The second novel in the Forgotten Legion Chronicles takes Romulus, Brennus, Tarquinius and Fabiola, and places them in ever greater danger. The Forgotten Legion -- ten thousand legionaries made captive by the Parthians -- has marched to Margiana on the edge of the known world. In its midst are Romulus, Brennus and Tarquinius, all men with good reason to hate Rome. Together the trio must face the savage tribes which constantly threaten the area. But other, more treacherous enemies lurk within the ranks of the Forgotten Legion itself.

When all hope is lost, the three friends' characters will be tested to the utter limit. Meanwhile in Rome, Fabiola, Romulus's twin sister, also fights to survive. Beset by enemies on all sides, she must travel to Gaul to find her lover, Caesar's right-hand man. There, tribal rebellion under the charismatic chieftain, Vercingetorix, threatens not just Caesar's route to power, but his life and the lives of all who support him.

Hunting the Eagles St. Martin's Press

Set in the late Roman Republic, in the first century B.C.E., The Forgotten Legion is a tale of the greatest empire of the ancient world from the perspective of those on the lowest rungs of its society. Romulus and

Fabiola are twins, born into slavery to a enslaved mother who is much beloved by them, and much abused by their owner. At 13 years old, they and their mother are sold: Romulus to gladiator school, Fabiola into prostitution, where she will catch the eye of one of the most powerful men in Rome, and their mother into obscurity and death in the salt mines.

Tarquinius is an Etruscan, a warrior and soothsayer, born enemy of Rome and trained by the last haruspex in the forgotten arts of divination. A runaway slave, then an AWOL Legionaire, he has a long foretold destiny that will take him to the very ends of the known world. Brennus is a Gaul from the Allobreges tribe. In the battle against the

Roman army, his entire family, perhaps his entire tribe, is slaughtered, and only he survives to be sold as a slave to be trained as a gladiator. He rises to become one of the most famous and feared gladiators of his day - and mentor to the boy slave, Romulus, who dreams night and day of escape and of revenge. The lives of these four characters are bound and interwoven in a marvellous story which begins in a Rome riven by corruption, violence and political enmities, but ends far away, where Romulus, Brennus and Tarquinius find themselves fighting against the Parthians and overwhelming odds - survivors of one of the most legendary battles in Roman military history and destined to become part of one of the most compelling, enduring legends: The Forgotten Legion.

Norms of Word

Association contains a heterogeneous collection of word association norms. This book brings together nine sets of association norms that were collected independently at different times during a 15-year

period. Each chapter is a self-contained unit. The order in which the norms are presented is arbitrary, although an attempt is made to group together norms that seem to belong together. The 1952 Minnesota norms are presented first, due to "age" and in recognition of the fact that a number of the norms that follow are direct outgrowths of this work. The next three norms in this collection are responses to the Russell-Jenkins stimuli obtained from subjects representing different linguistic communities. A summary of association norms collected from British and Australian subjects are reported along with association norms from German and French college students and French workmen. Four sets of norms that are not directly related to the 1952 Minnesota collection are included. The text will be of interest to historians and researchers in the field of verbal learning and verbal behavior.

Friedrich Nietzsche's influence on the development of modern social sciences has not been well documented. This volume reconsiders some of Nietzsche's writings on economics and the science of state, pioneering a line of research up to now unavailable in English. The authors intend to provoke conversation and inspire research on the role that this much misunderstood philosopher and cultural critic has played - or should play - in the history of economics. Englisch-deutsch, von B. Klatt, neubearb. von E. Klatt. 198.-212. tausend New York : Bowker
Rome stands today for an empire and for a city. The essays gathered in this

volume explore some of the many ways in which the two were interwoven. Rome was fed, beautified and enriched by empire just as it was swollen, polluted, infected and occupied by it. Empire was paraded in the streets of Rome, and exhibited in the city's buildings. Empire also made the city ineradicably foreign, polyglot, an alien capital, and a focus for un-Roman activities. The city was where the Roman cosmos was most concentrated, and so was most contested. Deploying a range of methodologies on materials ranging from Egyptian obelisks to human skeletal remains, via Christian art and Latin poetry, the contributors to this volume weave a series of pathways through the world-city, exploring the different kinds of centrality Rome had in the empire. The result is a startlingly original picture of both empire and city.

Kampf der Adler BASTEI LÜBBE
 This is a truly unique account of Nazi Germany at war and of one man's struggle against totalitarianism. A mid-level official in a provincial town, Friedrich Kellner kept a secret diary from 1939 to 1945, risking his life to record Germany's path to dictatorship and genocide and to protest his countrymen's complicity in the regime's brutalities. Just one month into the war he is aware that Jews are marked for extermination and later records how soldiers on leave spoke openly about the mass murder of Jews and the murder of POWs; he also documents the Gestapo's merciless rule at home from euthanasia campaigns against the handicapped and mentally ill to the execution of anyone found listening to foreign broadcasts. This essential testimony of everyday life under the Third Reich is accompanied by a foreword by Alan Steinweis and the remarkable story of how the diary was brought to

light by Robert Scott Kellner, Friedrich's grandson.

Now Cerys carries a small bit of the curse—the magic—in her blood, a reminder of the day she lost everything. As a new queen is crowned, however, things long hidden in the woods descend on the kingdom itself. Cerys is forced on the run, her only companions a small and irritating fox from the royal garden and the magic in her veins. Shakespeare's *The Merchant of Venice* occupies a unique place in world culture. As the fictional, albeit iconic, character of Shylock has been interpreted as exotic outsider, social pariah, melodramatic villain and tragic victim, the play, which has been performed and read in dozens of languages, has served as a lens for examining ideas and images of the Jew at various historical moments. In the last two hundred years, many of the play's stage interpreters, spectators, readers and adapters have themselves been Jews, whose responses are often embedded in literary, theatrical and musical works. This volume examines the ever-expanding body of Jewish responses to Shakespeare's most Jewishly relevant play.
