SANTOS TANIYA

Sociolinguistics Penguin UK
New edition of widely-acclaimed textbook, including new sections on up-to-date topics for the 1990s.

An Introduction to Sociolinguistics

Edinburgh University Press
La presente obra ha sido concebida como manual para la asignatura de Sociolingüística de la Lengua Inglesa prestando especial atención a las características particulares de los alumnos que estudian en la UNED. De hecho, este material promueve una aproximación a la sociolingüística inglesa desde una perspectiva de trabajo autónomo, y en gran medida autodidacta, apoyándose en la lectura de una selección de fragmentos tomados

de obras representativas para este campo de estudio. Este libro es una obra introductoria a la sociolingüística con especial atención a los países de habla inglesa. Así, abundan los ejemplos y referencias al estudio de esta disciplina en relación con la lengua inglesa, y frecuentemente se describen situaciones particulares en países de todo el mundo donde se usa el inglés como medio de comunicación. El objetivo primordial de este manual es proveer al estudiante de los principios sociolingüísticos básicos y las líneas de investigación más representativas que le permitan reflexionar sobre numerosas situaciones de interacción humana en las que la sociolingüística juega un papel destacado. Finalmente, se espera que al finalizar la lectura y estudio de este

libro, el lector haya desarrollado el grado de sensibilidad necesario para percibir la presencia de rasgos sociolingüísticos en su interacción oral y escrita con otros hablantes de inglés.

Language in its Social Context Edinburgh University Press

This single-volume guide equips students of sociolinguistics with a full set of methodological tools including data collection and analysis techniques, explained in clear and accessible terms by leading experts. It features project suggestions, troubleshooting tips, and data assessment across diverse languages. Explores an array of anthropological and scientific methods that cover the full spectrum of contemporary sociolinguistics, from the study of style and discourse analysis to

the study of phonetics Details the types of data available, and explains collection methods ranging from sociolinguistic interviews to linguistic landscapes Provides comprehensive coverage of data analysis, subdivided into segments on linguistic and socio-cultural techniques, and linked to numerous languages Includes useful summaries, seasoned advice and troubleshooting tips, ideas for research projects, and a full directory of supplementary reading

AN INTRODUCTION TO SOCIOLINGUISTICS

OUP Oxford
This accessible textbook offers students the opportunity to explore for themselves a wide range of sociolinguistic issues relating to the French language and its role in societies around the world. It is written for

undergraduate students who have a sound practical knowledge of French but who has little or no knowledge of linguistics or sociolinguistics. It combines text with practical exercises and discussion questions to stimulate readers to think for themselves and to tackle specific problems. In Part One Rodney Ball looks at the diversity of the French-speaking world and the function of French in particular countries and regions, including Switzerland, Belgium and Canada. He explores its status in relation to other languages and its role in intercommunity relations. In Part Two the focus shifts to individual language features and among topics explored are regional speech forms, the differences between written and spoken French, the 'social meaning' of different styles and

levels of language, and French used by immigrants. Part Three looks at recent developments in the French language particularly in France itself. Key features of this book: * Informative and comprehensive: covers a wide range of current issues * Practical: contains a variety of graded exercises and tasks plus an index of terms * Topical and contemporary: deals with current situations and provides up-to-date illustrative material * Thought-provoking: encourages students to reflect and research for themselves Rodney Ball is a lecturer in French in the School of Modern Languages, Southampton University. He teaches General Linguistics and French Sociolinguistics, on which he has published a number of articles, and is involved in designing

practical courses.

Corpus and Sociolinguistics Cambridge University Press

Publisher description

The German-Speaking World Oxford University Press

With examples of conversation, this book is a lively account of social and intellectual import of everyday talk about language.

How We Talk about Language John Wiley & Sons

The Guidebook to Sociolinguistics presents a comprehensive introduction to the main concepts and terms of sociolinguistics, and of the goals, methods, and findings of sociolinguistic research. Introduces readers to the methodology and skills of doing hands-on research in this field Features

chapter-by-chapter classic and contemporary case studies, exercises, and examples to enhance comprehension Offers wide-ranging coverage of topics across sociolinguistics. It begins with multilingualism, and moves on through language choice and variation to style and identity Takes students through the challenges involved in conducting their own research project Written by one of the leading figures in sociolinguistics

Language, Society and Power

Cambridge University Press

Designed for beginning undergraduates studying for degrees in English, this textbook provides an introduction to a range of sociolinguistic theories and the insights they provide for a greater understanding of varieties of English,

past and present. Drawing on both qualitative and quantitative approaches to sociolinguistic variation, the book provides a systematic overview such topics as: *'English' as a social and as a linguistic concept *English speech communities *Social and regional dialectology in relation to varieties of English *English historical sociolinguistics, from Old English to late Modern English *Sociolinguistics and change in English *Outcomes of contact involving varieties of English *English and language planning *English, sociolinguistics and linguistic theory. The book contains data drawn from studies of English as it is used around the world. Throughout, there is an emphasis on facilitating a deeper understanding of linguistic variation in English and the

social, political and cultural contexts in which speakers and writers of English operate.

Sociolinguistics: A Very Short Introduction Blackwell Pub

An introduction to sociolinguistics exploring the link between language and society. The author draws on a range of languages to illustrate his survey. The variations in spoken English are also explored. The author argues that the varieties of language should be preserved if the dangers of a culturally standardized world are to be avoided.

Dictionary of Sociolinguistics

Harmondsworth : Penguin

An accessible and entertaining textbook that introduces students to sociolinguistics in a real-world context, with issues they care about.

Introducing Language and Society John Wiley & Sons

A brief but comprehensive introduction to sociolinguistics, the study of ways in which groups of people use language. It makes links with related disciplines such as history, politics and gender studies.

An Introduction to Sociolinguistics A&C Black

This comprehensive new edition of Wardhaugh's textbook incorporates additional study features and numerous new and updated references to bring the book completely up-to-date, whilst maintaining the features that made the book so popular with lecturers and students: accessible coverage of a wide range of issues, clearly written, and with useful student study features. A fully revised new edition of Ronald

Wardhaugh's popular introduction to sociolinguistics, which now includes over 150 new and updated references and new study features throughout. Features new "Explorations" sections in each chapter incorporating suggested readings, discussion sections, and exercises - all designed to encourage students to develop their own skills and ideas. Reflects new developments in the field, providing greater focus on ideas such as identity, solidarity, and markedness. Provides balanced coverage of a range of topics, including: language dialects, pidgins and Creoles, codes, bilingualism, speech communities, variation, words and culture, ethnographies, solidarity and politeness, talk and action, gender, disadvantage, and planning. Comprehensive and

accessible, it is the ideal introduction for students coming to sociolinguistics for the first time

The French-Speaking World John Wiley & Sons

The language we use forms an important part of our sense of who we are - of our identity. This book outlines the relationship between our identity as members of groups - ethnic, national, religious and gender - and the language varieties important to each group. What is a language? What is a dialect? Are there such things as language 'rights'? Must every national group have its own unique language? How have languages, large and small, been used to spread religious ideas? Why have particular religious and linguistic 'markers' been so central, singly or in combination, to the

ways in which we think about ourselves and others? Using a rich variety of examples, the book highlights the linkages among languages, dialects and identities, with special attention given to religious, ethnic and national allegiances.

Sociolinguistics Editorial UNED

This is a definitive introductory text to modern sociolinguistics that looks at the study of language and society through the concept of identity. It uses these sociolinguistic constructs of identity to tie together current concepts and methods in the field, offering a full overview of the discipline, both past and present. Deckert and Vickers adopt an interdisciplinary approach, introducing work from a variety of fields that examine sociolinguistic data, from

linguistics to anthropology, sociology, psychology and education. The book moves from looking at language varieties and globalization to a close examination of language in social interaction, covering the concepts of ideology and power. Throughout, the authors offer keen insight into all of the topics, issues and methods that students of language and society will need to understand. The chapters contain a range of pedagogical features, including key terms, study questions, chapter summaries and further reading. This is an essential new text for all those studying contemporary sociolinguistics, suitable for undergraduates and postgraduates alike.

An Introduction to Sociolinguistics
Psychology Press

Combining text with practical exercises and discussion questions to stimulate readers, this textbook covers a wide range of sociolinguistic issues relating to the Spanish Language and its role in societies around the world.

Gendered Talk at Work Cambridge University Press

Most societies in today's world are multilingual. 'Language contact' occurs when speakers of different languages interact and their languages influence each other. This book is an introduction to the subject, covering individual and societal multilingualism, the acquisition of two or more languages from birth, second language acquisition in adulthood, language change, linguistic typology, language processing and the structure of the language faculty. It

explains the effects of multilingualism on society and language policy, as well as the consequences that long-term bilingualism within communities can have for the structure of languages. Drawing on the author's own first-hand observations of child and adult bilingualism, the book provides a clear analysis of such phenomena as language convergence, grammatical borrowing, and mixed languages.

Research Methods in Sociolinguistics

Routledge

Why have 1500 separate languages developed in the Pacific region? Why do Danes understand Norwegians better than Norwegians understand Danish? Is Ebonics a language or a dialect? Linguistics tends to ignore the relationship between languages and the

societies in which they are spoken, while sociology generally overlooks the role of language in the constitution of society. In this book Suzanne Romaine provides a clear, lively, and accessible introduction to the field of sociolinguistics and emphasizes the constant interaction between society and language, discussing both traditional and recent issues including: language and social class, language and gender, language and education, and pidgins and creoles. The text shows how our linguistic choices are motivated by social factors, and how certain ways of speaking come to be vested with symbolic value and includes examples drawing on studies of cultures and languages all over the world. This new edition incorporates new material on current issues in the study of

gender as well as other topics such as the linguistic dimension to the ethnic conflict in the Balkans, and the controversy over Ebonics in the United States.

An Introduction to Language and Society Cambridge University Press

Provides a broad coverage of sociolinguistics, including macro- and micro-sociolinguistics and a range of approaches within variationist, interactional, critical and applied traditions. In explaining sociolinguistic terminology, the dictionary is able to map out the traditions and approaches that comprise sociolinguistics and will thus help readers find their way around this fascinating but complex subject.

The Oxford Handbook of Sociolinguistics
Routledge

This is the first book in the field of workplace discourse to examine the relationships among leadership, ethnicity, and language use. Taking a social constructionist approach to the ways in which leadership is enacted through discourse, Leadership, Discourse, and Ethnicity problematizes the concept of ethnicity and demonstrates the importance of context—particularly the community of practice—in determining what counts as relevant in the analysis of ethnicity. The authors analyse everyday workplace interactions supplemented by interview data to examine the ways in which workplace leaders use language to achieve their transactional and relational goals in contrasting "ethnicized" contexts, two of which are Maori and two

European/Pakeha. Their analysis pays special attention to the roles of ethnic values, beliefs and orientations in talk.

Leadership, Discourse, and Ethnicity

Edinburgh University Press

Gendered Talk at Work examines how women and men negotiate their gender identities as well as their professional roles in everyday workplace communication. Written accessibly by one of the field's foremost researchers explores the ways in which gender contributes to the interpretation of

meaning in workplace interaction uses original and insightfully analyzed data to focus on the ways in which both women and men draw on gendered discourse resources to enact a range of workplace roles illustrates how a qualitative analysis of workplace discourse can throw light on the many ways in which workplace discourse provides a resource for constructing gender identity as one component of our complex socio-cultural identity
