Too many  
teaching and  
learning  
activities  
require

students to use only lower-order thinking (LOT), and many of the attempts educators make to promote higher-order thinking (HOT) are misconstrued. Higher-order thinking makes teaching and learning more engaging and intentional, adds intellectual rigor to any curriculum, and aids in the development of some important life skills among young learners. Even preschoolers

are capable of a great deal of higher-order thinking. Infusing a play-based curriculum with activities and interactions that promote higher-order thinking creates the type of play that fosters cognitive, language, physical, and social development. It is important to start developing students' higher-order thinking skills when they are young, and this book provides numerous

strategies for doing so. Most of the activities are in the form of open-ended interactive games that can be easily modified to be responsive to variety of cultures and to meet a range of learning abilities, styles, and intelligences. How to Raise Kids Who Aren't Assholes is a clear, actionable, sometimes humorous (but always science-based) guide for parents on how to shape their kids into honest, kind, generous, confident, independent, and resilient people...who just might save the world one day. As an

award-winning science journalist, Melinda Wenner Moyer was regularly asked to investigate and address all kinds of parenting questions: how to potty train, when and whether to get vaccines, and how to help kids sleep through the night. But as Melinda's children grew, she found that one huge area was ignored in the realm of parenting advice: how do we make sure our kids don't grow up

to be assholes? On social media, in the news, and from the highest levels of government, kids are increasingly getting the message that being selfish, obnoxious and cruel is okay. Hate crimes among children and teens are rising, while compassion among teens has been dropping. We know, of course, that young people have the capacity for great empathy, resilience, and

action, and we all want to bring up kids who will help build a better tomorrow. But how do we actually do this? How do we raise children who are kind, considerate, and ethical inside and outside the home, who will grow into adults committed to making the world a better place? How to Raise Kids Who Aren't Assholes is a deeply researched, evidence-based primer that provides a fresh, often

surprising perspective on parenting issues, from toddlerhood through the teenage years. First, Melinda outlines the traits we want our children to possess—including honesty, generosity, and antiracism—and then she provides scientifically-based strategies that will help parents instill those characteristics in their kids. Learn how to raise the kind of kids you actually want to hang out

with—and who just might save the world.

In this adventure picture book that reinforces a child's self-esteem, father of four and New York Times bestselling author Dave Hollis draws on the themes of his popular video series "Teatime with Noah" to help kids believe in themselves, have courage, and chase after their dreams. The story begins

with one of Daddy and Noah's beloved father-daughter tea parties, as Daddy encourages young Noah to follow her dreams. Young readers will delight to see the tea party transform into a fantastical adventure as Noah discovers that she wants to be a ship captain. But soon everything goes wrong. Noah doesn't know how to be a captain, and she doesn't even

have a ship! When she starts to build her own, things go from bad to worse. Through each hardship, Daddy guides Noah, empowering her to ride the waves of life with courage. With vivid illustrations from Arief Putra and whimsical rhymes, Here's to Your Dreams! Is for ages 4 to 8 Encourages children to explore their own interests, pursue their dreams, and overcome obstacles Is a conversation-

starter for topics such as self-esteem, bravery, and personal growth is perfect for creating special daddy-daughter moments is a great gift for birthdays, baby showers, adoption parties, gender reveal parties, and Father's Day. With a fun and entertaining style, Dave Hollis tells a rollicking adventure story that encourages boys and girls to believe in themselves, not be afraid to make

mistakes, and use their gifts—because nothing is out of their reach. *All City Emerald Group Publishing* Volume 35 of *Advances in Management Accounting* features a diverse range of authors from Australia, Canada, New Zealand and the United States of America, focusing on theoretically sound and practical management accounting research which has a cutting-edge and wide-

reaching appeal to both academics and practitioners. *The Neuron Wide Eyed Editions* "A shattering adventure." — Jacquelyn Mitchard, bestselling author of *The Deep End of the Ocean* A mother's chance decision leads to a twist of fate that is every parent's worst nightmare. It is the wrong time to get sick. Speeding down the highway on the way to work, her two little girls

sleeping in the back seat, medical resident Claire Rawlings doesn't have time for the nausea overtaking her. But as the world tilts sideways, she pulls into a gas station, runs to the bathroom, and passes out. When she wakes up minutes later, her car—and her daughters—are gone. The police have no leads, and the weight of guilt presses down on Claire as each hour passes with no trace of her

girls. All she has to hold on to are her strained marriage, a potentially unreliable witness who emerges days later, and the desperate but unquenchable belief that her daughters are out there somewhere. As hopeful and uplifting as it is devastating, *Little Lovely Things* is the story of a family shattered by unthinkable tragedy, and the unexpected intersection of heartbreak and hope.

Perfect for readers of *Watch Me Disappear* and *After Anna!* Additional Praise for *Little Lovely Things*: "Little Lovely Things is an insightful and moving read that is well worth the journey." — Vivian Schilling, bestselling author of *Quietus* "Combining the suspense and razor-sharp outlook of a Gillian Flynn novel, Maureen Connolly's debut sizzles. I finished *Little Lovely Things* in one

heartbreaking, tear-batting gulp. Connolly takes risks that make the reader's heart start anew. Finding shards of hope amidst the chaos of tragedy is a testament to both the writer, and the characters she creates." — Jenny Milchman, USA Today bestselling author of Wicked River

The purpose of my book, The Tip of the Arrow, A Study in

Leadership, is to share with young people of today and tomorrow the story of young people like me at age sixteen as the blueprint of the Selma Student Nonviolent Civil Rights movement, a significant impacting factor in the passage of the 1964 Civil Rights Act and the dominating influence leading to the passage of the 1965 Voting Rights Act. On February 24, 2016, during a ceremony awarding the

Congressional Gold Medal at the US Capitol in Washington, DC, I beamed with personal pride upon hearing Speaker Paul Ryan's statement that Congress decided to bestow the award to the foot soldiers because their contribution to our country was so great that they deserved the highest honor in our possession, the Congressional Gold Medal. The Tip of the Arrow is our story.

In an attempt to bring hope to those who feel forsaken, an unnamed,

mysterious street artist begins graffitiing colorful murals along the sides of buildings. But the castaways of the storm aren't the only ones who find beauty in the art. When the media begins broadcasting the emergence of the murals and one appears on the building Makayla, Jesse, and their friends are living in, it is only a matter of time before those who own the building come back to claim

what is theirs. This book was  
a ten-year  
labor of love  
inspired and

directed by Kathleen Avino's spirit guides. The stories were given to her, and she systematically put them down on paper. Her sincere hope is that these stories will bring a sense of joy, self-exploration, and healing to those who read them. This book is divided into a series of sets, each with its own theme

and divided into three parts: a traditional haiku, a poem, and a descriptive short story. It is presented in a workshop format, intended to provide readers with an opportunity for reflection and healing. The book's true intention is to provide pleasure and a respite from daily difficulties.

Kathleen carries an international clientele. She works via respected and established psychic networks and psychic and new-age festivals. Kathleen is also available for private consultations in the New York City, Long Island, New Jersey area and by telephone via her website [www.katsangeleyes.net](http://www.katsangeleyes.net).
