understand lifelong fitness concepts and learn the keys to adopting and maintaining healthy behavior throughout their lives. -The program is easily adaptable to any schedule and includes block plans of all types. -The organization of the text and the comprehensive ancillaries make teaching this course as simple as possible, with a minimum of preparation time—even for those with no experience in teaching this type of course. -Workbooks and materials completed by students in the online study guide can be used in creating student portfolios that provide evidence

of students' accomplishment of national, state, and local outcomes and standards. Compatibility With FITNESSGRAM®/ACTIVITYGRAM® and Physical Best Author Chuck Corbin has been a member of the FITNESSGRAM/ACTIVITYGRAM Scientific Advisory Board since its inception. The FITNESSGRAM/ACTIVITYGRAM assessments embedded in the Fitness for Life self-assessment program—as well as the book's approach to teaching health-related fitness and physical activity—are consistent with the stated philosophy of the FITNESSGRAM/ACTIVITYGRAM Scientific Advisory Board. Fitness for Life is also fully compatible with Physical Best resources; in fact, the Physical Best program offers teacher training for Fitness for Life course instructors. All three programs are based on the HELP philosophy, which promotes health for everyone with a focus on lifetime activity of a personal nature. Dr. Corbin is recognized nationally and internationally as the leader in teaching health-related fitness and activity to middle and high school students. He wrote the first high school textbook on this subject, which has often been imitated but never equaled. Dr. Corbin has received numerous national awards in physical education and has authored, coauthored, or edited more than 70 books and videos. Fitness for Life (winner of the Texty Award of the Text and Academic Authors Association), Concepts of Physical Fitness (winner of the McGuffey Award), and Concepts of Fitness and Wellness are the most widely adopted high school and college texts in the area of fitness and wellness. Two of Dr. Corbin's video programs have earned Telly Awards for Excellence for educational videos. He is first author of the national physical activity standards for children, published by COPEC and NASPE.
