*This Is How You Lose the  
Time War* Hardie Grant  
Publishing

Adventurous Gardener  
seeks relationship with  
Tropical Plant... Tropical  
plants are energizing.  
They awaken a tired

summer garden with lush, sensuous foliage and fascinating flowers and turn a suburban patio into a sophisticated, late-night paradise. But if you garden in a temperate climate and have been reluctant to commit to what you're sure will be too much work, it's time to let *Tropical Plants and How to Love Them* author Marianne Willburn act as your tropical matchmaker. Using five relationship types to help you understand the different levels of care required for many common (and

uncommon!) tropicals, Marianne introduces you to an impressive array of outstanding tropical plants by providing care instructions, easy tips for seeing these tropical beauties safely through the winter, and advice for designing a tropical paradise of your own. *Tropical Plants and How to Love Them* gives you permission to jump headfirst into: A summer romance that ends with the first frost. A long-term commitment to beautify indoor and outdoor spaces. A friends-with-

benefits relationship that yields exotic flavors and fragrances. A breakup with that high-maintenance beauty. A best friend relationship that lasts a lifetime. From the striking red leaves of the Abyssinian banana to the unusual flowers and healing powers of turmeric, there are hundreds of tropical plants worth loving. Find your new sweetheart in the pages of *Tropical Plants and How to Love Them*.

Charlesbridge Publishing

Discover the joys of growing herbs indoors as houseplants and meet the best varieties for cooking, crafting, and all-around enjoyment.

### *Herbal Houseplants*

Hardie Grant Publishing  
The Complete Book of Ferns is filled with botanical information, indoor and outdoor growing and care information, details on propagation, display ideas, and even craft projects. This gorgeous book is authored by Mobe Weinstein, the Foreman of Gardeners at

the New York Botanical Garden in the Bronx and a veteran guest on the Martha Stewart Living TV show and other media outlets. Houseplants in general are in ascendance, but no category is hotter than ferns. From the otherworldly Staghorns—mounted like antler trophies in homes throughout the world—to the classic Boston Ferns and newer varieties like Crispy Wave, ferns are definitely back in fashion. And to no one's surprise. After all, ferns are among

the very oldest plants on the planet, with a long and storied history. There are tens of thousands of known varieties of ferns. In the Victorian Era, ferns created an absolute craze for more than 50 years. They re-emerged as integral home décor accessories in the '50s and '60s, and who didn't spend time in a "Fern Bar" back in the '80s? And they are back again. This comprehensive reference starts its examination of ferns 400 million years ago, when the first species of this group of

spore-reproducing plants appeared on Earth, exploring their evolution and eventual incorporation into human culture, including the powers associated with them and their practical and ornamental uses. Then, after an exploration of fern botany—its parts, how it grows, its variability in size and form, habitats, propagation, etc.—you'll learn how to green your indoor and outdoor environments with ferns. Every aspect of fern care is covered:

potting/planting, watering, fertilizing, pest and disease control, and more. With this knowledge absorbed, explore creative planting projects, like terrariums, vertical gardens (living walls), mixed tabletop gardens, and moss baskets. To make your survey of ferns complete, create pressed fern art, fabric wall hangings with chlorophyll-stained designs, cyanotypes, and hand-made fern-decorated paper. In the end, you will understand why this ancient plant

class continues to be all the rage.

*Gardening* Frances Lincoln

A hands-on guide to transforming small urban spaces into lush, plant-filled retreats. In *Green*, Jason Chongue explains and simplifies how to curate and look after plants in small urban spaces. He provides a practical and personal guide to creating urban gardens and styling with plants, perfect for a range of environments and climates, inside or out. From balconies, porches,

courtyards and small backyards to entryways, offices and living spaces, this 'how to' guide is an approachable resource for gardeners of all types. Chapters cover understanding your climate, a plant maintenance calendar, curating a range of spaces and appreciating plants in public spaces, as well as quick tips for styling and plant care. Jason also invites 'Plant People' across the globe to provide an insight into how people are inspired by nature. Green is the

perfect guide to small-space gardening, beautifully photographed and illustrated, and will help you transform your indoor and outdoor spaces into a lush, healthy oasis in no time. **Plant Society** Cool Springs Press This book will turn even the brownest thumbs green! Houseplants add style, clean the air, and bring nature indoors. But they are often plagued with problems—aphids, mealybugs, mites, and thrips to name just a few. **What's Wrong With My**

Houseplant? shows you how to keep indoor plants healthy by first teaching you how to identify the problem and solve it with a safe, natural solution. This hardworking guide includes plant profiles for 148 plants organized by type with visual keys to the most of common problems, and the related organic solutions that will lead to a healthy plant. [The Complete Book of Ferns](#) Artisan Books Whether you have a roof terrace, a tiny balcony or just a window sill, there's no excuse not to do some

gardening. In *Modern Container Gardening*, Isabelle Palmer shows just how easy it is to get started in the garden – and how to make the most of every little space. *Modern Container Gardening* is the perfect book for novice gardeners who may have mastered the art of indoor plants and are ready to take it outside. The chapters include the basics, how to make a garden in a day, weekend projects, one-pot wonders, window boxes and finishing touches. It features 28 projects with

a mix of small gardens, singular containers and window boxes, all of which are stylish and easy to manage. Isabelle also offers advice on how to upgrade store-bought containers with a lick of paint, transforming the look of your plants. With clear step-by-step instructions and advice on which plants suit your space, as well as how to care for them, this is an accessible book for anyone looking to start their own small garden. *Your Houseplant's First Year* Timber Press

*Green Home* explains how to 'green up' your life with an array of houseplants, and has been a bestseller in author Anders Royneberg's home country of Norway. Living with plants can enliven and enrich your surroundings, promoting feelings of relaxation and well-being. But where to start with curating that vital indoor collection? *Green Home* features all the green plants Anders has collected in his own apartment of 50 square meters – over 100 plants – and how this inspires him

towards greener, more balanced living. With a guide to houseplant types, hints and tips on how to get your plants to thrive and also on how to integrate them into your home décor scheme, it's a plant book with added personality.

### **Indoor Plant Care 101**

Cool Springs Press

The House Plant Expert is one of the books in the Expert series written by the world's best-selling gardening author. Quite simply, the best-selling gardening book in the world. Over a million

copies have been sold in the U.S, and nearly 14 million worldwide. According to one reviewer - "after the Bible, the best-selling reference book of all time." In a basketful of countries it has taught people how to choose and care for their indoor plants. Its style of dealing with each plant with drawings, photographs and no-nonsense text has become a legend in the publishing world. If you have house plants (and who doesn't?) you need this book.

*Wild at Home* Gingko Press

\*\*\* A stylish addition to the current craze for indoor greenery, this is as much about how you use plants as an integral part of contemporary decor as how to keep them alive and well. - The Sunday Times Houseplants are hot, and creative interior planting is becoming increasingly easy to achieve. The new wave of unusual and dramatic indoor plants is as much about décor and statement as greenery. Used aesthetically, as a

focal point and sculptural element in interior design, indoor gardening is not just about possessing or growing a plant, but about using it as an accessory combined with other objects to create a particular style and mood. In this much-needed book, now reissued with a new cover and updated source directory, Ian and Kara show you how to transform your home with plants and tells you which plants will work best where and how to care for them. From strikingly geometric terrariums to

pretty hanging baskets, practical herb pots and colourful window displays, this book is packed full of exciting and gorgeous ideas. Specially commissioned photography by Nick Pope throughout proves that bringing the outdoors in really is the best form of interior design.

**Inside Out** National Geographic Books Put the fun into gardening with this great family guide to growing plants indoors and out, all year round. How do plants work? How can I grow

tomatoes? How can I encourage garden wildlife? RHS Get Growing will answer all these questions in a fun and accessible guide. Perfect for parents and children who enjoy engaging with the outdoors and want to do more activities together, or for beginner gardeners just starting out, this book explains how plants work, describes the building blocks of gardening, and shows how to grow everything from cacti to cucumbers. With great facts and practical

projects, giving the reader a lot of information, it's an ideal, hands-on introduction for complete beginners, and designed to inspire a life-long love of gardening. In this book, you will learn to: Learn about the plants and animals that make up the ecosystem of any garden Plant seeds together with your children and watch as they grow Carry out experiments - from making a wormery to mapping rain shadows Make delicious recipes from your home-grown produce The projects and

experiments are bite-sized and self-contained, ideal for weekends, holidays and even home-schooling. This book is ideal for parents and teachers who want to get kids connected with nature, experiencing the world and relating to the food that they eat. All the guidance is backed by scientific and educational research, drawn together by the team of RHS experts. Get your children growing shoots and seeds, whatever their ages, and watch them fall in love with the natural

world with RHS Get Growing, the complete family gardening guide. *Houseplant Handbook* Fox Chapel Publishing Discover the Secrets to Thriving Indoor Plants and Transform Your Home into a Lush Green Oasis Do you long to bring nature indoors and enjoy the calming benefits of a green sanctuary, but always seem to end up with wilted leaves and disappointing outcomes? **Wonder Plants 2** Hardie Grant Publishing  
Many have discovered the joys of living with indoor

plants. They contribute not only to a healthier environment, but with proper styling, add a nice element to interior design schemes. For some living in more urban settings it is a matter of necessity as home gardens are rare. For others living in more rural or suburban surroundings it is a matter of choice. *Aesthetica Botanica* visits the homes of artists, florists, gardeners and other plant enthusiasts who exemplify green living and are happy to share their stories and tips on

caring for and decorating with plants. With handy chapters on green plants, cacti and succulents, and flowers, this book caters to any inclination providing practical information alongside stunning photographs. *Rooted in Design* Hardie Grant Publishing  
A stunningly illustrated A-Z celebration of popular indoor plants Step inside the psychedelic world of *Plantphabet*, a magical A-Z celebration of indoor plants. Vividly brought to life in full-colour illustrations, discover

bizarre and wonderful BFFs (best fronds forever) that help make you healthier and happier, and learn what makes them tick too. PRAISE FOR PLANTPHABET 'Filled with glorious plant love, this alphabetic journey is sure to inspire joy for plant people of all sorts.' Jason Chongue, The Plant Society 'Definitely our kind of alphabet! Featuring stunning, vibrant illustrations, Plantphabet is a visual feast for plant lovers.' Lauren Camilleri & Sophia Kaplan, Leaf Supply

'Plantphabet is a fantastic decoding of the sometimes daunting decision to become a plant parent.' Benjamin Fountain, Florist & Art Director  
[The Forest Garden Greenhouse](#) Hardie Grant Publishing  
 "Hilton Carter's love for plants is infectious... His lush and exuberant displays are inspiring reminders that plants can be so much more than neat little containers on a window sill." Grace Bonney, Founder and Editor-in-Chief,

Design\*Sponge Take a tour through Hilton's own apartment and other lush spaces, filled with a huge array of thriving plants, and learn all you need to know to create your own urban jungle. As the owner of over 200 plants, Hilton feels strongly about the role of plants in one's home – not just for the beauty they add, but for health benefits as well: 'having plants in your home not only adds life, but changes the airflow throughout. It's also a key design element when styling your place. For me,

it wasn't about just having greenery, but having the right variety of greenery. I like to see the different textures of foliage all grouped together. You take a fiddle leaf fig and sandwich it between a birds of paradise and a monstera and.... yes!' You will be armed with the know-how you need to care for your plants, where to place them, how to propagate, how to find the right pot, and much more, and most importantly, how to arrange them so that they look their best. Combine

sizes and leaf shapes to stunning effect, grow your own succulents from leaf cuttings, create your own air plant display, and more.

#### *How to Raise a Plant*

Simon and Schuster Plant Society is your 101 guide on how to love and keep indoor plants. Even if you've killed every house plant in the past, plant-cultivator and stylist Jason Chongue will show you that it's really not that difficult. Covering everything from basic plant care and re-potting, to plants suited to pets

and propagating, this book will help remove your fear of gardening and inspire you to create you own indoor oasis. It includes profiles of 25 ideal tropical indoor plants, organised from the most low-maintenance species through to the more exotic and labor-intensive plants. On top of this, the book offers styling advice including how to decorate different rooms in your home with plants, as well as suggestions on pots and planters to give your plants more personality.

Throughout the book, you'll also find interviews with 'Plant People' from around the world, who provide an insight into their unique relationships with house plants. Indoor gardening really is this simple and fun!

*What's Wrong With My Houseplant?*

Independently Published Houseplants offer the perfect solution to the urban dweller, lacking in space - indoor and outdoor - and in *Living With Plants*, botanical-stylist, Sophie Lee, shows you simple but innovative

ways to make your home gorgeously green. Starting with the basics, learn how to pick the right plant for your home (and specifically what room), what levels of sunlight your plant needs and the best space for your plants to thrive. Packed with information on plant types and breeds, how to dress a windowsill on a budget and essential tools, you'll also discover a comprehensive guide on plant care, teaching you how to nurture your plants correctly - from propagation and cuttings,

to watering and potting, to recognising early signs of plant trouble and how to prevent them. With handy tips and tricks dotted throughout plus creative DIY plant projects like how to make your own terrariums to gorgeous kokedama and macramé plant hangers, *Living With Plants* is a beautiful manual of ideas for those who want to find inspiring ways to bring the beauty of nature into their home.

*Sanctuary of Your Own*

Hardie Grant

Looking to bring some

outside greenery indoors? Maybe you already have an indoor garden and are looking to create a botanical jungle. Whatever the case may be, houseplants are an ideal inexpensive way to beautify your dwelling. You'll be rewarded with purer air and you're sure to enjoy watching your plant sprout, climb, and even flower. Of course, before you start working on crafting a greenhouse, you need to know what kinds of plants you can grown in your home and which plants are best

suited to your taste and style. Houseplants For Dummies introduces dozens of different foliage plants, flowering plants, cacti, and exotic varieties. Your green thumb is sure to get even greener once you've read about: Houseplant basics Identifying indoor microclimates Indoor plant "biographies" Differentiating between direct, indirect, and low light Watering needs Rules of fertilizing Temperature and growing cycles Houseplants For Dummies is packed with

houseplant growing techniques, tips, tricks, and even goes the extra mile with a chapter devoted to the various ways you can display houseplants if you're looking for some bragging rights! Whether you're new to the world of houseplant basics or you're a seasoned gardener, you'll get the "inside dirt" on topics such as: Various potting soil mixes Preparing plants for indoor life Cleaning, pruning, and staking Propagating houseplants Dealing with

pests and diseases  
 Building your own  
 controlled climate And  
 much more The material  
 is arranged into six clear  
 and helpful sections:  
 houseplant basics,  
 houseplant profiles,  
 growing essentials, potted  
 plant maintenance,  
 houseplant settings, and  
 valuable ideas - each  
 section helping you create  
 your own indoor forest.  
 Even if you're convinced  
 you have a black thumb,  
 Houseplants For Dummies  
 will have you living  
 among the green in no  
 time!

*Green Ten Speed Press*  
 Houseplants are more  
 popular than ever  
 before—especially with  
 millennials, who are  
 setting up their homes for  
 the first time and  
 discovering that nothing  
 can add energy, style,  
 and that essential “lived-  
 in-ness” to their spaces  
 better than a little bit of  
 green. Whether it’s a  
 statement-making fiddle-  
 leaf fig or a tiny tabletop  
 succulent, a houseplant  
 instantly elevates the look  
 of your home. But where  
 to begin? In *Decorating  
 with Plants*, Baylor

Chapman walks readers  
 through everything they  
 need to know to bring  
 houseplants into their  
 home. First, there’s *Plant  
 Care 101*: from how to  
 assess light conditions to  
 tricks for keeping your  
 plants alive while on  
 vacation, Chapman gives  
 readers the simple,  
 foundational info they  
 need to ensure their  
 plants will thrive. Then  
 she introduces us to 28 of  
 her favorites—specimens  
 that are tough as nails but  
 oh-so-stylish, from the  
 eye-catching Rubber Tree  
 to the delicate Cape

Primrose. Finally, she guides readers through the home room by room: Place an aromatic plant like jasmine or gardenia to your entry to establish your home's "signature scent." Add a proper

sense of scale to your living room with a ceiling-grazing palm. Create a living centerpiece of jewel-toned succulents for a dining table arrangement that will last long after your dinner party. From air

purification to pest control, there's no limit to what houseplants can do for your home—and Decorating with Plants is here to show you how to add them to spaces big and small with style.
