"Homeschoolers understand that a solid high school education involves more than just mastering science, math, and literature. Although important, especially if college lies ahead, equally important are subjects the student is passionate about, subjects they will study for hours on end "just for the fun of it." Delight directed learning is the true "secret sauce" of a great homeschool education."--Page [4] cover.

But now that career seems to be behind him. So what's next for Mike Muñoz? In this funny, biting, touching, and ultimately inspiring novel, bestselling author Jonathan Evison takes the reader into the heart and mind of a young man determined to achieve the American dream of happiness and prosperity--who just so happens to find himself along the way.

Research in Constructing the Elementary School Curriculum iUniverse

Here is an antidote to the talk about failing schools, education reform, test scores, teacher-value, curricular controversies, school choice. It is about what counts—a young person's self-formation

and a teacher's work to support it. It's a quiet book, an illustration of what happens as thoughtful students interact with sensitive adults. Its title, Letters of Recommendation, hints at the angst felt about getting accepted by college, employer, and the world at large. But that angst hides the real challenge—forming an aware, purposeful sense of self. Letters of Recommendation shows this pedagogical problem when all the externals are right. Emilia, a girl who seemingly has it all, asks an admired teacher, Doc, for a letter of recommendation supporting early admission to a top college. Emilia withdraws the request, beginning to doubt what she's doing, and why, and what she really wants in life. Doc senses her unease. Letters result, back and forth through the school year, with subtle attention to the girl's emerging sense of self and the teacher's presence, both humane and professional. The year ends, the exchange stops; life's externals appear settled for now, with the larger questions deepened, but still open, as they always are. Letters offers no easy steps, no how-to's, no magic methods. Instead, it heightens awareness of what goes on as good education takes place. It affirms a student's self-reliance in the face of felt uncertainties and a teacher's trust that her presence as a full, human person has value and meaning in the work of education. The letters themselves do not exemplify an instructional method, but serve to direct attention to the inner lives of a student and her teacher. The letters create a thought-provoking book, a pedagogical dialogue. And the dialogue's privileged setting does not celebrate the rich and famous. It is a way to set aside the material complications, which intrude in our lives and make it difficult to concentrate on what is essential, not only for the few, but for each and all.

Writing an amazing college admission essay is easier than you

think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.
